The Combination Wire Fence company, a large iron-clad wooden building on the west side of Main street, was totally destroyed with its entire contents of stock and machinery. It was an enterprise owned and started a year ago last month by Mr. R. H. Bloomer, an energetic young man, who came here from York, Neb. The building was worth about \$2,500, and was owned by the Welr-Shugar: company. The loss sustained by Mr. Bloomer will reach something over \$10,000. On the 1st of December he took an invoice, and found that hie stock and ma-chinery approximated to that figure, and considerable work has been done since. He was only protected by \$2,500 insurance. He was confined to his house by sickness yesterday, and last night was compelled to sit in his room at the residence of H. H. Ober-holizer, on Third street, and watch the destruction of his property.

Just as soon as the insurance is adjusted

and the ruins become coof enough to handle the debris the work of rebuilding will be commenced. Mr. Wells stated last night that whatever the loss might be it would not in the least cripple his company, but that it would rebuild on a larger scale than ever.
Mr. Bloomer of the fence works made the same declaration.

TROUBLE FOR THE FIREMEN. Considering the fact that the fire department has, within the past two weeks been seriously crippled by the loss of two men, the work did was excellent. The city council less than a month ago decided to enter upon an era of "retrenchment and reform." The announcement that the fire department was to be lessened by the decrease of two men met with many protests, but it was done nevertheless. As luck would have it, the alarm came in just at the supper hour, when There are but three men to a house when all are on hand, with the exception of the Upper Broadway house, where the "big ele-phant" truck is kept, and there are four there. Consequently there were but two men in each company, except at the Upper Broadway house where there were three. Of the two men one had to hold the team and one had to stay at the fire plug. What sort of headway could be made by the two-men teams in laying hose, making couplings, and throwing streams is apparent enough. To add to the difficulty, one of the horses ran

away soon after reaching the fire, and broke the tongue of the hose cart. That a frowning providence should allow the biggest fire in Council Bluffs' history to follow right on the heels of the "retrenchment and reform" movement is an unfor-tunate thing for the movement. The loss in firemen, however, was somewhat com-pensated for by the quick and energetic

AGREED ON A METHOD OF PROCEDURE

Will Offer a Resolution for the Appointment of an Expert to Ascertain the True Condition of the National Treasury.

WASHINGTON, Dec. 13.-Several republean members of the house have been in consultation since the president's message was made public to devise a method whereby they ould secure a definite statement of the condition of the treasury. Mr. Walker of Massachusetts will endeavor to bring about an investigation of the finances by an expert ing republicans in both house and senate Mr. Walker has outlined a plan to throw light upon the principal matters which he thinks

should be made clear.

He has a resolution which will be referred to the committee on appropriations, authorizing that committee to employ a suitable expert, to whom departmental officers are requested to give any information in their power, who is given to prepare a statement of the following matters: All claims against the United States that were not paid before July 1, 1895, that have been favorably re-ported upon by any committee of the house and on which of such claims the court of claims has rendered judgment in favor of the claimant; all claims on which the court of claims has rendered judgment in favor of the claimant, but which have not yet been passed upon by any committee of the house; a list of all acts of congress providing for any public work, where the work was not completed and paid for prior to July 1, 1895, the statement to give the date of the act, the total sum to be expended under the act, the commander thereof) and the total amount appropriated under or because of the act, the date upon which the first moneys were paid out of the United States treasury under each appropriation and the amount of money paid out during each calendar quarter under each appropriation up to July 1, 1895, the value of so much of all government work done and approved of by the proper officers, on or be-fore June 30 in each of the four years prior to 1896, which had not been paid for prior civil service were well known.

to July 1 in each year.

When any of the acts mentioned were passed to provide premises to be used in the place of premises for which the government was paying rent, the rents paid in each quarter for any calendar year since the pas-sage of the act to be given in the statement. One of the aims of this plan is to substantiate the statements made by republicans that Secretary Carlisle has delayed the payment of appropriations and held back public works in order that the treasury may make the best possible showing.

COMMITTEE SLATE ABOUT FIXED Likely to Be Reported to the Senate

Caucus on Monday. WASHINGTON, Dec. 13 .- The republican senate caucus committee, after a prolonged session today, expressed the opinion that it would be able to report the republican membership of the senate committees to the republican caucus on Monday. > ment of the district be placed under the civil rvice rules. It was adopted. Mr. C. J. Bonaparte of Baltimore read a strong paper dealing with civil service and its application to Maryland politics. The long rule of the ring there, he said, was owing to the fact that "through its absolute control of the state and municipal patronage it was able to maintain in Baltimore, at the people's cost, a small standing army of exports in election frauds and professional ruffians unreservedly subject to its orders and prepared to furnish any reasonable ma-jority which could be required for its safety under normal conditions, while it could like wise assure them almost certain immunity from punishment for their crimes committed in its interest." He adds; "It fell at last, not because it el her could not or would not cheat, but because, although it would, it could not cheat enough to overcome the widespread revolt within that party against

ts domination."
Tonight the delegates were given a reception at the Arlington botel by the Civil Serv-ice Reform association of the district. The arge attendance included a number of officials. Impromptu speeches were made by Rev. Mackay Smith, Secretary Morton, Carl Schurz, E. P. Wheeler of New York, Comp-troller Eckels, William Dudley Foulke and others. False Statements. WASHINGTON, Dec. 13,-Senor Andrade, the Venezuelan minister to the United States, has received a cablegram from Caracas from his government entirely disavowing a publication in the London Times giving what purported to be an interview with President Crespo. No such statements, it was said, have ever been made to the government. The article quoted President Crespo as expressing a willingness to make reparation to Great Britain for the Uruan incident which Lord Sallsbury is endeavoring to separate from the long pending boundary dispute. The position of the Venezuelan government is, as has been stated frequently in the Associated press dispatches, that the Uruan incident and the boundary dispute are inseparable, the liability of the government for the Uruan affair being dependent on whether or not it occurred on Venezuelan or British soil. Published statements that Senor Martinez in London on a secret mission to the British government from the government of Venezuela are denied also.

Will Not Affect Cuba's Cause. WASHINGTON, Dec. 13.-In diplomati ircles here it is said that the cabinet crisis in Spain will have no effect on the policy of Spain toward Cuba, nor in any way affect diplomatic or other general questions. The crisis is due to a local contrat in Madrid, into which some of the cabinet ministers have been drawn. It is possible that the resignation of the minister of justice might result in executing the plan of Cuban reforms sooner than had been contemplated. These reforms, giving limited autonomy to Cuba, were adopted last March, but the present minister of justice has withheld their execu tion because the island was in rebellion. Mr. Milliken and Mr. Boutelle of Maine are also in line for chairmanships, the former being the ranking member on public build-ings and grounds and the latter on naval affaire. In the Fifty-first congress all three headed committees. Almost as much uncer-tainty exists concerning the chairmanship of the appropriation committee as ways and means. Next to the latter, it is the most important committee in the house. The contest lies between General Henderson of Iowa, the present ranking member, and Mr. Cannon of Illinois, who would have been the ranking member had he not falled of election to the Fifty-second congress. At first the chances seemed to favor Mr. Henderson, They now seem to point to Mr. Cannon, and the argument is being urged that it might not be good policy to permit Iowa to be at the head of the appropriation committee in both the house and the senate, Senator Allison heading the appropriations committee in the senate. Mr. Cannon, however, may be placed on the committee of rules if not at the head of the appropriations. With Grosvenor of Ohio, who it is said has retired from the contest for chairman of the rivers and harbors out of the way, this important chairmanship is supposed to lie between Mr. Herman of Oregon and Mr. Hooker of New York. The chairmanships of the following demonstrates asset to be supposed. the following dommittees seem to be almost certain:

cessfully grow two or three crops yearly.

The great fruit growing and vegetable raising district of the South. A soil that raises anything that grows and a location from which you reach the markets of the whole country. Your fruits and garden truck sold on the ground and placed in Chicago, St. Louis and New Orleans markets in 12 to 24 hours—In this garden spot of America.

NO PLACE ON EARTH

Offers greater advantages to the intelligent settler. One half the work you now do here will give four times the results in this wonderfully productive country. The people are friendly; schools, churches, newspapers are plenty; railroad facilities fine, and a soil whose richness is unsurpassed.
