Field Marshal Yamagata has reached Moscow safely and is participating in the coronation fetes as the representative of the Japanese emperor.

And now they are talking out in Colorado of Senator Henry M. Teller as candidate of the free silver democrats for the presidency.

Nebbraska never was so important a factor in national politics as it is today. It promises to lead the populist national convention and seems to be the hinge upon which the fate of the democracy turns.

It is reported that a Colorado woman last week presided over the most disorderly county convention that was ever held anywhere.

The Iowa state democratic convention occurs today. Its action in the selection of a delegation to Chicago and the framing of the instructions under which they are to place will be final as to the work of Iowa's voters.

THE SILVER STATES AT ST. LOUIS.

Although the silver states will have a very small vote in the national republican convention and still less in the electoral college, the probable action of their representatives at St. Louis is regarded as of some interest.

The general expectation is that if the national convention adopts a sound money platform and squarely pronounces against the free coinage of silver, as there is no reason to doubt will be done, the delegates from the silver states will bolt.

But these things have been sixteen years in the electoral college and it is an interesting question as to what effect the holding of the national convention by their delegates would have upon the republican voters at the election in November.

It is not necessary to underrate the importance of the currency question in order to recognize the importance of the tariff question. As we have more than once said, the large majority of American voters are most deeply concerned at this time in a policy that will enable them to earn money, that will revive the industries of the country and create a demand for labor.

What will restore prosperity? What is to make Nebraska prosperous? Abundant crops. Diversified production. Raising more corn, hogs, cattle, sheep, sugar beets, chievery, alfalfa, flax, small fruit and vegetable seeds.

A reduction of taxes through honest and economical government. The strict accountability of public officers for the faithful performance of their duties.

The repression of sectional jealousy and local strife and the cordial cooperation of all Nebraskans in every enterprise that promises to build up Nebraska and develop its resources.

There is little reason to doubt that the republican party can elect the president without the votes of the silver states. But none the less it is desirable to have these states in the republican column and their highest interests should insure their being in that column.

There appears to be a pretty general sentiment among Spanish statesmen, especially those of the liberal faction, in favor of instituting reforms in Cuba, but all seem to be imbued with the idea that great care must be taken to preserve the imperial dignity.

THE COUNTY COMMISSIONERS ARE REQUIRED TO REMOVE ANY JUSTICE OF THE PEACE KNOWN TO BE A DRUNKARD.

The county commissioners are required to remove any justice of the peace known to be a drunkard. The constitution defines drunkenness as ground for impeachment. So the commissioners have abundant power to depose a justice found in his cups.

The certainty of the exposition has come to be conceded on all hands. That the city must be furnished up and put in ship shape for the great show goes without saying. The matter of paying repairs—the replacing of decayed block pavements—must soon engage the attention of the people of this city.

When a man writes "Greater New York" after his name, he registers a letter which he declares that wages, and especially farm wages, are too high, and should be reduced. There can be no question about the low statement's source in this matter.

This session of congress will show no relief accorded to any of the many states that have refused to pass tariff and bond bills. The latter would have enabled the secretary to protect the public credit by the sale of government emergency paper.

It was scarcely necessary for Minister Dun to deny again the story that Japanese manufacturers are likely to compete injuriously with American made goods in our own country.

It is a fact that certain classes of goods are now being made in Japan, on the scales of American merchants, for export to the United States, but the very little danger that the amount of such manufacture will ever be considerable enough to excite alarm, should it become at all serious, however, a restrictive tariff can be placed on Japanese goods as well as on those from any other country.

Dr. Depew makes a good after-dinner speech, tells well a humorous story, and has delivered a number of addresses that are marked by a certain state eloquence and dignity. But he can't write an epigram.

That is rugged, stilted and commonplace. Compare it with the famous message of Cyrus W. Field—or was it Samuel Finley Morse—who wrote that "hath God wrought it? There is majesty in these four words, dignity, and they are as simple as they are majestic. They leave something to the imagination. They speak to each reader according to his capacity of understanding.

THE WIFE OF SENATOR-ELECT FORAKER OF OHIO AND HER THREE DAUGHTERS ARE ENTHUSIASTS ON THE BICYCLE.

The wife of Senator-elect Foraker of Ohio and her three daughters are enthusiasts on the bicycle. They will take their wheels with them to Washington when the senatorial trial begins.

Miss Jane Stone, Philadelphia girl, has gone into the oil business in the newly discovered petroleum fields in Tennessee. She makes her own leases. It is her purpose to develop the oil fields she has contracted for 100,000 feet of lumber for her derricks.

Chicago Tribune: The system of nature gives each bird its own habitat and a variable quantity of moonlight at night, obtained by reflection from the sun. Silver has about the same relation to gold as the currency of the civilized part of the world.

Chicago Journal: The plea is sometimes put forward that it is no worse for these silver mine owners to want to sell to the government than it is for the gold mine owners; that the government is bound just as much to take care of one class as it is of the other. But there is no obligation on the part of the government to take care of either.

Chicago Tribune: Now that McKinley's relation to the St. Louis convention has become a "sine qua non" it is coupled with "cum qua" bill. "Globe-Democrat": The Bland boom appears to be principally remarkable for its lack of spreading capacity. In other words, it has not yet succeeded in extending itself beyond the limits of Missouri.

Washington Dispatch to the Chicago Record: Senator Platt thinks that the action of the Chicago convention on the money question will be very close and may depend upon the sixteen votes from Nebraska. There will be contesting delegations from that state, and a national committee which makes up the roll, will undoubtedly recognize the "regulars," who are led by Secretary Morton and Euclid Martin, instead of the 16-10-10 Mr. Horace Boies and his Representative Bryan. Senator Hill counts Illinois for silver on the advice of Senator Palmer, who believes that Al grid will get the delegation.
