Wheat, Oats and Corn Advanced and Closed Quite Strong.

PROVISIONS WERE IRREGULAR ALL DAY

Extreme Duliness in Trade and the Report of More Gold Shipments Were Weakening

Report of More Gold Ship-ments Were Weakening Factors. CHICAGO, Jan. 17.—The wheat, corn and oats markets today rose out of a rather heavy condition in the last ten minutes of the session and closed strong at the best prices of the day and at gains of \$e in wheat and \$e in corn and oats. Provisions were irregular in the further advance which they made today, having had to bait while knocking out an organized band of raiders from the wheat pit, who at tempted to prevent them going higher, but made a costly failure. Pork closed at an ribs 10c. Partly due to the strong start in pro-tense and to the strong start in pro-tense and the strong start in pro-

Partly due to the strong start in provisions and in part for reasons peculiar to its own surroundings, the wheat market commenced the day at a little improvement. Wheat, which closed on the day before at 59%c for May, had very few sellers at that this morning, and plenty who bid 59%c and almost immediately 59%c. The early Liverpool cables quoted some advance there, and this, with the moderate receipts in the northwest, amounting to only 373 cars, helped the market to advance ½c early. But the extreme duliness in trade and the report of more gold shipments were weakening factors, under which there was a gradual decline to 50%c, with every appearance of going still lower, but the fresh bullishness of the provision pit started It up again, and it was once more before 12 o'clock wanted at 59%c. But the nonit up again, and it was once more before 12 o'clock wanted at 593cc. But the non-appearance of the cold wave here and the heavy storm out on the Pacific coast sapped support which had previously been an unobtrusive reliance of the bills. The clearances of wheat and flour from the At-lantic seaboard were only moderate, and later Liverpool advices quoted the early gain all lost. Berlin was reported as open-ing from ½ to ¾ mark lower. A probable decrease of only 500,000 bu, or 600,000 bu, in the visible supply for the bears. The second ad-vance to 593cc had for the case, besides the revival of bull speculation in provisions, a reported sale of 590,000 bu, or wheat at bulk to go, all rail, to New Yark. In ad-dition to this were reported 1,250,000 bu, by lakes. The market in the last ten min-ues of the session became quite strong, the price of May getting a bulge to 593cc, maily closing at that ligure. Con was quiet and sold off some at one time, influenced by the weakness in wheat and the expectation of more liberal country deliveries. But later wheat recovered, and as provisions had a good bulke, corn fol-lowed and sold up 34c. May opened un-changed at from 254c to 253cc, split, fell to 284c, then up to 254c, closing firm with the advance in provisions at from 254c to 276. Out were quiet and feature/ess. The

the advance in provisions at from 28% to 28% c. Oats were quiet and featureless. The market was confined to narrow limits, and at the close showed little change. Disappointment in the number of hogs received at the stock yards once more started the provision men on a hunt for pork, lard and riba, for which they offered much higher figures than were current as the session was closing yesterday. Pork started at from \$10.25 to \$10.39, dropped back to \$10.15, then climbed to \$10.45 and closed at that figure. Lard rose from \$5.90 to \$6, and was wanted at \$5.57% as the market was closing, Ribs, from \$5.12%, rose to \$5.25, making the highest price at the close. Estimated receipts for Saturday: Wheat, 10 cars; corn, 659 cars; oats, 199 cars; hogs. 16,000 head. The leading futures ranged as follows: Arileles | Opsa | diza | Low | Closa

STOCKS AND BONDS.

Dullness Was the Chief Character of

can say. The business world cannot know a yet how far foreign questions may upset calculations, though there seems every reason to expect a peaceful set-liement. It cannot know what may be the duties on any import in any class of imports a month hence, whether imports are likely to exceed exports and draw away gold or whether the deficit of revenue will continue on the senate to take any action upon the financial manners of business. — The such adverse circumstances it is actu-sing resulting commercial disasters have not day or two indicate that the same condition. — Senation in products was not very active attain to exports for two weeks, four included, have been 4.483,190 bushels, against 4.773,125 bushels last year. Wheat receipts still make thort erop predictions ridiculous, amounting for awainst 2,620,122 bushels last year. — Cotton receipts were also liberal, and exports assume a generate the solution of consequence, the price declined an eighth, with accounts of hardwere demand by spinners abroad and de-dining prices for goods in this country. No mancial doubies and for a demand which do inductive thas progressed, for all of mancial doubies and for a demand which do not were preses. There has a little delement stocks are running low. — The price declined in eighth, with accounts of hardwere demand, but not enough to keep in any oldably waiting, both for the isettlement of mancial doubies and for a demand which do orders not yet received. There is a little delement stocks have been 4.994,000 pounds domestic and function the soft worlds have been gen-mont the demand, but not enough to keep in any oldably waiting, both for the isettlement of mancic doubies and for a demand the Security Speculation. NEW YORK, Jan. 17.—Duliness was the main character of the stock speculation today, and, as usual under a similar condition, a sagging tendency in prices was noted. The aggregate deal-ings did not exceed \$110,000, a volume of pusiness that would in a regulation market be recorded in a single hour or less. Of such a market detailed account is almost superfluous

a table in a body in a regulation market be purposed of the asingle hour or less. Of such a market detailed account is almost superfluous, while the semi-stagenation illustrates the purpose of the larger operators to postpone dealings upon an important scale unfil the political and financial outlook is clearer. Should the more continue reasonably cases during the comparatively short interval before the bids for the government loan are opened and the success of the loan is demonstrated, an improved condition or affairs in Wall street is expected to rule, providing, of course, that no political market was heavy and prices sagged throughout the day, the depression becoming marked in the closing dealings. The news of the day, aside from the announcement of the call for a meeting of the anthracite coal presidents for Thursday of next week, was calculated to operate unfavorably upon prices. The publication of encouraging exhibits by several important railroads for the second week in a January also failed to stimulate activity or advance. London cables came lower, and the spite previous estimates of an outgo of from the shorts resulted in a strengtment of all stigogood in gold, for shipment tomorrow, despite previous estimates of an outgo of from the stock, to 101. The abatement of the industrial targe of the the day to 595. Leather preferred was under continuous pressure and yielded 2% per ent on sales to realize profits accurate finanties for all stores of the owner the bad price were fulled. The frail prices were the lowest of the day. In the rail widy bend market prices were fairing well maintained in the early trading. In the stock specifier with profit accurate finance at the raily the depression in the stock specifier with profit accurate for the bad price on the bid price on the bid price were fulled. The depression were the lowest of the abar stores of a suppose of the day are traded in at an improvement of the alter seesion. Aggiver, declines occured in the stock specifier with profit the bad sthe s be maintained. Minor metals are weaker, with copper at \$2.75, lead at 3 cents and tin at 13 cents. Fallures for the past week have been much larger in magnitude, numbering 395 in the United States, against 373 laat year, and eighty-one in Canada, agains sixty last year.
