CONDITION OF WINTER WHEAT. Crop as a Whole is in Fairly Good

CHICAGO, March 12.-The Daily Trade Bulletin has the following regarding the condition of the winter wheat plant: Information at this season of the year is of little real value, owing to the changeable weather. However, the reports in the aggregate indicate that the crop as a whole is in fairly good condition. There is some complaint of damage in southern Pennsylvania, Maryland, Virginia, West Virginia, southern Ohio, s uthern Indiana, eastern Ill'nois and in some sections of Kentucky, Tennessie and Wisconsin-mainly the result of the drouth in the fall, ompelling rather late sewing, and extreme hanges of the weather during the winter. In these sections there are also many good In New York, northern Ohio, n ern Indiana, central and southwestern Illinois, Missourt, Kansus, Oklahoma, Texas and California the great majority of the returns indicate a very good crop—in the southwest a large increase over that of last year. Returns from Canada favor so far an average

Commissioned Officers Called on to Choose Brigade and Regimental Commanders.

GENERAL COLBY HAS AN OPPOHENT

Colonel Bills Seeks to Be Promoted to the Field Command of the Standing Army of Nebraska.

LINCOLN, March 12 .- (Special.)-The following general order, No. 4, was issued from the adjutant general's office today:

In accordance with the provisions of section 14, chapter ivil, Compiled Statutes, an election is hereby ordered to fill the vacancies caused by the expiration of the terms of office of the present incumbents, viz: Brigadier general, colonels First and Second regiments, lieutenant colonels First and Second regiments, lieutenant colonels First and Second regiments, and major, First regiment, Nebraska National Guard.

The adjutant general will have proper ballots prepared, which will be forwarded to the commissioned officers for their use in the election. These ballots, indicating the officer's choice of persons for appointment to the offices named, must be returned to the adjutant general on or before 4 o'clock p. m., April 8, 1896.

A board of officers, to consist of Brigadier General P. H. Barry, adjutant general; Major W. L. Stark, judge advocate general, and First Lieutenant M. Herpolsheimer, First infantry, will convene at 4 p. m., April 8, 1896, in the office of the adjutant general, in Lincoln, for the purpose of circussing and recording the votes of the commission and recording the votes of the commissi the adjutant general's office today:

Brigadier General L. W. Colby is a candidate for re-election. The only opponen so far mentioned to General Colby is Coloonent nel C. J. Bills of the Second regiment. nel John P. Bratt of the First is a candidate for re-election, with apparently no opposition. Captain G. R. Colton of company E. First regiment, is a candidate for the opposition. Captain G. R. Colton of company E. First regiment, is a candidate for the llertenant colonelcy of the First, and Lieu-tenant Colonel Wolcott of Central City is a candidate for re-election to the same Major Thomas Williams of the First, Geneva, and Lieutenant Colonel Bischoff of the Second are candidates for reelection. Major Olson of the Second is a cardidate for colonel of that regiment. Governor Holcomb returned this afterncon from the Grand Island Soldiers' Sallors' Home investigation. He has taken the matter under advisement and will re-port his findings in the case later. The governor today officially appointed Judge William Neville of North Platte vice pres-

tional Exposition association.
The Board of Public Lands and Buildings has returned from a trip to the Girls' Industrial home, Geneva. The members say that they made arrangements for an exten sion of the sewerage work of that institu-tion, and work will be commenced at once. Today the condition of ex-Governor Thayer is reported to be more favorable. He slept better last night than for some

time past, and this morning was able to retain nourishment on his stomach. Tomorrow the "Crawford system" of pri-mary nominations for city officers will be tried for the first time in the capital city. It has been modified in a few minor par-ticulars, and is now termed here the Lincoln system. The city officers to be nomi-nated are a police judge, water commissioner, city engineer, city attorney and an alderman from each of the seven wards. For nearly two weeks the hotel lobbies have been crowded with all kinds, colors conditions of politicians. There is a certain state of uncertainty connected with coming municipal political events that has hitherto been unknown in this city. It is generally admitted that a nomination by the republican primaries is equivalent to an election, but in some quarters this is disputed, and ante-election knives are hinted if ring manipulators succeed in de-feating the anticipated benefits of the Craw-ford-Lincoln system. It is said that cer-tain strong candidates for the nomination have induced several "straw" candidates to place their names on the ticket, and have even gone so far as to pay the necessary resentatives of the 'reform element.'

whose benefit the new system is said to have been forced on the people. Political matters are, apparently, tonight in Lin-coln as warm as will usually be found on the eve of a hot presidential contest. The Eiche & Lambertson Manufacturing company of Lincoln filed articles of incorporation today with the secretary of state. The business of the concern will be buying and selling patent rights and handling real

estate. The capital stock is \$24,000 and the incorporators are Herman Eiche, Orrin T. Lambertson, Fred and August Eiche The claim of the Helm irrigation plant for water from Red Willow creek was allowed today by the State Board of Irriga

BLAIR, Neb., March 12.-(Special.)-Somtime since Hans Grimm of this place bought of Harrison county, Iowa, at public sale 164 acres of swamp land granted to the county by the state, and proceeded to have buildings erected thereon. Last Saturday while his carpenter, Frank Griffith of this place, and Hans Grimm, ir., were busily engaged at work, there appeared on the scene six or seven armed men in the employ of W. A. Smith of California Junction and two teams. The workmen were ordered to desist or risk life and limb. The intruders drove with their teams over the material, etc., and damaged them badly, Grimm and Griffith, being unarmed, were compelled to stand submissively by during the work of destruction. Shortly afterward an officer appeared with warrants for Griffith and Grimm, charging them with tres-pass. They were taken before a justice at Columbus Junction and admitted to bail in \$100 to appear Monday, which was furnished. The defendants appeared and on a change of venue went to Modale, and were dis-

Alleged Physician in Trouble. OSCEOLA, Neb., March 12 .- Polk county's district court is grinding away. The case that seemed to create the most interest was that of P. S. George, who was arrested at Stromsburg some time ago for practicing medicine without having registered. He claimed to come from Lincoln and treated his patients by the laying on of hand, and his patients by the frying on of hand, and giving them roots and herbs. The case was hotly contested, it taking up two days time of the court, and after the jury retired it only took a few minutes to find the fellow guilty. A motion has been made for a new trial, and it will probably have to be finally decided by the supreme court.

Hastings Republicans Confer. HASTINGS, March 12.—(Special Telegram.)

The delegations from the Second, Third and Fourth wards to the republican city convention, to be held tomorrow evening, held meetings this evening. The Second ward delegation agreed by a unanimous vote to present the name of C. F. Morey to the convention for the homination for mayor and J. R. Sims was chosen for alderman. The Third ward delegates selected A. M. Kerr for alderman, and the Fourth ward delegation agreed upon Robert Brown for the condidate. its candidate Nebraska City Social Event. NEBRASKA CITY, March 12.—(Special.)-

The members of the Cinderella club gave a

'heart party" last evening which proved

to be one of the most enjoyable social events of the year. After playing a series of games of that popular card game, "hearts," the floor was cleared and dancing was in-

dulged in. Refreshments were served. Prizes were won by Miss Christie and Mr. J. C. Bound Over for Adultery, WEEPING WATER, Neb., March 12. Special Telegram.)—The trial of Hezekiah Elliott on the charge of adultery preferred by J. I. Looker, with whose wife he was too intimate, was concluded this evening before Judge Barnett and Elliott was bound over to the district court. The sheriff took him to the county jail. The trial was racy and the court room was crowded.

INQUIRY AT THE HOME IS OVER. NEW USE FOR SUGAR BEETS

Agninst Wilson Closes. GRAND ISLAND, March 12.—(Special.) of the charges brought by Mart Howe against Commandant Wilson of the Soldiers' and Sailors' home at this place. It is probable that never in Nebraska was the good name of a state official or the reputation of a woman brought in question on a filmster showing than was made in this case. In his charges Howe specifically attacked Mr. Wilson's character as an officer and a gentle-man, and in his prosecution he attempted to support this charge by connecting Mrs Bates, president of the Visiting board, and the commandant in unseemly conduct. It was shown that they had made together trips to Kearney, Hastings, Liucoln and Norfolk on official business, and had re-mained over night at the same hotel. Whill at Lincoln they attended a lecture together. It was also shown that Miss Pearl Baker, a young woman employed at the home, was on terms of intimacy with the family of Commandant Wilson and had visited the home of the latter at the invitation of Mas nuc Mathews of Omaha and a number of

Rosa Wilson.
It was further brought out in evidence that the trouble with the heating apparatus, complained of by Howe and cited in support of his charge of employing incompetent engineers and cooks, was due to the faulty construction of the plant. It was shown that the brutality to the inmates complained of by Howe was committed under his own orders at a time when Commandant Wilson was absent at Chattancega. None of the six charges in the complaint were based on better foundation than these. So far as the in-vestigation is concerned, were it not for the gravity of the allegations against the com-mandant and the women, it is a howling farce.

The investigation closed with last night's other spirits. It had the general smell and session. This was begun at half past 7 o'clock and continued until midnight. General table taste. Both Mr. Mathews and Mr. Bates, the husband of Mrs. Bates, was put on the stand and testified that he had read the various letters received by Mrs. Bates, that he had full knowledge of her visit to Kearney and to Hastings; that he know of her going to Lincoln and attending Inger soll's lecture in the company of Command-ant Wilson; that his wife had informed him of this fact immediately upon her return from Lincoln. He also reproduced a letter from Mart Howe, which, in reply to inquiry by him, stated that all the talk about Mrs. Bates had emanated from Colonel Wilson's side for the purpose of creating an enmity against him (Howe). Miss Pearl Baker testified that she had at

times felt it not exactly proper to be re-porting to Commandant Wilson what other members of the home said and did. She stated that now she was sorry she had no informed Colonel Wilson of more facts that came into her possession and of more of the talk that was being made against him

by Adjutant Howe and Mrs. Howe.
Fred Thomas, an employe of the Palmer house of this city, testified that Colonel Wilson never dined the telegraph girls at that hotel; that on one occasion the com mandant was scated at the same table at which these women were scated, but that they paid for their dinner as usual in meal tickets, and that Mr. Wilson paid for his dinner in cash. When asked how it transpired that the hotel register of a certain date was missing, Mr. Thomas stated that t was customary to destroy the registers when they were full.

Mrs. Zimmer was also recalled and it was shown that Howe had started the rumors against Commandant Wilson. Member Casper of the Visiting and Examining board was put on the stand, and, asked why he did not give Howe a chance to be pleased with it. heard before voting to confirm the discharge. stated that in his opinion Howe had been only an employe, that he knew Howe was not faithful to his employer and had used language which was ungentlemanly and that was all he wanted to know, adding that if any employe called him a liar, or worked in opposition to his instructions, he would not wait long before discharging him.

not wait long before discharging him.

Mrs. Howe was also put on the stand. She denied that Howe had scolded the cook; denied that she had ever said Howe opened Wilson's letters and did all the business, or that she had ever said that they were better than the old seldiers and ought to have better food. e civil case they never submitted any testimony for

The still used today was a very small one, there This tax becomes delinquent in fifty days being only forty feet of pipe in the coil, after the passage of the ordinance, and being only forty feet of pipe in the coil. The liquor obtained with only one distillation ning it through a larger still and by redistillation the highest grade of alcohol can be obtained. The bests used in today's test were of 8 per cent sugar content. The purity coefficient was not determined. Mr. Peterson says that beets of as low a grade as 1 per cent sugar can be used, but of course the larger the sugar content the better the re-sults obtained.

COST OF THE PRODUCTION. The cost of the spirits, he claims, is much less than that made from other substances and he does not think that for the manufacture of the raw spirits an extensive plant is necessary. Those posted on the manufacture of spirits are of the opinion that a high grade of alcohol can be made from the juice and that a large additional demand

for beets will thus be made.

The juice used today was extracted from the beets by pressure and the salts and albuminoids removed yesterday. It only fermented about twelve hours. Tomorrow Peterson will experiment with some syrup he has obtained from the Utah beet sugar factory and from which sugar cannot be obtained.

The experiments were conducted with a view to obtaining alcohol, and all present are of the opinion that they were a success. Mr. Peterson is still experimenting in the manufacture of crude sugar and plans are being matured for the erection of a factory. He showed some syrup which he had made from beets. It is much better than that which he had at the state sugar convention-clear in color and with very little vegetable taste. It closely resembles the best grades of sorghum. To bring the matter before the council in a proper manner Walters introduced a resolution instructing the chief of police to prevent the erection of the building. The council voted down the resolution and then Walters read another resolution, which instructed the city attorney to draft an ordinance repealing the present fire limit ordinance. This was seconded by Blanchard. Walters called the attention of the council to the fact that it had refused to allow Mr. Abrams to creet a corrugated iron building, just across the street from the Briggs location, and he did not think it right to allow one man to violate the ordinance and compel another one to abide by the laws.
