

COUNCIL BLUFFS DEPARTMENT

MINOR MENTION.

Mr. Dangle will preach at the Overton Mission on Pierce street this evening.

PROMISED TO HELP YETZER

Attorney Bruce Secures His Testimony Against Dickerson with a Pledge.

SENSATIONAL ADMISSION ON THE STAND

Yetzer Swears Bruce Offered to Secure a Pardon for Him if He Would Help Stick Old Ike Dickerson.

Old Man Yetzer let the cat out of the bag on the witness stand in the Dickerson case yesterday, and told all about the deal made between him and Attorney Bruce, by which he was induced to go on the witness stand and swear as he has done in the case now on trial.

Mr. Martin couldn't say what the deal was, but he said that he agreed to give his evidence under promise that Bruce would sign his petition for pardon, in case the supreme court affirmed the finding of the lower court in sentencing him to the penitentiary for five years for fraudulent banking.

In his cross-examination on Friday Mr. Organ charged that Yetzer had been closeted in a room at the Grand hotel with Attorneys Bruce and Swan, the men who had prosecuted him so bitterly at Atlantic, and had shut out other attorneys out of the conference. He hinted very broadly that some deal had been fixed up by which Yetzer was to profit by his testimony.

When court met yesterday morning, Mr. Bruce called Yetzer to the stand and sought to show that the meeting at the Grand hotel was purely a correct affair and one such as witnesses and attorneys usually have before a trial.

Mr. Yetzer replied with a prompt "No, sir," but when asked if he had not told Jacob Mills, within the last few days, that Bruce had offered to help him, he answered "Yes, sir." He said that he had turned over to the bank and had received a receipt from the bank for the notes and cash to the amount of \$20,000.

UPSETTING MARTIN'S SYSTEM. It was also brought out that Yetzer had been charged with \$10,000 due from W. P. Christie and \$10,000 from J. C. Rappe, but that there was no record of any such charges.

Mr. Morgan, "if it is not true that Mr. Bruce told you that he could get anything he wanted in Cass county, if he could only stick to the Dickerson case, do you mean to say that you would sign his petition for pardon if he would use his influence to get you free or get you a pardon?"

Mr. Morgan was satisfied. He dropped the cross-examination and left Mr. Yetzer to answer the questions. Mr. Bruce did some thinking, and then thought some more. When delay bordered on the edge of embarrassment, Mr. Bruce asked:

"The witness said that if you would testify against Dickerson in this trial he would use his influence to get you free or get you a pardon. Is that true?"

Mr. Morgan was satisfied. He dropped the cross-examination and left Mr. Yetzer to answer the questions. Mr. Bruce did some thinking, and then thought some more.

DEVELOPED THE BANK'S CONDITION. County Attorney Boorman of Cass county then took his first active part in the case. He called to the stand E. Martin, an expert accountant, who was employed on the books of the Cass county bank. Mr. Boorman wanted to know if the statement of the witness, going into the details of the condition of the bank, as shown by the books, at the time of the failure of the bank, was correct.

Mr. Boorman asked the witness if the statement of the witness, going into the details of the condition of the bank, as shown by the books, at the time of the failure of the bank, was correct.

closed in December, 1893, owed the bank \$100,000; fixed the amount at Glenwood at \$79,000 and have fixed it in this trial at \$75,899.97.

The witness admitted that such was the case and he wanted to make an explanation, but was not allowed to do so.

Mr. Martin testified that in the indebtedness of Yetzer a charge of \$7,000 was due on the Mill and elevator indebtedness.

Mr. Martin couldn't say what the deal was, but he said that he agreed to give his evidence under promise that Bruce would sign his petition for pardon, in case the supreme court affirmed the finding of the lower court in sentencing him to the penitentiary for five years for fraudulent banking.

In his cross-examination on Friday Mr. Organ charged that Yetzer had been closeted in a room at the Grand hotel with Attorneys Bruce and Swan, the men who had prosecuted him so bitterly at Atlantic, and had shut out other attorneys out of the conference.

bringing in the largest number of new members to the association at the end of thirty days. The following committees were appointed: Reception, J. C. Rappe, chairman; Horton, W. H. Molesworth, Henry De Long, H. H. Wing, F. H. Keys, refreshments; B. H. Oker, H. H. Franks, Charles Paschel; program, Phil Paschel, Rev. C. Hooker, E. B. Muck, Louis Orcutt; press, F. Froome, H. P. Barrett.

TURN UP EXTENSIVE FORGERIES. Investigation of a "Lumberman's Dealings Arouses Farmers." Forgeries that are said to aggregate at least \$100,000 and to cover a period of several years were discovered in Minden yesterday.

Minden is one of the small and thrifty villages in Pottawattamie county and is supported entirely by the rich farming community around it. One of the largest mercantile enterprises in the village is the Seybert & Wiess lumber company of Avoca. This company supplies the lumber for the Pottawattamie valley for the farmers, and the business done has been very heavy.

The denouement came when the company undertook to make some of the collections on the notes. The notes were not sought to be collected were pronounced forgeries by the men whose names they bore. Investigation showed that Isaac Dickerson, a well-known farmer, had forged the notes.

BRIDGE READY FOR TRAFFIC

New Structure at Sioux City Formally Opened to the Public.

Consumption of Long Deferred Hopes. People of the Corn Palace City Expect Great Benefits from the Enterprise—History of Failures and Success.

SIoux CITY, Jan. 21.—(Special Telegram.)—The new Pacific Short Line bridge between the Iowa and Nebraska banks of the Missouri river at this point was thrown open to the public today. Foot passengers were allowed to cross at 9 a. m., but not until 10:30 did the first engine, No. 13 of the Pacific Short Line road, and an electric car of the Sioux City Traction company, move upon the structure.

The Pacific Short Line bridge is one of the largest not only on the Missouri river, but in the United States. It consists of five spans, two fixed at the center, with a draw at either end. The former are each 600 feet in length and the latter 470 feet. The trestle approach is 2,200 feet long. The bridge is ten feet above high water and about thirty feet above low water mark. It furnishes accommodation for railway and street car tracks, wagons and foot passengers. The total width is fifty feet. Over 7,500,000 pounds of steel entered into the construction and the total cost has been nearly \$12,000,000.

NO DEFINITE ARRANGEMENTS HAVE YET BEEN MADE with any railway lines for the use of the structure. The Commercial Association of the city is negotiating with several companies, however, and expects soon to have several trains a day running over it and in the near future to open to Sioux City jobbers a large territory in Nebraska which imperfect railway connections have hitherto kept closed against them.

THE ORIGINAL BRIDGE COMPANY was incorporated with a capital of \$2,000,000 in the fall of 1895. The directors were C. L. Woodbury, David McKenzie, Leverett Clark and John Pierce. J. A. L. Waddell of Kansas City was employed as engineer, and in July, 1896, set to work on the bridge. The bridge was to be the first pier. Work was suspended a few months later, owing to the failure of McLean, the principal contractor, and was not resumed until the fall of 1893, when A. S. Garretson and the famous Sioux City railway syndicate took the matter up and the bridge was completed and opened to traffic in the past to depend on ferry boats or the pontoon bridge when the state of the river rendered it possible to keep one in, will be maintained.
