For Stealing Rock Island Coal. Ever since cool weather started the Rock Island Railway company officials have been complaining that some one has been stealing the coal off their cars in the southern part of the city. The same thing has been done every winter, and they claim to have lost anywhere from ten to thirty tons a month. Monday night they put a guard out by the cars, and carly yesterday morning John Thacker was caught in the act of filling a gunny sack with black diamonds. He was turned over to Officer Claar, who took him to the city jall and booked him with larceny. Thacker admitted to Judge McGee that he took it, but raid in defense that his family were cold and he needed it. He was fined \$10 and managed, to dig up \$5. He was allowed to go free on his promise that he would bring in the balance of the money as soon as he could get it.

It also gives the sheriff 1242 cents FIRE STA or each meal given each prisoner, not more than three mests a day, and 1214 cents for keeping each prisoner over night. This may add \$100 a month or so to his income, and, so Hazen says, will make the new sheriff's compensation equal to his own last year, that being an exceptionally poor year from a financial standpoint. The salary of each deputy is fixed by the board of supervisors at not to exceed \$1,000 a year. The board also decides the number of deputies to be employed.

VERIFY REPORTS OF A SWINDLE. Executive Council Considers Some Recent Charges.

MOINES, Nov. 19 .- (Special Telegram.)-The state executive council today ield a meeting for the discussion of the ecent revelations that states adjoining Iowa have been systematically sending their pauper insane patients into Iowa and getting them cared for at the expense of this state. At the conclusion of the meeting Secretary of State McFarland stated that the council was satisfied that fully 200 insane people were being supported in lows, who had been sent into the state from Illino's, Nebraska and Missouri. The plan is to send them into an Iowa county, from which they are sent to the asylum as nonresident patients and the state is compelled to pay for their sup-port, at the rate of \$14 per month. The council determined that hereafter the

state will charge each county with the ex-pense of supporting all patients sent from it to state institutions, whether they be residents of the county or not. The county officers, it is charged, have been in the habi of allowing themselves to be made parties of the scheme to swindle the state, because they are allowed fees for all patients they take to the asylums. The new arrangemen will put an end to the practice.

Shippers Want Bettre Rates.

MOINES, Nov. 19 .- (Special.)-Shippers of Iewa and planning to demand of the next legislature some important legislation on the railroad rate question. movement has originated with the jobbers of the inland lowa towns, and is spreading to the manufacturers and all lines of bus-iness. The shippers will demand the passage of a law that will compel all roads in th state to put in joint rates. The interstate roads all grant such rates, but many of the lows roads have steadfastly refused to do so, and the result is that lows jobbers are kept out of a large part of their own state, while houses in Calcago, Peoria and St. Louis are able to do the business, A shipment to a point in southeast lowe finds that he must send it part of the dis-tance over the Rock Island and then turn it over to the Iowa Central or some The Rock Island charges its full local rate to the junction point, and the other road makes a like charge over its line. The single through rate lower than the sum of the locals. The interstate traffic is based on such through rates, and lowa deal-ers have found it impossible to compete against the advantage which this arrangement gives to points outside the state. The towns on the western border of the state, which do a large volume of their business west of the state's borders, have not suffered from this so seriously as have thos in the interior and on the eastern boundary. It is expected a meeting of the shippers of the state will be held here some time before the opening of the session to make arrange ments for advocating such a measure as is desired, and to raise funds to push it. Condition of lowa's Crops. DES MOINES, Nov. 19 .- (Special.)-J. R Sage, director of the lows weather crop service, is preparing the matter for the December number of his bulletin. By the time for its issuance he expec's to have the state consus figures on the acreage of various crops the state the past year, and from this w the state the past year, and from this will be able to make the most accurate estimates on yields per acre that have been made in several years. Since the federal census of 1890 estimates of yields have been based on the acreage shown in that year, when the 1889 figures were taken. Sage says the figures will show that the average productiveness of lowa farms has greatly increased in the last few pages. He attributes this in the last few years. He attributes this two causes—the improved methods of farm two causes—the improved methods of farming that have been coming into vogue, and the adoption of the system of rotation of crops. More than all this, he says, the state farming is being diversified as never before crops that a few years ago were almost unknown in the state are now cultivated largely. These new crops have been generally successful, and have done much to help the farmers through the seasons of drouth.

Dr. S. Mosher

SPECIALIST.

Having fully demonstrated by years of successful practice and experience that he is able to core multitudes of diseases which buffle the skill of ordinary physicians, he feels it his duty to make known to suffering humanity that he devotes his whole time and energy to this particular branch of the profession, and will prepare and furnish medicine at his office or visit those cases which may require personal examination. Patients at a distance may consult Dr. Mosher by letter, giving a carefully written history of their cases, describing their symptoms minutely as possible, which will enable him to make correct diagnosis, and judge very accurately of the curability of the disease, and to apply proper remedies. Medicine forwarded either by mail or express, and nil medicine prescribed by Dr. Mosher is prepared under his own personal supervision. He treats all diseases without mercury or other poisons, which create disease of themselves.

The doctor by his new RESTORATIVE TREATMENT cures all curable diseases, and treats with success all affections of the Liver. Threat and Lungs, Catarril, Epilepsy, Dyspepsia, Heart Disease, Kheumatism, Neuralgin, and all Nervous Diseases caused by overwork, the indiscretion of youth, or the excesses of riper years, and whatever may tend to lower the latent force or the tone of life's vitality, causing physical debility, nervous exhaustion, insanity, and premature decay.

Consult personally, or by Letter, free and strictly confidential. Address,
