THE OMAHA DAILY BEE: SATURDAY, NOVEMBER 16, 1895.

SOLID FOR NEBRASKA SUGAR Delegation of Jobbers Visit the Norfolk

Factory.

WORKINGS OF THE PLANT EXPLAINED

Resolutions Unanimously Adopted Looking to the Pushing of the Sale of the Home Growp Product.

Appreciating the importance that the beet sugar industry in the state has attained during the last few years and desiring to give the merchants of the state a better knowledge of the magnitude of the industry, yesterday an excursion was planned by the Commercial club, the Fremont, Elkhorn & Missouri Valley railroad officials and those interested more a premium for the best growers to treat the days. The meeting was called for the purdirectly in the development of the beet sugar industry.

At 8:45 o'clock yesterday morning a special train, composed of General Manager Burt's private car and one day coach. left the Webster street depot, bearing the Omaha contingent of the representatives of Nebraska and Iowa business men who had been invited to visit the beet sugar plant at Nor-folk. Those leaving Omaha were: General Manager Babcock of the Union Stock yards. A. C. Foster, manager for Swift & Co.; J. Millard, president of the Omaha National bank; Dan Farrell, syrup manufacturer; Dudley Smith of the Steele-Smith Grocery com pany, Irving Allison of the Omaha Hydraul Pressed Brick company, J. S. Brady of Mc-Cord & Brady, W. H. Roberson, manager of Dun's Commercial agency; W. A. Wyatt, manager of Bradstreet's Commercial agency; Joseph Hayden, J. G. Jamison and T. Thomas of Hayden Bros.; E. Rosewater of The Bee. S. A. McWhorter, John T. Stewart of Stewart Bros. of Council Bluffs; Jacob Kopp of Kopp. Driebus & Co., manufacturing confectioners; Henry Meyer of Meyer & Rapke O. C. Holmes, secretary of the Manufacturers' and Consumers' association; General Manager Burt, General Superintendent Hughes, General Freight Agent Morehouse, Assistant General Freight Agent Merchant, General Passenger Agent Buchanan and Contracting Freight Agent Stargis of the Elkhorn. At Fremont the excursionists were joined

by J. M. Raymond, H. P. Lau and Eli Plummer, representing the wholesale grocery bus-iness of Lincoln; C. H. Gere and A. L. Bixby of the Lincoln Journal, J. C. Harpman, harness manufacturer and wholesaler of Lin-coin, and president of the Manufacturers' and Consumers' association; T. F. Drummond of the Lincoln News, and S. A. Mosher, general agent of the Elkhorn at Lincoln. Fremont's contribution to the excursion consisted of R. V. Schneider of the Nye-Schneider com-pany, Mayor Fried, C. H. May, wholesale grocer, and Ross Hammond of the Fremont Tribune

At Norfolk the Nebraska representatives were met by the following named gentlemen fr m Sloux Cliy: C. Shenkberg of Schenkberg & Co., O. O. Tolerton of the Tolerton-Stetson ompany, J. V. Mahoney, commissioner Sious City Commercial association; Hon. George D. Perkins, John C. Kelly, editor of the Tribune; G. S. Hale of Emerson & Hale, H. E. Weatherwax of Ayers, Weatherwax & Reed, D. E. Howell of the Howell-Warfield company, W. H. Sammons, business manager of the Journal; H. C. Cheyney, general agent Chicago & Northwestern; F. S. McCabe, general agent of the St. Paul, Minneapolis & Omaba, and Fred Davis of the Journal.

THEY PRAISED THE PRODUCT.

The run from Omaha to Norfolk, 118 miles, was made in three hours and five minutes and when the train arrived Manager J. G. Hamilton of the Norfolk Beet Sugar company, who had chaperoned the party from Omaha, had the members to the Eikhorn dining room, where a splendid dinner was served, and then the special train was run to the sugar plant. There were but few men in the party who had ever visited a sugar factory, and it was something of an eye-opener to them to be allowed to examine the mammoth industry in full operation. Mr. Hamilton conducted the party, and explained the operations neces-sary to secure the sugar from sunbeams. He commenced with the large store rooms, from which the beets are dumped into a stream of warm water and carried into the

contain the amount of saccharine matter that makes their handling profitable to eithor the grower or the manufacturer. In France there are 65,000 acres in a condition similar to those found in many of the Ne-branka beet fields. Some unusual climatic condition is condition is supposed to have been respon-sible for the change that is working to the disadvantage of all concerned. The factory at Norfolk pays \$5 a ton for sugar beets that possess 12 per cent of seccharine matter and are 80 per cent pure. This year many of the beets offered do not come up the required standard, and the factory but has been practically compelled to take them, at prices ranging from \$2.50 to

of the best size for sugar, but they do no

The factory is employing 220 men and run ning day and night. It started on October and will probably finish the season's work may be offered during the season. Many of the beet growers who understand the situation are placing their beets in silo and waiting for better prices, which they hope to secure later in the season. The factory offers from 20 to 50 cents more per ton at the factory than beets fresh from the field, and growers who are able to hold their beets take advantage of this offer. There has been schemes were advanced that the reception some trouble in gotting ripened beets at the and entertainment committees, at whose be-factory, and the run now is promising better hest the meeting was called, were well nigh and the force will be kept on double time so long as beets can be secured. The pay roll at the factory for labor is \$15,000 a month. The waste from the factory is being fed to cattle to some extent, yet a large amount of that would be valuable in many ways, were other factories in operation that could use it, is now allowed to go to waste.

RESOLVED FOR BEET SUGAR.

The factory at Norfolk can only care for product of about 5,000 acres of sugar beets. The state could easily furnish beets or hundreds of duplicates of the Norfolk and Grand Island plants. The Standard Cattle company has decided to build a sugar beet plant at Ames, and other cities of the state are becoming aroused to the importance of After a thorough investigation of the work-

ngs of the plant the party started on the return trip to Omaha. Before reaching Fre-mont C. H. May of the firm of May Bros. Before reaching Fre-Fremont, called the attention of the members of the party, and Dudley Smith offered offered the following resolutions:

Whereas, We, the business men of Omaha, Lincoin, Council Buffs, Sloux City and Fre-mont hereby tender our grateful acknowl-edgment to the Fremont, Elkhorn & Mis-souri Valley Railroad company and its officials and to the managers of the Norofficials and to the managers of the Nor-folk Reet Sugar company for the courtesy by which we have been brought into clase touch with and more accurate knowledge of the business of sugar production in Ne-braska and the west. We recognize in the beet sugar industry a potent agency for the upbuilding and encouragement of this section of the country. With a soil thor-cughly adapted to sugar beet growing, we

The memorial and resolution were adopted by a unanimous vote, after I. M. Raymond had pleasantly asked that Lincoln be named before Omsha in the preamble. Then there were calls for Mr. Burt, and the general manager of the Elkhorn thanked the members of the party for their expression. The run from Norfolk to Omaha was made

in three hours. Enginee Dan Finley had planned to turn 'em over lively and he struck a seventy-two-mile-an-hour gate on leaving Norfolk, but a threatened hot box kept his ambition down to just a good stiff swing along the line. The members of the Sloux City party came on to Omaha and left for home over the Elkhorn at 6:10 o'clock last night.

OFF ON HIS SPELLING.

Was One Thing that Made Trouble for Mr. Simmons. That

The United States circuit court was in session but a few minutes yesterday afternoon long enough, however, for two prisoners to be arraigned and plead guilty. The first was James N. Simmons of Bell,

Arrangements to Entertain the Transmississippi Congress Delegates. WILL SHOW THEM A MERRY TIME

Committees Plan to Occupy the Spare Moments of the Visitors with Pleasant Drives, Cold Collations and Other Things.

Anumber of leading business and profes-March, the extent of the run depending sional men of the city gathered in the par-the quality and quantity of the beets that lors of the Commercial ciub last night to talk over plans for the entertainment of the delegates to the Transmississippi Commercial convember 25 and remain in session for four pose of obtaining the ideas of the men interested in the city on the subject, and as such was highly successful. In fact, so many good swamped, and went away well satisfied with themselves and the meeting.

When the meeting was called to order Mayor Bemis was made chairman, and beside him was placed Isaac W. Carpenter as an as-

sistant, each being chairman of one of the ommittees. It took but a brief while to explain the purposes of the meeting, and then those present were invited to give their views the manner in which the congress ought be entertained.

Judge Bradley, who has been an attendant t some of the past meetings of the congress, said that the congress in itself was a body of great importance, as it had come to rank next to the congress of the United States from the fact that the resolutions passed by it were seriously considered by representa-tives and senators, and had a considerable effect on national legislation. Moreover, the ongress frequently drafted instructions to vestern representatives and senators which the latter felt bound to carry out, as they issued from the brains of the western portion of the country. In the second place, Judge Bradley said

that the congress would be of great benefit to the city, as the most prominent men in the west would be represented in it, and through them the city could be advertised. It would furnish the merchants of the city an opportunity to lay before the best representatives of the western states the resources of Omaha and Nebraska. He therefore made an appeal this to every clizen to constitute himself a com-mittee of one to see that the delegates were entertained in a manner that would cause

section of the country. With a soil thor-cughly adapted to sugar beet growing, we express as our belief and judgment that there future is full of hope for this business in Nebraska and the adjoining states; and. Whereas, We now produce in Nebraska only about one-fourth of the quantity of sugar consumed by its clitzens, it follows that there is yet a vast opportunity for the measure of our production reaches that of our consumption; therefore, be it Resolved. That we recognize the power of our jobbers to promote and encourage this industry by giving the preference to the home product, all other things being epual, and we solicit their good offices in bringing about this beneficial result. The memorial and resolution were adopted

that city, and urged Omaha business men to follow in their footsteps SCHEMES FOR ENTERTAINMENT.

L. M. Rheem, the chairman of the entertainment committee, was called upon to give an outline of the plans that had been laid by the committee. He said that all idea of holding a big banquet had been given up, chiefly for the reason that no place big enough to hold it could be obtained. The ommittee, therefore, had determined to give the city, two or three business men will be around each hotel to look after the visitors and see that they wanted nothing.

reception, which was to be given on some evening of the session at the Collseum by the Knights of Ak-Sar-Ben. The floats would be shown the visitors, and it would be demonstrated that the people of Omaha could do something at least one week in the year. One of the features of the evening would be a cold collation. On one afternoon

mittee said that a full program could THEIR LEISURE HOURS not at present be formed from the fact that the congress had a program of its own, with which the social part of the convention must which the social particular would be mapped not conflict. The details would be mapped out when this program was obtained. The not conflict. The details would be mapped out when this program was obtained. The financial part of the scheme was touched upon and developed a lively argument be-tween Judge Brailey, and Secretary Utt. Judge Brailey said that enough money had been promised, but Utt wanted all subscrip-tions down in black and white. He said that \$2,000 would be needed and that only \$1,700 \$3,000 would be needed and that only \$1,700 had been subscribed. The printing of the proceedings, he said, would cost \$1,200, the

entertainment committee would need \$1,500, and the reception committee \$500. This opened up the eyes of the men present, and t was announced that in a few days sub-cription papers would be circulated among mainess and professional men.

The situation was thoroughly discussed before the meeting adjourned, and it was determined to hold one and possibly two was it is the last resort when the church organ more meetings before the congress met, to be called by the chairman of the committees. Among the sprakers, besides those men tioned, were Mayor Bemis, John L. Webster, G. S. Benawa, Chris Hartman, Z. T. Lindsey, John S. Knox and Dr. Stone, and all were heartly in favor of royally entertain-ing the delegates while they were here. A meeting of the executive committee will be held at noon today.

CONSTITUTION OF THE CONGRESS. The following circular has been issued by Charles F. Weller, who is secretary of the executive committee of the congress:

executive committee of the congress: Acting under authority of the last con-gress, the executive committee hereby an-nounces that the next session of the con-gress will convene in Omaha, on Monday, November 25, 1895, and will probably con-tinue four days. The territory embraced in the representation to the comress in-cludes all states and territories lying west of the Mississippi river and those portions of Minnesota and Louisiana which lie east of it. The objects of the congress are to scure such national legislation as is calcu-lated to promote the business interests and development of the resources of the states and territories lying west of the Mississippi river; to increase reciprocal trade among them; to discuss such questions as are nat-

them; to discuss such questions as are nat-urally suggested by its objects; to cultivate acquaintance, fraternal feeling and hearty operation among the various commercial tes represented. It is the desire of the committee to con-

Bodies represented. It is the desire of the committee to confine classession to questions of common in-terest, and to exclude, so far as possible, all subjects which are local in their character. Thus far the following have been suggested: "Trigation of Arid Lands," "The Hawallan Question," "Nicaragua Canal," "Bimetal-lism," "Construction and Improvement of Waterways and Deep Water Harbors," "Transmississippi Freight Tariffs and Dis-criminations," "Rall and Water Communi-cation Between Western Citles and the Sea-board," "Construction and Maintenance of Levees on the Mississippi and Tributariea," "A National Bankrupt Law," "Restriction of Immigration," "Rellef of Agricultural Depression," "Admission of Territories to Statehood," "Disposition of Public Lands." The governor of each state or territory may appoint ten delegates, the mayor of each city one delegate, and an additional delegate for every 5000 inhabitants; pro-vided, however, that no city shall have more than ton delegates; each county one delegate, through its executive officer; every business organization one delegate, and an additional delegate for every fity members; provided, however, that no such organiza-tion shall be entitled to more than ten dele-gates. The governors of states or territory each shall be entitled to more than ten dele-gates. The governors of states or territor ies, members of the United States congress and expresidents of this congress, are ex-officio delegates, with all privileges of dele-gates, except those of voting and election to office. the first part he gave the "Mireille Concert Fantasie," by Sarasate, in which he captured the unqualified favor of the audience. But it was in the "Fantasie Caprice," by Vieuxtemps, that he was at his best, and this difficult composition was played through-out with an ease and finish which left but little to be desired, and elicited one of the most enthusiastic encores of the evening. Of the vocal numbers, those of Mr. C. C. Clark of Burlington, Ia., were certainly the most deserving. Mr. Clark is the happy pos-sessor of a baritone voice of unusual quality and of that sympathetic fiber which con mands appreciation, whether heard on the operatic stage or in the more somber measures of sacred melody. Mr. Clark sang four

NEW WEATHER MACHINERY. Observer Welsh Thinks it May Be

Put in Soon. There is some alight probability, according to Weather Observer Welsh, that some change will be made in the method of signalling employed by the weather bureau. The present flag system is very expensive and the flags do not give the best of satisfaction. Upon calm days they are hardly a big cold lunch, and possibly two or three to be seen from any point, and it is notice-of them. All the while the delegates were in able that whenever it is desired to have flags for new stations there is some reluc-

tance about furnishing them. The system On the topic of entertainments he said that the principal one was a proposed grand reception, which was to be given on some evening of the session at the Collseum by the coast of England. With the semaphores, it is intended to represent the weather predictions of the angle at which the arms are extended. With the balls and cyclinders it tion of the "Gladiator" will be the bill for to-morrow. Monday he will present his much-discussed and elaborate scenic production, would be upon the same principle as at present in use; the large, round objects could llways be seen whether the weather was calm or stormy, and it would make no difwhat direction the wind might erence The cost of flags is not so very great it first, but the continual renewal of them s what costs, for almost all stations demand three sets a year and this makes a vast sum when calculated for the whole United States. The cost of semaphores or cylinders would be considerable initially, but they would practically last forever. They are made of galvanized iron and the holts of papier mache. Mr. Welsh said he would not give his information in regard to a change as authoritative; but would merely say that Champion S. Chase said that the most imthis was the talk, the rumor he had heard.

wash room, where they are thoroughly cleansed in huge basins. Then he explained that they are taken to the grinder and cut into small shavings like strips, and passed into the vats and through the presses, and through the different processes required to produce the pure, granulated sugar of com-

for the visit to the factory, the visitors were enabled to visit every department and listen to the explanations of the various processes as detailed by Mr. Hamilton and other representatives of the company. The wholesale grocers, who were largely representated in the party, took especial interest in the granulating and clarifying processes and spent considerable time in investigating the methods of testing every vat of the sugar pulp that is passed through the factory. After following the process of manufacture from the arrival of the sugar beet at the factory to the final granulation and whiten-ing of the product, Mr. Hamilton led the party to the packing room, where the sugar, warm from the drying room, was being weighed and placed in bags ready for shipment. Here each member of the party was given an opportunity to sample the product of the factory, and the connoisseurs among the precery jobbers had no hesitancy in pronouncing the sugar the equal of anything offered on the market from any factory in the world. The grocers especially commented favorably upon the bright, clear cut quality of the sugar and were unanimous in their

praise of the product. A CORPULENT PAY ROLL.

The visit of inspection included the power house of the plant, where nine monster boil-ers that consume 11,000 gallons of fuel in the form of crude petroleum daily furnish power for the plant. The visitors marveled much at the immense amount of machinery required. While but little of it is of a delicate nature there is a vast amount of the most ponderous kind of machinery in operation. In the construction of the plant 150 carloads of machinery were required.

During the visit Mr. Hamilton explained ome of the features of the sugar business this year, those that have been discussed at some length heretofore in the newspapers. The plant is now handling 400 tons of sugar beets daily. Under ordinary conditions, with beets in their normal condition, this would yield something like 100,000 pounds of sugar daily, but owing to the small per cent of saccharine matter in the beets, the output in sugar is only about 70,000 pounds daily. "And," said Mr. Hamilton, "no one seems to be able to furnish a satisfactory explanation for this condition of affairs. The beets are

The postmaster a Nebraska City demanded that he be fied because of non-compliance with the strict letter of the law. The delay was fatal. Word was received that Simmons was no straight and he was arrested. It was found he had twenty-two orders for amounts averag-ing \$100 each, and to be cashed at various points between Omaha and the Gulf of Mexico.

The second arraigned was Perry Wright, a printer, charged with robbing the postoffice at Big Springs. He, too, pleaded guilty. The date has not yet been set for entencing the two men. Court will convene this morning at clock, and the criminal docket will be alled.

Talks of Stock Interests

"The cattle interests of Colorado, Idaho and Montana are growing all the time," said J. J. Underwood of Idaho, now at the said J. J. Underwood of Idaho. now at the Arcade. "We can ship our cattle to Omaha cheaper than to Chicago and we get a better price. Cattle lose much flesh in transportation, and so we want a close market. The growth of the cattle industry with us has been greatly increased by the near approach of the packing house. And another feature of our cattle business is that a great many people with limited capital are going into business. The large ranchers do not fight small men; only with their large bunches of cattle they very much dislike to have any man fence in the best, or only watering places and they will not have it. We never fight small cattlemen who are honest and who are accommodat-ing: instead of that, we are willing to take their cattle into our own herds and graze them for a small amount per head." Were Blowing In a Stransor

it was proposed to show the visitors about the city in carriages, and on another to take them to South Omaha. If arrangements could be made another afternoon would be

devoted to showing the smelting works. Mr. Rheem said that he had ordered 500 badges, colored white for the delegates, canary-colored badges for the executive nittee, blue badges for the reception, and red badges for the entertainment committee. Mr. Rheem said that every one could not wear badges, but he urged every one, whether they were marked with a badge or not, it that the visitors were properly entertained.

portant part of the session would be the social feature. He stated that he had had experience with meetings of the kind, and found that fully three-quarters of the delegates came to get acquainted and to see the sights. Therefore, he urged that all kinds of entertainments should be laid open them, although they should be permitted to go wherever they pleased.

In answer to a question, Secretary Uit said that he had received letters from some 200 people who would be here. He judged that the total attendance would be in the neighborhood of 500. He said that he had

received a letter from H. R. Whitmore of Louis, chairman of the executive committee of the congress, who prophesied that the meeting would be the biggest in the his-

Talked to Underwriters. The Life Underwriters' association of Nebraskā yesterday had as a guest at a banquet at the Commercial club Major James D. Ashbrook of Philadelphia, secretary of the Provident Trust company. Major Ash-brook is also one of the leaders in the Na-tional Association of Underwriters, and one of its best speakers. In the talk that followed the dinner the mator addressed the members on the dir.

In the talk that followed the dinner the major addressed the members on the dig-nity of the work of life insurance men, pointing out to them those things which lead the agent to know that he is not the common bore he is described as being, but a blessing to society. The members present were: W. J. Fischer, H. A. Doud, H. T. Ford, M. F. Rohrer, Oscar Funk, A. Lansing, W. H. Brown, H. D. Neely, F. E. Hartigan, E. C. Smith, W. A. Barstow, O. M. Taylor, Simon Goetz, W. H. Wigton, C. Z. Gould, J. M. Hoover, A. G. Truux, N. W. Norris, Ferry and Mr. Noble of the New England Mutual of Lincola. f Lincoln.

Sentenced to Imprisonment.

Edward Petrie, who was found guilty of burglary by the jury, was before Judge Scott yesterday afternoon for sentence. He

sentence of Lauder, who has been found guilty of criminal assault, was not pronounced. The court wished to examine the facts in the case, which was tried before another judge, before sentencing the pris-

Anna Eva Fay is the attraction at the Creighton for two performances today, a matinee for women and children at 2:30, when any reserved seat may be obtained for 25 cents, and this evening at 8:15. Miss Fay's thus: France and Russia have advanced performance has proven to be all that she China money to pay her war indemnity to has claimed-marvelous, mysterious and be wildering, and the auditors of the first per Japan; the first time China has had such dealings with a European power. They have thus acquired a lien upon the Chinese emformance have returned to wonder and b mystified again. The attendance has in-creased with each performance and bids fair pire. What France is to get out of it, in the south, does not yet appear. But Russia, if to tax the utmost capacity of the Creighton at the two performances today. The en-gagement closes with an entertainment in current news be true, has at last shown he hand. She is to have China's alleged title to suzerainty over Corea. She is to have Port Arthur, the "Gibraitsr of the east," for Creighton hall tomorrow night,

a naval station, giving her control of the Guif of Pe-Chi-Li and the approaches to The attraction at the Creighton for three rights, commencing Thursday, November 17, will be the eminent tragedian, Walker White-side, who, supported by an able company, will produce "Hamlet," "Richelleu" and "Richard III" during the engagement. Al-though one of the youngest of American stars, Mr. Whiteside has an unusually exten-tiva remarkdra. It has been mid of him the Peking. She is to have the right to run her Siberian railroads 1,000 miles across Chinese soil. The main line from Lake Baikal, after leaving Nertchinsk, instead of keeping the north of the Amoor, will strike boldly across Manchuria, up the Kailar valley sive repertoire. It has been mid of him that in the diversity of the characters he por-Tsitsihar, and thence to Vladivostock. From Tsitsihar also a branch line will run down trays he "runs the entire gamut of human passions." Although Hamlet is his favor-ite character, his repertoire does not rest alone upon his masterly interpretation of the through Leao-Tong to Port Arthur, thus giving the read two Pacific termini, one on th Sea of Japan and one at the head of the Yellow sea, with Corea between them. Russia melanchely prince, and in the dismetrically opposite characters of Richard, Othello, is also about to seize Fu-San, one of the chief opposite characters of Richard, Othello, Shylock and Richelieu, he has won tri-umphs equally as pronounced. No two char-acters known to the stage are more distinctly different than Hamlet and Richelieu, and the ease with which Mr. Whiteside sinks Corean ports, and the one nearest to Japan fully commanding Corea strait, and it is added that she is to enjoy in China other import privileges denied to the rest of the world. Scott yesterday afternoon for sentence. He had been tried on one of three cases pend-ing against him. He was sentenced to three years at hard labor in the penitentiary, this sentence being subject to modification on the facts developed in the other two cases. Wyman Saunders, a colored youth aged 19 years, was given five years' confinement at Lincoln on the charge of burglary. Saun-ders has served time before for grand lar-ceny. extent the tragedian has given to the stage a new creation. Mr. Whiteside has the sup-port of an unusually able company, promi-nent in which is Miss Lelia Wolstan, whose

Again Cosgrove & Grant's comedians will nake merry in their jolly farce comedy "The Dazzler." They will be seen at the Creighto street. Last evening, it is said, he imbibed for four nights, commencing with a matinee tomorrow at 2:30. During the past summer the piece has been rewritten, wardrobe and music that is new throughout introduced and a company that exceeds any before ever seen in the piece has been gotten together. The management promises by far the best production of the piece that has ever been seen here, and as they have always kept their promises in the past, it is worth hearing in mind this time.

lute fidelity to nature.

JUDGMENTS FOR THE CREDITORS.

Clarke Drug Company of Lincoln Settles with the Boston Bauk.

Yesterday afternoon five judgments, aggregating \$35,000, were confessed in the district court by Henry T. Clarke of the H. T. Clarke Drug company of Lincoln. Accompanying the confession of judgment were filed stipulations in which it was agreed that no exccution should be issued on them for at least three years, and that the amounts should bear 6 per cent interest. The holders of these judgments are Boston banks.

many excellent qualities commend it This action is said to clean up all the un-secured and unpaid creditors of the drug company. It is in conformity with a plan to all and have made it the most popular remedy known. laid before a meeting of the creditors of th Syrup of Figs is for sale in 50 cent bottles by all leading drug. company, held at Lincoln on October 7 at the call of Mr. Clarke. They formed a trust and appointed a trustee to look after their interests. The New England creditors were not represented at that meeting, but a repremay not have it on hand will prosentative was called here at the request of Mr. Clarke. The confession of the judgments was the result of a conference between him cure it promptly for any one who wishes to try it.
