THE OMAHA DAILY BEE: THURSDAY, MAY 14, 1896.

A long conference was held between Attorncy General Harmon and Senator Allen this morning, the latter urging the attorney general to dismiss the suits against the settlers, taking the position that the pendency and prosecution of the suits, even though they should result in victory for the settlers, would utterly destroy a large per cent of them financially; that it was equivalent to bankruptcy to a great many, who were compelled to travel the long distance, employ stood 139 to 35 divided as follows-Ayes, 67 counsel, meeting the expenses and waste of republicans, 69 democrats and 3 populists; time incident to the trial of these cases. The secretary of the interior recommended dismissal of these suits some time ago. Attorney General Harmon wanted to be sat-isfied of the good faith of the settlers, and took time to debate the question. Senator Allen assured him that there could be no doubt as to the settlers, and that in any event the government's remedy against the company would be ample. It is possible that the suits will proceed against the com-pany, which is amply able to defend itself. The dismissal against the settlers, however, will lift many burdens. Upwards of 3,500 holders in Nebraska were affected by these suits, commenced by A. J. Sawyer, acting for the government.

The effect of the recent action the German government increases to the German consumer the tax on raw and refined sugar from 18 to 21 marks. While the consumer gets the worst of this advance, the German sugar producer, supplying the Amer-ican market with raw and refined sugars, is benefited nearly 100 per cent by the raise in the export bounty. The bounty on raw sugar, under the law just passed in Germany, is 27 cents per hundredweight, as against 13½ cents formerly, and on refined sugar the bounty is 38½ cents per hundred-weight, as against 31½ cents, the former price. This increase will make it possible for German sugar producers to go upon the markets at New York, New Orleans and San Francisco, shoulder to shoulder with the producers of raw and refined sugars of America.

A packed house at Boyd's last night testified to the local popularity of Sutorius' mansteadfastly refused to be formally censured dolin orchestra, for, it is entirely safe to presume, no musical organization could have drawn so many people through one of the

worst storms of the season unless its popularity was firmly grounded. The concert of ten numbers amply repaid the auditors for any discomfiture they may have experienced on their way to the theater. Prof. Sutorius and his orchestra, comprising eighty-five mu-sicians, were supported by the Imperial Baujo

and Gultar club, thirty in number, under the direction of E. H. Cumming, and the two organizations thus combined were assisted by Mr. Homer Moore, baritone, and Mr. Sigmund Landsberg, accompanist. The opening number, the "Ballimore Amer-can" march, by the full strength of both ican" organizations, made a favorable impression, which was increased by the rendition of the march "Beau Ideal" by the Imperial club. But it was in the closing number of the first part, "Evening Music," that the real merit and strength of the combined musical or-ganizations was brought out. This number was given with a finish of execution seldom

heard in like performances. This, and the melody "Don't Be Cross" were the notable jeces of the evening. Two numbers on the program are worthy of especial mention. The guitar sextet, com-posed of Messra, Elliott, Bernhard, Wigton, Hindman, Zitzmann and Sutoriue, offered a composition arranged by Prof. Sutorius and part another sextet, comprising Messrs, E.

Zitzmann, Potter, Dunn, Hindman, W. Zitz-mann and Sutorius, rendered the prayer from "Lohengrin," and it proved to be the most notable number of the evening. Mr. Homer Moore received his usual Omaha

RESOLUTIONS FAVORING MACCOLL STAND

Two City Employes and One Other Member of the Club All the Motion to Reconsider Secured_ **Harte Quits in Disgust.**

There was a lively meeting of the Thurston Republican club at its headquarters in the Patterson block last night. At a meeting held about a week ago the club had unani-

mously passed resolutions endorsing the candidacy of J. H. MacColl for governor. Since that time the supporters of the Broatch ambition have been endeavoring to induce the members to reconsider that piece of logislation. Last night was the time fixed for a final effort to strike a blow in defense of the Broatch interests, and instructions were sent to members with whom the city admin-

istration has a pull to be present to assist in the undertaking. Superintendent Mathiesen of the city hall ordered two of his elevator conductors, who are members of the club not to fail to be on hand and administration pull was worked for all it was worth.

The men who were expected to vote for rescinding the resolution were on hand when the club met last night, and as soon as a favorable point was reached in the proceedings Building Inspector Harte arose and moved that the records as relating to the MacColl resolutions be expudged. He declared that if the policy of supporting Mac-Coll were persisted in it would break up the club. He urged that it was important that an Omaha man should be the next governor on account of the Transmississippi exposition. The governor would have the privilege of appointing fully 500 men to various positions connected with the fair, and if Broatch
