REOPENING OF AN OLD WILL CASE.

George Folsom Wants a Bigger Share of His Mother's Property. A petition has been filed in the United States court by George P. Folsom asking that the decree rendered in the case of George W. Radford, assignee, against Agnes Folsom and others, be set aside, and that he be allowed to file an answer and cross-petition. The decree just referred to was handed down in the federal court in 1885.

The Folsom estate at one time was worth in the neighborhood of \$100,000, but now, it is said, the value has been reduced to about \$40,000. For many years it was the subject of litigation between Simon, Frank and Eliza Folsom on one side, and Jeremiah and his wife Sarah on the other. The property involved in the suit of Radford against Folsom was the property of Sarah Folsom, mother of Florence, Adelaide and George P. Folsom. Pending the settlement of the law suits among the Folsoms she died. Her husband and daughter Adelaide died subsequently, so that Florence and George were left her sole heirs.

A year later the suit of Radford against Agnes Folsom was ended by a decree of court awarding one-third of the property to Agnes Folsom, and one-sixth, each to Ward P., Florence, Adie, and George P. Folsom. It covered the property claimed by the Folsoms heirs, and included real estate. This decree led to a partition suit, commenced in the district court of Pottawattamie county, and the estate was divided among the heirs, and the Folsoms was 21 years of age. He now alleges that the share which was given to Agnes and Ward P. Folsom belongs of right to him and his sister, and that the other Folsoms. He attacks the federal court decree on the ground that he was given no opportunity to show cause, when he became aware of the decree, and that the decree was set aside, and because the division was unjust and erroneous. He wants a chance to set up his cross-petition, and he asks that the court set aside the decree, and that Ward Folsom to convey to him a half interest in the property to which they now hold the title. The value of the property is estimated at \$40,000, and if they do not deed him a half, he wants a money judgment of \$20,000. It looks very much as if the whole litigation would now have to be gone over again from the first.

The scheme calls for the building of a fleet of yachts, and the ship shops, where space can be rented for the display of the products of both the soil and mill, upon the same principle as is done in the London Bazaar, and the other foreign countries.

SOUTH OMAHA NEWS.

The South Omaha Water Works company has purchased ten acres of ground near the river front, between M and N streets, and will proceed at once to sink six additional wells and erect buildings. The officers of the concern expect to have the plant in running order within ninety days from January 1. A contract has been closed with an eastern firm for the purchase of twenty-two water mains and lids on engines and other machinery are being received daily. One large main will come up M street and lead to the stock yards. Another will come up Q street. T's will be put in at each intersection along the route and it is the intention of the company to supply all those who desire them for their homes. The wells will be sunk 100 feet, which is considerably below the bed of the river, and from samples of the test well the water is about the same as that which comes from the springs and other springs in the hills near by. As soon as the machinery can be contracted for a large force of men will be put to work digging trenches for the mains. Officers of the company have intimated that only South Omaha help would be employed.

Today a B. & M. engineer will lay out a line for a side track from the main line to the proposed plant. As soon as the survey is made the track will be laid. Then work will be commenced on the wells and the building.
