Bratt, colonel of First infantry; William Bischoff, colonel of Second Infantry, and W. L. Stark, Judge advocate general, has been in session considering the pracicability of holding annual encampments of the Nebraska National guard, and

while adopting no definite resolution concerning the subject, has addressed the following communication to Governor Holcomb:

lowing communication to Governor Holeomb: The Military board, after due inquiry and examination, would respectfully advise for your consideration: 1. That section 40 of the military code provides in mandatory terms for an annual encampment of the Guard. That the gen-eral government has appropriated the sum of \$100,900 for the purpose of providing arms and equipments for the whole body of the Guard, we receiving our apportionment therefrom, and believing that congress ex-pects us to carry out the spirit of the Ne-braska lsw, by holding an annual encamp-ment, and we believe the reason for mak-ing such an appropriation was the fact that nearly all the states provide for an annual encampment. 2. SOME DELAY IN GETTING TO WORK The members of the board purchased them and the Boone county commissioners will formally turn them over in the state. They are now in the hands of the certelary

state for record. They are 5 per cent bonds. At a recent meeting of the board a reso lution to invest a portion of the permanent school fund in county or United States bonds, introduced by Governor Holcomb, was

roted down. Today the governor introduced the following:

the following: Whereas, The authorities of Otoc county, Nebraska, have issued refunding bonds of add county in the sum of \$5,600, dated May (1596, drawing interest at the fate of 5 per cent per annum, payable semi-annually on the 1st days of May and November of ach year, and payable in twenty years, with the option of payment after ten years; ind.

This resolution was adopted with an

imendment to the effect that the premium \$1.03 be paid to Dietz, Denison & Priot, out of the first installment of interest due from Otce county. This will likely have the effect of preventing the deal, as the firm in question will probably not wait six months for their small bonus. now a member of Springview post No. 212, Grand Army of the Republic. He has been a citizen of Burton precinct, Keya Paha county, thirteen years and held numerous precinct offices, justice of the peace, etc. He was always considered a good neighbor. While the killing of Woodfork was whiful in a degree, it was provoked beyond measure. Porter is married and the father of two children, who in company with their mother wore waiting in the court room yesterday morning when the court opened.

At 9 o'clock Porter was brought in by Sheriff Laird, looking bleached and careworn after his year of confinement in the county jail, and took his seat, after greeting his wife and children, with composure. Yesterday and today noon has been taken up with the empanelling of a jury. The regular panel has been exhausted and a special venire for thirty more has come and gone, and no jury is in sight yet. After the Address of Welcome and Response & Little Routine Business Was Transacted Report on Financial Condition.

The twenty-third annual convention of the Nebraska Stats Homeopathic Medical association convened at the Commercial club rooms yesterday morning. The attendance at the opening session was small, but later in the day increased materially. The evening trains brought in still others and at n ght the attendance more nearly met the expectations of the officers. Hard times and the disagreeable weather have tended to keep many at home. As a consequence of the small attendance very little business was attempted at the forenoon session.

The society was called to order by its president, Dr. A. H. Dorris of Lincoln, after which prayer was offered by Rev. W. P. Heilings, paster of the First Haptist church of this city. Dr. O. S. Wood then extended a welcome to the visitors in a brief speech, which received an apt response from Dr. F. B. Richter of Lincoln. President Dorris called attention to a

change in the by-laws, which he proposed to offer at the next meeting. Under the present rule the chairman of bureaus were appointed by the acting president immedi-ately after each bureau completed its dis-cussion. The effect of this rule cussion. ATTENDANCE INCREASES.

There was a decidedly larger attendance at the afternoon spalen, which was very profitable from a physician's point of view. The parers read were almost without exception indicative of a close study of the subject, and the discussions which followed were productive of new ideas and many old ones in new forms, The papers were gen-erally of a technical character, and without interest to those outside of the medical pro-fession. Dr. Julia C Starr of Beatrice feld a paper on "Preven-tion of Diseases of Respiratory Tract, or An tisentic Measures During Endemics." She stated that the germs of many acute con tagicus diseases were received into the sys tem through the lungs.
