light today, there being 500 head less than yesterday, but about the same number as on Thursday of last week. The market was in good shape or 2ll kinds of cattle and everything in the yards sold at satisfactory prices.

Only a few fat steers were offered on the market and not many of them could be described as any better than fairlish stuff. The demand was good and the buyers were not long in clearing the yards at good strong prices. There were a few cattle good enough to reach the \$4 mark, but the most of the offerings went for less money. Cows and helfers were in good active

Cows and helfers were in good active demand and the few on sale changed hands in short order. In some cases salesmen thought they got a little more money for their holdings than yesterday, but on the other hand buyers were reporting their purchases as costing about the same as yesterday. It was certainly a good strong and active market.

Stockers and feeders were higher and the few on sale changed hands readily at way up prices. Representative sales: No. Av. Pr. No. Av. Pr. No. Av. Pr.

HOGS—The receipts of hogs were heavier than yesterday by 1,000 head, the advance in prices having, apparently, stimulated shipments from the country.

The market opened active and at an advance of 5£10c. The local packers all wanted hogs, and in addition there were a few shipping orders, so that the demand was really larger than the receipts. Under such circumstances the buyers were not long in effecting a clearance. The great bulk of all the hogs, both heavy and light, went at \$3.65, as against \$2.571\cdot 2.60 yesterday. There was quite a sprinkling of sales at \$3.67\cdot 2.70, and a sort at \$3.72\cdot 2. There did not appear to be much choice as to weights, good hogs, whether light or heavy, sold at the same price. Everything was sold early. Representative sales: No. Av. Sh. Pr. Av. Sh. Business Men Rise in Revolt Against President Schmidt and Appeal to England, Germany and the United States for Help.

SAN FRANCISCO, Jan. 16 .- The steamer

Mar'posa arrived from Apla this morning, bringing news of an uprising of the business men of Samoa against President Schmidt. Business being dull at Samoa, the people, as they do everywhere, criticised the government. The situation had been talked over by several leading merchants, and it being ascertained that 85 per cent of all municipal and governmental revenues were being paid out in salaries, meetings were held by the prominent business men, where resolutions were unanimously adopted. The resolutions were to the effect that after years of trial, the different functions of the president, who receives a compensation from the municipality of Apia of \$5,000 yearly, had proved to be either wholly unworthy or he was a failure and burdensome expense upon the community; that as adviser to the king he could never be a success. To prove this charge the resolution set forth that the king and government had found it necessary to peti-tion the three treaty powers for the removal

Referring again to President Schmidt, the resolution states that as chairman of the municipal council his success is just as re-mote. The committee said the Samoans were quite capable of conducting the'r own affairs, especially where they have the three consuls as a supervisory board. As treasurer and custodian of the revenue it was represented that it did not require a man at a salary of \$5,000 per annum to superintend the running of a little custom house and oversee a few of a little custom house and oversee a few clerks. There are plenty of business men in the place, it is said, who could fill this office under bonds, in a far more satisfactory man-ner in the regular course of their daily busi-ness for a nominal salary. Furthermore, since the ratification of the Berlin treaty, will the foreigners have always compiled at Noon Today.

Matters then assumed a farcical aspect, but the people were in earnest and obtained but the people were in earnest and obtained a sufficient number of signatures of councilors to demand the president to call a special meeting, to receive the resignation and issue a writ for a new election. Unfortunately for the people, an error was made in the date for the meeting, as the request was made for Tuesday, December 23, when it should have been the 24th.
