# GOLD IN THE STORM'S PATH Wonderfal Riches Uncovered by Uprooted Forest Giants. BLACK HILLS MINERS' FINE STRIKE Romantic Incident Connected with the Development of the Sunnyside Cinim at Hill City.

HILL CITY, S. D., Dec. 20,-(Special.)the discovery of the now locally famous Sunnyside win might furnish incident for a fabulous mining tale of the "Deadword Dick" order. The find was, in short, the result of pure chance, manifested in a most picturesque and striking way. Coats and Botna found the mine in a sense

but the real discoverer was a mightly wind that in December last swept over the Black Hills, razing to the ground or tearing up by the roots great pines of a century's growth. for the immenses amount of timber destroyed, was one of those extraordinary events in nature, which leave landmarks on the highway of years. Forty years would not suffice to obliterate the traces of those broad furrows of fallen, twieted, and splintered pine which the ternado plowed along moun-tain sides and through densely wooded canyons, at a rate exceeding sixty miles per hour. But the force which leveled the great pines near which the shaft on the Sunny-side is row sunk, was not a blind one. It was an electrical storm, and, though science December 20, 1894, certainly rendered the Black Hills an important service. It un-covered one of the richest gold voine yet found in the region. When the wide-branch-ing, gnarled and snaky roots of the great pine tree yielded to the force of the wind and form from the side cravices they had

and torn from the slate crevices they had invaded, were upturned, a vein of brown decomposed quartz was plainly visible. Some of the pieces of rock which the mat of roots had carried with it were found to be plentihad carried with it were found to be plenti-fully sown with grains of virgin gold. This the cast. A professional director and stage work of the wind attracting the attention of the prospectors furnished the clew which led to the discovery of what promises to be-come one of the great bullion producers. Nothing could surpass the industry of a working could surpass the inducty of a miner who finds rich samples on "a good prospect" in the ledge upon which he is working. Gold visible in quartz, the vol-ume of which is unknown, is an elixir for the muscles more potent than the much advertised "kola" nut. The stimulant had the usual affect upon Costs and Botton. They the usual effect upon Coats and Botna. They dug diligently and each night brought into Hill City the rich trophies of their toll. These specimens, of which several hundred dollars' worth have been taken from the narrow vein, are among the finest exam-

harrow ven, are among the finest exam-ples of gold quartz ever exhibited. If the find had been made in South Africa, Aus-tralls, of even Colorado, a wild mining "stampede" would have speedily followed. But here in the Black Hills, for some reason -possibly the grave offenses of early mine boomers against truth and veracity-attract only limited attention. There are, however, a number of experts now in the Hills ina number of experts now in the Hills in-vestigating properties for eastern or for-eign investors. A mining investor from Mil-waukes, F. J. Kipp by name, soon after the discovery of the Sunnyside, offered a flat \$30,000 for the prospect, the cash to be forthcoming within five days. It re-quired "nerve" of a strong order to refuse such a proposition for a mere prospect, but this was dong and the mine which a full. this was done, and the mine which a falling pine tree uncovered may pay its for-tunate possessors more than that within three months. SOME SIOUX FALLS LITIGATION.

ened itself and added to its numbers. day it began the publication of a monthin paper called the Labor News, which is de signed to get the objects of the Federation before the people and probably to influence legislation later. The editor is C. H. Craig, one of the leaders of the Typographical union, and the paper has received a flattering reception, starting with a larger sub-scription list than any weekly published here.

SANITARIUM FOR THE VETERANS.

Hopes of Hot Springs for a National Hospital.

HOT SPRINGS, S. D., Dec. 20.-(Special.)-Congressman Gamble's bill for the construction of a national sanitarium at this place for disabled volunteer soldiers was some-Hills Cirri, S. But the Sunnyside gold Less than a month ago the Sunnyside gold claim, located about three miles north of Hill City, was a mere picturesque strip of pine ridge. Then it was chieffy valuable for its timber, balsamic odors and scenery. Now it is known to contain a vein of the richest gold quartz ever found in the Black hot springs for the use of the hospital, the locators millionaires. The story of this sudden rise to wealth has a strong of this provise the blat. The manner of thing of a disappointment to the people of cannot, nor could they be expected, to comply with this provision of the bill. The gov-crament is not in the habit of asking dona-tions of this kind when government buildings are located and the citizens of this place feel that for an institution of this character especially the government should purchase the site. It is designed to be an institution for disabled veterans from all has been endorsed by several managing boards of state soldiers' homes in the west, as well as by the association of soldiers' home boards which met at Marshalltown, Ia., last month. An effort will be made to have the provision of the bill referred to eliminated, and no

doubt Congressman Gamble will gladly com-ply with the desires of the people here so far as practicable. To Settle Indian Lands.

CHAMBERLAIN, S. D., Dec. 20 .- (Special.)-Dr. Charles Eastman of St. Paul, the Sioux whose marriage to Elaine Goodale some years ago created so much talk in society circles, and former government physician at Pine Ridge agency, has developed into an immigration agent. He recently visited Sizeewas an electrical storm, and, though science may reject the suggestion, undoubtedly fol-lowed the general course of the heavily min-eralized ridges. The capping of iron-bearing rock, which is usually found overlying the gold-bearing ledges on quartz fissures, fur-nishes the finest possible conductor for the mad current of the storm, and this attrac-tion may remonably be supposed to have determined the path of the forest wrecker. Be this as it may, however, the storm of cess. If it does it will place actual settlers on a vast domain that is now wholly unoc-

cupled.

SIOUX FALLS, S. D., Dec. 20.-(Special.)-The Woman's Benevolent association is arranging to bring out Gilbert & Sullivan's comic opera, "The Mikado," next week. All the society leaders are interested in it and manager have been secured and the cos-tumes will be brought from Chicago. The association takes entire charge of the poor of the city and is supported both by private subscriptions and by city help. It main-tains a sewing school and other branches for assisting the poor to help themselves.

Display of Bad Land Specimens.

HOT SPRINGS, S. D., Drc. 20 .- (Special.)-Prof. H. F. Kling of this place is arranging a very attractive cabinet of Black Hills and bad lands geological specimens, which he expects to take to the Iowa State Teachers' association, which convenes at Des Monies on December 31, and continues till January 2. He will also have a supply of Hot Springs and Black Hills advertising matter.

Demands of the Black Hills.

HOT SPRINGS, S. D., Dec. 20 .- (Special.)-Hot Springs is an active candidate for the republican state convention, which will select delegates to the national convention, and State Committeeman Burke of this place is doing some effective work toward securing The Black Hill feels that it is entitled to at least this convention. A. G. Bartley of Magic. Pa., writes: feel it a duty of mine to inform you and the public that DeWitt's Witch Hazel Salve cured me of a very bad case of eczema. It also cured my boy of a running sore on his leg.

Told Her Troubles to the Police. Mrs. Ernest Rissi, 814 Pierce street, appeared at the police station yesterday and stated to the prosecuting attorney that she could no longer live with her Ernest. She alleges that Ernest refuses to support her and is constantly engaged in flirting with other women, although she has frequently spoken to him in regard to the matter. She states that he also gets drunk and holds the neighborhood in a reign of terror until the police arrive.

Foster, living at Nineteenth and Jackstreets, told the police yesterday that she had been swindled in the purchase of a stove. She says the stove was a delusion and a snare, for which she paid \$5. She adds that the only thing thus far discovered that the heater will do is to smoke and that the health of heraelf and family has been seri-ously impaired. Prosecutor Shoemaker wrote a letter to the dealer, telling him to refund the serie work and the series of th

#### City Sayed Several Hundred Thousand Dollars in Damages.

SIOUX FALLS, S. D., Dec. 20.-(Special.)-This city has just won a legal battle which means the saving of hundreds of thousands of lollars to the taxpavers. Five years ago. during the flush times, the city council orerty was greatly damaged. In some in stances houses were left ten to twenty fee above the street, while others were so far below that all the wash during the storms ran into the cellars. Much of this work was done before the state entered the union and under the old statutes there was no remedy for the property owners injured. But the new constitution contained some provisions which permit suits for damage. This fact was not discovered for some time, and, though the property owners protested vigorously against the work, they considered their efforts fruitless. A year ago, however, some attorneys discovered the truth and brought suit. It was generally understood that in case this was successful a multitude of others would follow. Indeed, the city authorities feared that in case the plaintiffs won hundreds of thousands would be required to pay all the judgments which would inevitably follow. The city therefore employed the best counsel procurable, and the first trial resulted in a

disagreement. The second has just terminated in a verdict for the defendant. It was a suit for \$1,500 damages, alleged to have been done to two lots by making a cut in front of them to a depth of twenty feet. It was fought most stubbornly, but the jury de-cided for the city. It is now thought that no further suits will be brought. This is of the highest interest, as notice

has been served of a suit by a prominent syndicate located in Boston. Several years ago this body of, gentlemen purchased of Senator Pettigrew, a considerable amount of land near the business district, paying for it \$150,000. Soon afterward a street was cut through it to the depth of fifteen fest, and since that time and owing to the cut

and since that time and owing to the cut, it has not been sold or rented and is con-sidered to have been damaged fully one-half. Attorneys representing the syndicate have recently been here and it is understood recently been here and it is understood that they have seriously considered suing for \$100,000. The result of this Gillette suit, which has just terminated, however, makes it evident that no jury will award damages and the cause of non-residents would certainly not win. Had this and other similar ones been pressed and been successful the city would have been prac-tically bankrupt. tically bankrupt.

# W. C. T. U. Fight Lost.

SIOUX FALLS, S. D., Dec. 20.-(Special.)-The big fight of the Women's Christian Temperance union against the saloons is over Temperance union against the saloons is over and the women have lost. The grand jury adjourned without indicting any of the ac-cused liquor dealers. The big temperance campaign which has been going on for two months resulted in the gathering of a large amount of evidence by the women and the presentation to the grand large. Twenty large amount of evidence by the women and its presentation to the grand jury. Twenty witnesses were examined and all swore point blank to buying liquors in the salcons, gave the dates, hours, places, kind of liquor purchased and name of the seller. They also in most cases testilled to scelar the govern-ment licenses and gave their numbers. The witnesses were men and women of unim-peachable veracity, and no effort was made to rebut their evidence. But the grand jury refused to bring in bills. This proba-bly ends for all time the effort to prose-cute the salcon men here. The sentiment of the people is overwheimlogiy opposed to enforcement of the prohibitory law, and no officers can be elected who will attempt to enforce it.

During the recent epidemic of cholera in Honolulu the demand for Chamberlain's Colic, Honolulu the demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy was so great that the druggists could not wait on all, so they covered their counters with the Remedy and let customers help themselves. The people there found this remedy effected a cure in every case, not a single death oc-curred in any case in which it was used. The success of the medicine is what lead to the great rush for it. Many persons bought it so as to have it ready for instant use in case it should be needed.
