Expensive Pigeon Shooting. They were in a barn in Minden, using the barn and some pigeons as targets. While Miescher had the gun in his hands it went off, either accidentally or otherwise, and the shot penetrated Doehla's right leg just above the ankle. Doehla claims that the pain he has suffered is worth \$5.00 to him, and that he has been damaged to the amount of \$40.00 by having to lose employment and pay doctor bills and hospital bills. He records a party of the evidence was heard by Judge Motie yesterday, and the rest will be introduced today.

WILL CUT DOWN CITY EXPENSES.

Mayor Cleaver's suggestion of several weeks about to be made.

About a month ago Mayor Cleaver made a report to the city council in which he advised the cutting down of city expenses, and asked the co-operation of the council in bringing about a more economical administration.

At a meeting of the council, held last night, a committee was appointed, consisting of Aldermen B. Greenhilda, F. W. Spruon and L. M. Shubert, which was to consult with the mayor and decide how expenses could best be curtailed. Not very much has been heard of this committee since that time, but it is now announced that at the meeting of the council next Monday afternoon, at 10 o'clock, it will report in which all sorts of good advice will be given.

It is believed that about \$900 per month can be saved the city by a little judicious cutting down of expenses. In the engineer's office there are now employed three men besides Engineer Elvins. It is claimed that all the work needed can be done by one man, and that the other two can be easily done by half the force. The streets and alleys, which have spent a large amount of money during the summer, and has been under its control the dirtiest set of streets that Council Bluffs has had for five years, is to have its street greatly reduced during cold weather. The chief of the fire department will be asked to cut about two men off the pay roll, and a corresponding reduction in the number of fire engines. The appointment of Officer Cousins to a position as deputy sheriff will create a vacancy, and another will be made by the retirement of the sergeant. The chief of the police grounds, but principally because one man can do all the detecting that is necessary in the city.

A good deal of time has been spent by the committee in looking over the possibilities of the case, and it is probable that the above list of things will be followed out by the administration.

Linden Had Poison. Herman Linden had a partial hearing in police court yesterday on the charge of poisoning James Anderson's dog. L. C. Boem was the principal witness against him. The dog ate it and then Linden drove him away from the house for the night. The next morning Linden's dog died a few minutes later, with all the symptoms of strychnine poisoning. George Davis testified that Linden had purchased some strychnine at his drug store, as well as his father and another, had previously done having any poison in the house. The jury found Linden guilty and they limited their verdict to a fine of \$100. Linden will bring in his evidence in defense.

THIRTY OF HER ATTENDANTS MURDERED

China Comes Forward with a Tale of Revolting Cruelty Exceeding the Reports of the Massacres at Port Arthur.

YANGTZE R. C., Nov. 21.—Chinese papers received here by the steamer Empress of China are bitter in their attacks on the Japanese authorities in Corea, whom they blame for the murder of the queen. They assert that Japan is a nation pretending to be civilized, but is the most barbarous on earth. The queen was hung up by the hair and, after being otherwise abused, fed and starved, and in the end, her body was thrown into the sea. Her remains have been reduced to ashes that all traces might be lost. Thirty attendants of the queen, it is alleged, were butchered, their corpses being left about the palace. When the palace was attacked, of some 1,500 guards on duty only six remained at their posts and they were quickly dispatched. According to Chinese reports there were fifteen women of title in the court, the queen, her mother and 139 ladies in waiting. They were nearly all skinned in order to prevent the Japanese from using their bodies for scientific purposes.

SAN FRANCISCO, Nov. 21.—The steamer Rio de Janeiro arrived today from Yokohama and brought the news that the queen of Corea had been burned in oil.

The Japan Mail (freedom) under the date of November 5, says: "Before the coup d'etat took place the queen of Corea was secretly murdering a political scheme, in order to bring about the overthrow of the emperor of the opposite faction. A list of the intended victims had been drawn up. After the wholesale massacre of the queen's attendants she was to be executed."

These arrests comprise Viscount Miura, the late Japanese minister to that court, and all members of his staff, together with other Japanese officials in Seoul, besides a number of private individuals. The preliminary investigations have been commenced in Hiroshima, where the minister is imprisoned. Count Inouye is still in Corea, but is expected back shortly and the opinion is expressed that the Japanese are about to abandon their attempt to control the home and foreign policy of that country. QUAY HAS A ROOM OF HIS OWN.

Keystone Patriot Suspected of Presidential Aspirations.

CHICAGO, Nov. 21.—The Daily News' Washington special says: Politicians will hold close political relations with Senator Quay declare that his every movement indicates a purpose to secure the nomination of the Keops one state delegation to the republican national convention for himself.

Whether this move is a bona-fide Quay presidential bid to be pushed along in earnest to success, or merely a scheme to secure the control of the Pennsylvania delegation and at the same time, bid out Governor Hastings' boom, is a matter of doubt. The people here, however, were positive in their opinion that Senator Quay, with his record of bulging the Senator Quay, with his record and list of republican enemies, would seriously seek the presidency. But the motive attributed to him is to crush his own popularity with Keystone republicans by securing an instructed delegation, which will not only be a rebuke to his republican enemies, but will give him a firm hold upon the delegation, and a better basis for political barter in the next convention.
