It is said to be known that some of the justices in country precincts im-pose fines and pocket the proceeds, which are the property of the county. In other cases It is said that some of the justices neglect to pay witness fees to those who are entitled to them, and thereby swell their rakeoff. The firance committee has the matter in hand and some of the justices will probably be called on to explain how they conduct their BUTLER'S HEAD UNDER THE AX.

Dicharged from a City Job and the Place Given to Furnas. The administrative guillotine is in active

operation in the city hall this week, and the city employes who are working today are laboring under the fear that some one else will be in their places tomorrow. Yesterday morning John Butler who has been the special agent of the legal department since John L. Webster was city attorney, was summarily dropped from the pay roll by City Attorney Conneil and J. W. Furnas was installed in his place. While Mr. Connell has the appointment of the special agent, it is understood that

the influence of the mayor is responsible for Butler's decapitation. Butler was out-spoken in his opposition to the nomination "Not at all," he rejoined quickly. "I dare Butler's decapitation. REASONS FOR THE PROTEST.

Citizens Explain Why They Object to a Jail in the City Hall.

At the last meeting of the city council a petition from a couple of hundred business men was presented protesting against the occupancy of the dity hall basement for fail purposes. Among the signers were T. C. Havens, A. B. Stiger, Gladstone Bros., A. H. Briggs, H. B. Coryell, J. B. Meikle, M. O. Maul and othermore, representatives of prominent commercial and professional firms. In discussing the matter the signers of the petition contend "first in spite of the con-trary onlines of the council committee there

petition contend" that in spite of the con-trary opinion of the council committee, there is no doubt but that the odors which congre-gate around every jail will be in evidence in the city hall. They allege that the build-ing was never intended for a jail and that the \$5,000 that will be expended in preparing it for that use will be so much money wasted, as the location of the jail will surely have to be changed again sooner or later. They also declare that the jail will almost entirely i.eutralize the good effect that the building

be changed again sooner or later. They also declare that the jail will almost entirely s neutralize the good effect that the building is produces on visitors and that in a short time the jail odors and vermin will penetrate every floor of the building. That the council takes no stock in these predictions was sufficiently indicated by its action in placing the petition on file with-out consideration, and as the city attorney is now drawing up the contracts for the premises he occupies except for

Asks Pay for Repairs.

The Barber Asphalt company is urging the council to make some provision in the annual tax levy for paying the balances due on its repair bills. These bills have all been allowed, but on account of the shortage in funds the warrants have not been issued for the bulk of the amount. The Barber com-pany alleges that \$37,637.85 is due as follows: Repairs during 1891. \$10,766.04; 1894, \$0,-152.92; 1895, \$17,718.89. It would require an additional levy of more than 2 mills on the 1896 valuation to settle up this account.
