The members of the Council Bluffs Field club will appear in a new role as public entertainers on February 3. They have arranged for that date a home ministrel show to be given in the New Dohany. Mr. and Mrs. Hunt of New York, the professional theatrical people who are taking a vacation in the city, will have charge of the work and take leading parts. The first rehearsal will take place at Dohany's this evening.

The police have been asked to assist in leading the country. Not all of the important measures that have been originated in the solitude of back offices and bed rooms have been cast aside, for many of them have been carried on the rolls of the house until the fatal day of adjournment.

Once in a while one of these bills contains lots of good horse sense and would make a practical and valuable law. One was introduced in the house Saturday by Mr. Perrin, which is meant to strengthen the

The Grace Episcopal church people have planned a pleasant social for Friday evening at the residence of Mr. and Mrs. C. A. Atkins, on Park avenue. A novel feature will be the fines to be imposed. If a young man falls to bring his girl he will be fined 6 cents, and if he does bring her he will be mulcted in the sum of 5 cents. One teaspeonful of lemonade will cost 1 cent and a tablespoonful 2 cents, and if the liquid is not drank gracefully a fine will be imposed.

The general feeling seems to be among the Council Bluffs people, who have attended the sessions of the Iowa legislature during the last few days, that Senator Pusey's bill, permitting the manufacture of liquor in the state, will become a law. If it passes the legiciature there are no fears entertained that Governor Drake will veto it. Such a law would add a vast sum to the productive wealth of the state, and would insure a large plant in Council Bluffs, both for the manufacture of beer and high wines.

There are a number of people in the city who feel under deep obligations to Uncle Sam for thoughtfully providing the means of lessening their living expenses this winter. When the work on the government riprapping was discontinued last fall by the close of river navigation a large pile of coal tective on Saturday reported the fact that the sack and basket brigade had been rein-forced by men with teams and that the coal being hauled away by the wagon load

Unlucky No. 13.

Motor train No. 13 demonstrated the possibility of ill luck that is supposed to follow things connected with that fateful number by crashing into a countryman's wagon on Upper Broadway Saturday night. The wagon was filled with three drunken farmers, and was being driven on the track. They paid no attention to the warning bell of the mo-torman until he was within fifty feet of them. Then they pulled the team off the track, but turned back again deliberately in front of the approaching train, when it was almost upon them. The front platfrom of the motor was smashed, the wagon consid-erably wrecked and the drunken farmers pitched into the street. Unfortunately they escaped without any punishment beyond the sudden dumping into the street.

The saloon keeper can be prosecuted if he sells to the man without seeing his license, and he in turn may have the man arrested if he fails to provide himself with the license. A moment's reflection will show that the scope of this law is very great and an exceedingly profitable plan for raising revenue wherever there are men who wish to drink. There are perhaps 2,000 individuals in Council Bluffs who would come within the provisions of the law, and they would annually contribute to the city's exchequer 4,000 good, honest and much needed dollars. It would be a tax easily collected, for every man would be a spy upon every other man, and every saloon man would be on the lookout to see that all of his patrons were provided with the necessary permit to drink or get drunk. The bill provides that the fees realized from this form of license shall go into the treasury of the community where ter. There is no doubt but that the bill will become one of the most popular measures that will come before the Iowa legislature that winter, and such a sentiment will grow up in its favor that it will be carried through both houses on the flood tide of popular feeling and be enacted into law with a whoop and a hurrah.

The chief interest the bill has locally lies

to the fact that it originated in the close of one of the Council Bluffs statesmen.

For years I have entertained the thought that largely the ills with which hogs of this day are afflicted are attributable to injudicious breeding, and I may, with propriety add, careless handling; that the arbitrarily breeding to "fancy points" has correspond-ingly bred out the constitution, and thus diseases.

In this connection another thought oc

WATER SERVICE IS A CURRENT EXPENSE

Judge Towner Holds that City Coun ells Are Not Restricted to the 5-Mill Levy in Providing Fire Protection.

CRESTON, Ia., Jan. 19.-(Special Telegram.)-Judge Towner has decided the case of the city of Creston against the Creston Water Works company, which is of state importance. The action arose over a contract made by the city council when the water plant was first accepted, the council agreeing to pay \$7,800 per year hydrant rental. A new council abrogated this contract and | left the postoffice at 7:30 o'clock and as refused to pay the water company only such sum as was realized from the 5 mill tax allowed by the state law. While there have been other points involved this is the principal one, and the decision of the court has been awaited with intense interest.

Judge Towner decides against the city in every point. He holds that the water company is entitled to \$7,800 per annum on the contract, and that if the 5 mill tax is insufficient the balance must be paid out of the general fund. He goes farther and says the city has the power to provide for water supply as current expenses, and that these expenses are not necessarily limited to the amount provided for in the 5 mill tax for water purposes.

The case will be carried to the supreme court. The city has fought the water company ever since its inception, and has spent considerable money in litigation, Judge Towner has had the case in his hands almost a year. Omaha capitalists own the

CEDAR RAPIDS, Ia., Jan. 19 .- (Special.) -The little town of Estherville in the northwestern part of the state is in the throes of a bitter saloon war, the result of a series of meetings held there recently by Evangelist Williams. The mulct petitions were circulated in the county months ago and the requisite number of signers were received to the petitions, and since that time there have been three saloons running at Estherville and two at Armstrong. The revival meetings resulted in a great religious awakening, and the latter part of last month petitions were circulated for the purpose of securing the closing of the mulct saloons. Only about 15 per cent of the voters of the county signed this petition, however. Not to be thwarted, the enemies of the saloons made application for temporary injunctions closing the saloons, both at Estherville and closing the saioons, both at Estherville and Armstrong. The matter was heard before Judge Quarton at Algona. The validity of the petitions was not taken up, the claim being made that liquor had been sold to minors and habitual drunkards. Judge Quarton sustained the temporary injunctions and declared they should hold until the next term of court, which convenes at Estherville Innuary 20. January 20.

lown Bankers Start a War on the Transportation Companies' Checks. CEDAR RAPIDS, Ia., Jan. 19 .- (Special.)-The bankers of Iowa have declared war on the express companies in the matter of cashing express money orders. To get an express money order cashed at a bank means that the owner will have to suffer a discount. Bankers claim that the express companies not only do not make proper pro-vision for the cashing of the orders they

issue, but by their neglect in this direction they make a negt sum of money annually, as long as the banks cash them without a discount. Bankers not only lose the exchange on these orders, but when they cash them they are obliged to transport large sums of currency in order to do the business. For this transportation the express companies charge full rate. It is expected that the ex-press companies will retaliate in some way or other, but the bankers claim they are in the fight to win. Steps are now being taken to organize a guaranty company, the members of which will equally stand losses of cur-rency in transmission, and when the associa-tion is perfected the transmission of cur-rency will be by registered letter.

GET FLESH.

iet Strength, Vigor, Clear Complexion and Good Digestion, Not by Patent Medicine, But in Nature's Own Way

Any honest physician will tell you that there is but one way to get increased flesh all the patent medicines and cod liver oils to the contrary notwithstanding. Nature has but one way to increase flesh,

strength and vigor, mind and body, and that s through the stomach by wholesome food well digested. There is no reason or common sense in any other method whatever. People are thin, run down, nervous, pale and shaky in their nerves simply because their stomachs are weak. They may not think they have dyspepsia but the fact remains that they do not es enough food, or what they eat is not quickly and properly digested, as it should be. Dr. Harlandson says the reason is because the stomach lacks certain digestive acids and peptones and deficient secretion of gas-

ric juice. Nature's remedy in such cases is to sup oly what the weak stomach lacks. There are several good preparations which will de this, but none so readily as Stuart's Dyspep sia Tablets, which are designed especially for all stomach troubles and which cure all digestive weakness on the common sense plan of furnishing the digestive principles

which the stomach lacks.

Stuart's Dyspepsia Tablets give perfect di-gestion. First effect is to increase the appelte, and increased vigor, added flesh, pure blood and strength of nerve and muscle is Stuart's Dyspepsia Tablets is the safest tonic known and will cure any form of stom-ach trouble except cancer of the stomach. May be found at druggists at 50 cents for full the perfectly natural result. sized package, or direct by mail from Stuar Co., Marshall, Mich.

Dr. S. Mosher

Having fully demonstrated by years of successful practice and experience that he is able to cure multitudes of diseases which baffle the skill of ordinary physicians, he feels it his duty to make known to suffering humanity that he devotes his whole time and energy to this particular branch of the profession, and will prepare and furnish medicine at his office or visit those cases which may require personal examination. Patients at a distance may consult Dr. Mosher by letter, giving a carefully written history of their cases, describing their symptoms minutely as possible, which will enable him to make correct diagnosis, and judge very accurately of the curability of the disease, and to apply proper remedies. Medicine forwarded either by mail or express, and all medicine prescribed by Dr. Mosher is prepared under his own personal supervision. He treats all diseases without mercury or other poisons, which create disease of themselves.

The doctor by his new HESTORATIVE TREATMENT cures all curable diseases, and treats with success all affections of the Liver. Throat and Lungs, Catarrh, Epilepsy, Dyspepsia, Heart Disease, Rheumatism, Neuralgia, and all Nervous Diseases caused by overwork, the indiscretion of youth, or the excesses of riper years, and whatever may tend to lower the latent force or the tone of life's vitality, causing physical debility, nervous exhaustion, insanity, and premature decay.
