Isn't a messiah who runs away from his field of labor, leaving thousands of sufferers behind him, on the pretext that his mission is ended, departing rather far from the biblical conception?

Will the incoming council grasp the opportunity to perpetuate the old scale of salaries and extravagant expenditures by recasting that much vaunted retrenchment ordinance? Will a duck swim?

It is to be greatly feared that the success of the Denver diviner healer will encourage hotel keepers and railroad agents in other cities to get up similar attractions to stimulate business by inviting the immigration of invalids and cripples.

"It will not be Allison," says the Chicago Chronicle. Perhaps not, but if so it will not be because he has not the loyal backing of the people of Iowa and it will not be because Allison is not good enough for the honor.

Irrigation is the hope of the farmer in the arid region of the United States. That is why the coming state irrigation congress to be held next month at Sidney will attract the special attention of the farmers living on the borders of the sandhills in Nebraska.

Governor Holcomb has committed himself in writing to the opinion that at the present time there is no probability whatever of another session of the late legislature. As the governor is the man who must call the legislature if it is to be convened in extra session at all his opinion ought to go a great way.

Nebraska jobbers insist that they are perfectly willing to handle Nebraska-made sugar if Nebraska consumers will only cease discriminating against the same product. They also assure us that the discrimination against Nebraska-made sugar is based on prejudice alone.

There is nothing in the charter which forbids the newly elected councilmen to harbor aspirations for the presidency of the council. Why don't Jim Allan, Sam Dubois, Lew Burmeister and the rest of them put aside their bashfulness and come out with their candidacies? They have as much right to ask for the honor as Taylor, Prince and Saunders.

Should a Turkish war be precipitated in Europe it is quite likely that the hostilities will be carried on chiefly on water, as was the recent war between China and Japan. The part which the navy plays in modern warfare is greater if anything than it was during the wars of a quarter of a century ago.

The latest Washington gossip is that a plan for the annexation of Hawaii in which President Cleveland is to be secured through Congress soon after it convenes. The imaginative Washington correspondent has forced the president to turn all the way around and accept a position which he denounced but a few months ago.

Under the law boards of equalization can make uniform assessments levied, but they cannot raise the assessment total. Therefore, when an incompetent or corrupt assessor returns corporation or other property at abnormally low rates there is no redress short of the election of honest men for the office of assessor.

The State Board of Pharmacy at its sitting here examined quite a number of candidates for diplomas. The examination is said to be rigid and sweeping. It calls for accurate knowledge upon the part of any man who attempts to compound prescriptions. It is the safeguard which the state seeks to throw around all citizens unfortunate enough to fall ill and who must swallow drugs. It makes the drug clerk feel his responsibility to the state if not to his employer, who, judging from the average salaries paid the clerks, accounts them irresponsible.

OUR SIBIRIAN EXPORTS.

The report made by the chief of the bureau of statistics, showing the value of exports last month and for the ten months ending with October, is not a gratifying exhibit. There was a slight gain last month over the corresponding month of 1894, but for the ten months ending October 31 there was a great shrinkage in exports, indicating that the record for the current calendar year will show a falling off considerably in excess of \$100,000,000.

This condition would not be so serious if it were not for the fact that excessive imports continue, thus steadily increasing our indebtedness to Europe. The imports of merchandise at New York last month were nearly \$100,000,000 greater than for the month of October last year, while the increase in exports was only a little over \$4,000,000.

Some expression is expected from the coming congress regarding our foreign policy and it is to be apprehended that extreme views will prevail, but there is less concern as to what this congress may do than there is regarding the possible course of the succeeding administration and congress.

FOR SPECIFIC DUTIES. The Philadelphia Record is one of the ablest advocates of tariff reform and its advice to democrats ought to carry a great deal of weight.

It appears to be the opinion of republican representatives and senators who are gathered at Washington that the coming session of congress will be short and that little will be done beyond the passage of the necessary appropriation bills.

MCCULLACH REINDUSTRIES HIS BOOM. The effort to start a boom for the editor of the "Globe-Democrat" as republican candidate for editor originates, as we believe, in the satanic machinery of Colonel Bob Ingersoll.

PHILANTHROPICAL IN DEFECT. And still we see moderately gay—not unreasonably merry nor ostentatiously hilarious but cheerful in a subdued and chastened sort of way.

PERSONAL AND OTHERWISE. Charles H. Gibson, who as a result of the upheaval in Maryland, is serving his last term as senator, has been generally regarded as the best man in the senate.

REPUBLICAN KENTUCKY.

New York Sun. Good Lord, and has it come to this? Are all the landholders dumped upon as in a calvary?

Washington Post: If Secretary Morton is not convinced that he touched numerous sore spots in his last interview he should read the democratic papers.

Washington Star: Secretary Morton is a man of such varied resources, a man whose intellect sets up a vigorous current in so many diverse channels, that it does not seem altogether unreasonable to suggest his cogitation in the question of diluting his cold water.

Chicago Post: Senator William B. Allison's candidacy for the republican presidential nomination in 1896 is definitely avowed today.

Chicago Record: Mr. Allison now steps forward to introduce what on first glance looks like a very radical and powerful young man. It is being brought to view, moreover, at just about the right time.

Davenport Republican: The statement of certain newspapers that Senator Allison's visit to Chicago in company with Congressman Henderson was intended as a launching of his boom for the presidency is upon its face ridiculous.

Minneapolis Times: The first of the republican "possibilities" to begin an open and aggressive campaign for next year's presidential nomination is Senator Allison.

Indianapolis Journal. 'Tis now the season when we make the most of our winter weather. And hungry boarders take the cake. The last one on the platter!

Washington Star. Nay, let ye young girl ride ye bike. For truly it is said, A wheel's all right, except it go Unto ye young girl's head.

Philadelphia Press. There's nothing new beneath the sun. So Solomon has guessed— But perhaps the sun itself is A warmed-over jest.

Detroit Tribune. The bride and groom were very shy. Like brides and grooms before— A million dollars or more.

New York Recorder. If torturing was used today, I'd rather see the man in the moon than the man in the moon many times. And when he died the people said, "Our friend has gone to warmer climes."

Terre Haute Express. Sound every sackbut in the land, And beat the blithe hewzag; Conclude ye the title, and Marlborough's not the swag.

Cincinnati Enquirer. The prize-fight man, the while he can, Fills the papers with roar and boast, Broth' at such a banquet he has had, He becometh a bore and roast.

Detroit Free Press. There are waiters galore, yet they call for The demand all reason surpasses. As the warm cakes they eat, of toothsome succulent, The boarders all shout for 'em loaves.
