LOOKS ON FRANCE AS A FRIEND.

Spain Counts on the Moral and Physical Support of Her Neighbor.

MADRID, Spain (Via Bayonne, France), June 3.)-(New York World Cablegram-Special Telegram.)-Among the reasons that have couraged the Spaniards to look to France for assistance in the fact that in every stage of their difficulties with the United States and Cuba in the last seventeen months the French press has shown them more sympathy than the press of any other European nation. The Spaniards argue that, even if France and Spain had not so many common interests in Morocco, in Mediterranean questions and in Egypt, their financial and commercial con-nections alone would justify a close under-standing. Three-quarters of all the shares and bonds of Spanish issues are in the hands of French capitalists, who also have invested several hundred millions of dollars in Spanish public works, gas and electric in Spanish public works, gas and electric companies, mines, wine growing estates and municipal loans. Last, but not least, French investors hold about \$40,000,000 of the Spanish 4 per cent debt, and about the same amount of Cuban bonds.

French bankers advanced last year

\$10,000,000 to the Spanish government for the Cuban treasury, and since then they have made further advances on Cuban bonds for war expenses. The same partisan syndicates of bankers sent to Madrid last month reprementatives, who obtained from the Spanish government a promise that it will get a bill through the Cortes at this session for the relief of the railway companies, understand-ing that in return the said bankers will help Spain in raising all the money required to go on with the war in Cuba and to consolthe Spanish floating debt, amounting to

Besides the financial connection, Spain has a considerable commercial connection with France, as 40 per cent of the total imports into this kingdom come from France, and about 36 per cent of the total exports go to

The Spaniards believe that France must assist them some day because her West India colonies, her interests in the Panama canal schemes and her trade with Cuba and Porto Rico, which has suffered much already from Rico, which has surered much already from competition with America, will make her desire to check American interference in Cu-ban affairs. The Spaniards say that the French government and French statesmen must be alive to the rerious consequences for French interests in Spain, which would fol-low the loss of Cuba and the effect of such a loss on Spanish finance and trade and do-They think France and mestic policies. Russia would be in better position to make their influence felt in favor of Spain than Germany, Austria and Italy would, however the royal families and the governments of the triple alliance may sympathize with the queen regent and the Spanish monarchy in the hour of its peril, if the prestige and popularity of Spain's present institutions were shaken by the loss of the colonies.

Until the present crisis awakened Spain to a sense of her isolated position it had been the constant hab't of her statesmen, with the exception of the republicans, to say that her best policy was to remain aloof from European conflicts and complications with which she had no concern and nothing to gain in being made a tool of dual or triple alliances Foremost among the Spanish statesmen who advance the neutrality and isolation policy for Spain was Senor Canovas himself. now he seems to persist in dissenting from the present sentiment of public opinion. will court no European alliance as long as he can keep up appearances of cordial relation with the United States, but he allows his ministerial papers, like the Epoca and the Nacional, to hint frequently that Spain may possibly obtain more than platonic sympathy from the great powers if the Monroe doctrine or American interference in Cuba becomes a menace to all nations having col-

Chinese Soldiers Take No Fancy to Imported Instructors. LONDON, June 3 .- A special dispatch from Shanghai says that the German officers who were sent to drill the Chinese army have been subjected for some time to indignities and outrages, the motive of which was to force them to resign. Recently two of the Germans were beaten by soldiers and now an officer named Krauss has been murdered by the bodyguard of Lin Kun Yah, the vicetoy of Nankin.

In consequence of these events it is added the entire German squadron in Chinese waters has been ordered to Nankin and it is believed that the Germans will withdraw the fifty officers now in the Chinese army and insist upon the payment of the whole

amount of their contract.

Another dispatch says that the Kausus rebels have defeated the Chinese general, Tung, with terrible slaughter and that the viceroy of Nankin has ordered the German drilled troops to assist in suppressing the

There is work already cut out for the new consul general. Thomas R. General Lee's personality has impressed favorably all who have met him today. The Americans are elated over his arrival. They feel cafer. It is believed that the first thing he will do will be to set on foot an inquiry into the question whether there is a war in Cuba or not.

President Cleveland's plan of pacifying Cuba, as developed in that dispatch, excites both hos-tility and ridicule. It is looked upon as a Yankee device to extend trade. La Discusion prints a humorous chit satirizing the pro-posal, in which Americans are represented as "Rev. Mr. Cocktail of New Babylon, Mass.," advising General Gomez to accept autonomy. LONDON, June 3 .- In the election in the Frome division of Somersetshire yesterday for a member of Parliament to succeed Viscount Weymouth, who, on the recent death of his father, the marquis of Bath, entered the House of Lords, J. E. Darlow, liberal, was the successful candidate, polling 5,062 votes to 4.763 for Alexander George Thynne, brother of the present marquis of Bath. At the last election, Mr. Darlow was defeated by 374 votes.

An election was also held yesterday in the Wicks Burghs for a successor in Parliament to Sir John Pender, liberal unionist, who recently resigned. T. C. Hedderwick, liberal, who was defeated by Sir John Pender at the general election by a majority of 24, was chosen by a majority of 1,054, a gain of 1,076 votes. The unionist candidate only polled 842 votes.

LONDON, June 3 .- (New York World Cadegram-Special Telegram.)-The extraordinary popularity of the prince of Wales was sufficiently shown today at Epsom Downs. The press dispatches will give you details, but no pen can adequately describe the scene. When Lord Rosebery's Ladas won the Derby two years ago there was a great domoratra-tion, but today it was the delirium of joy which greeted the prince's victory. Never-theless, it was undoubtedly a fortunate thing for his royal highness that the race was so hotly contested and won so narrowly, since, if St. Frusquin had been beaten by even a length or two, the criticism of many people would have declared the result to be due to Sir Leopold de Rothschild's loyalty or subserviency. It happened that two of the prince's victories with Florizel (the brother of today's winner) last year were due to the scratching of the favorite only just before he respective contests, in one instance Baron Hirsch purchasing the favorite with apparently that object in view. The Derby was last won by the prince of Wales with St. Thomas 108 years ago. There were eleven starters, as today, but the stakes then were only 935 guineas. Besides a purse of 6,000 sovereigns the prince is understood to have won a very large sum.

A long discussion ensured concerning the advisability and propriety, in view of the small attendance, of forming a permanent organization. Secretary Archer, whose letters were the means of bringing the delegates together, explained the steep which had led up to the convention. the steps which had led up to the convention. He could not explain why so few delegates had appeared, since he had received credentials from so many business organizations. The convention finally adopted the committen's report after amending it so so to make the amendment provisional instead of perma-nent, and the next convention will be held

December 1, provided a third of the members here represented sign a call therefor. The majority report of the tariff commit-tee was submitted. It simply declares in favor of taking the tariff question out of partican politics, and requests the provisional committee to investigate the subject and frame a bill for the accomplishing of that purpose, and to present the same at the next onvention of the association.

Charles H. Leonard of Grand Rapids of-fered a minority report in the nature of a bill for the establishment of a national tariff com-mission, whose members shall represent agricultural, commercial, manufacturing and lator organizations, who shall ascertain the difference between the labor and material corts of products in foreign countries and in the United States and make recommendations to congress as to schedules in proportion therewith. Mr. Leonard argued that his bill was a fair compromise between free trade and protection. The other delegates, how-ever, unanimously opposed having the present convention declare itself on any measure to be presented to congress and the minority report was voted down and the majority report adopted.

The committee on consular service recom-

mended in general terms the placing of the service in the hands of men having knowledge of business and international law, their com-pensation to be based on amounts of exports from the United States to the several countries as well as the amounts therefrom. Plans for reciprocal development of South American trade were also argued. The committee on department of commerce, manufacture and trade recommended the establishment of such department by the government. After continuing the president and secretary in office until the December meeting the convention adjourned sine die.

A convention of silver men was held this afternoon in the Young Men's Christian association auditorium for the purpose of electing delegates to the St. Louis sliver convention next month. The engagement of the auditorium for the occasion proved to have been an entirely unnecessary precaution, as there were not over twenty delegates present. Mr. Henry T. Niles of Teledo briefly stated the object of the meeting and was made chairman. Judge E. D. ing and was made chairman. Stark of Cleveland, who, last year, was the pepulist candidate for supreme judge, was elected secretary. In the course of a somewhat lengthy speech, General A. J. Warner of Marietta gave a history of the movement for the independent silver convention. General Warner said that during the past General Warner said that during the past forty-eight hours he had been in conference with Senators Jones of Nevada, Jones of Arkansas, Morgan of Alabama, and others, and that all were agreed on the proposition that the issue must be fought out this year. It would be divulging no secret, General Warner said, to state whom they looked on as the coming candidate in the event of the democrats failing to come out for free silver. This man is Senator Henry M. Teller of Colorado. Mr. Teller was satisfactory to all of the silver men, with whom he had talked.

The following delegates-at-large to the St. Louis convention were elected: Benjamin Butterworth, Cincinnati; General A. J. War-

Butterworth, Chicimatt; General A. Gree-land; A. T. Niles, Toledo.

The committee was authorized to select thir!y-six other delegates to the St. Louis convention. There will be one from each district, and fifteen at large. The slim at-tendance today was explained by the fact of the strong probability that the democrats will declare for free coinage at the coming state convention.

by Commissioner Ragan, says:

It is not the province of the secretary of state to determine which of two rival state conventions of the same party is entitled to recognition as the regular convention.

2. Where two factions of a political party nominate candidates and certify such nomination to the secretary of state in due form of law, the latter will not inquire into the regularity of the convention held by either faction, but will certify to the several county elerks the names of the candidates nominated by each, such practice being in harmony with the rule which requires courts, in case of doubt, to adopt that construction which affords the citizen the greater liberty in casting his ballot. BLACKBURN FOR PRESIDENT

Kentucky Democratic Convention is All for-Free Coinage.

FIGHT FOR A SOLID SILVER DELEGATION

Ten Out of Eleven Districts Are for the White Metal and in the Other There is a Contest.

LEXINGTON, Ky., June 3.- The drift of the democratic state convention today has been to endorse Senator Blackburn for president and General P. Watt Hardin, the defeated candidate for governor, for his successor in the senate. The committee on credentials is ten to one for the 16 to 1 ratio. It was thought before the districts met that the gold standard men would get the Chicago delegates, and other representatives out of three districts, but the Louisville district is the only one of the eleven that the gold men controlled, and the committee on credentials is laboring all night on contests that may wrest the Fifth district from the gold mea and give a selid delegation to Chicago for free silver. The delegation is instructed to vote as a unit for Blackburn at Chicago, and Blackburn is sitting up all night taking part in the contests before the committee on credentials. Biackburn's conciliatory course was followed in the resolutions and the advice in the speeches of Blackburn and Hardin not to give one lots of their victory away is likely to be followed in the report on cre-dentials, in which event a bolt tomorrow is probable. The First and Second districts condemn Secretary Carlisle by name in their resolutions and all the districts except the Fifth condemn the national administration, but the committee and convention were more conservative. The convention attempted to prevent the Fifth district delegates from vot-ing till the report of the committee on credentials was adopted.

Colonel Hickey of Missouri, member of the Bland executive committee, has been confer-ring with Blackburn during the day, and it is stated the relations between them are not only pleasant, but also satisfactory. The features of the day were not so much the speeches of Blackburn and Hardin as the ovations that are tendered them in the hotels, convention hall, or wherever they appear. Hot fights are expected temerrow on credentials and resolutions. J. C. S. Blackburn, P. W. Hardin, W. T. Ell's and John S. Rea have been determined upon for delegates-at-large and W. K. Wheeler of Paducah for permanent chairman

DISTRICT DELEGATES. At the meeting of the delegates by congressional districts today two delegates and two alternates from each district to the national convention at Chicago were selected, as well as state committeemen, officers and members of the vari-ous convention committees. The following are the district delegates:

First District—Ollie M. James, Crittenden; Augustus Thomas, Frayes, Second—J. M. Dennis, Hopkinsville; E. P. Millett, Owenshoro.
Third—B. L. Perkins, Elkton; J. M. Richardson, Glasgow. Fourth-R. B. Lancaster, Lebanon; D. R.

Gilbert, Shelbyville, Ninth-George R. Vincent, Lawrence; George W. Bramlet, Carliele. Tenth-John E. Garner, Winchester; George

District electors: First, J. C. Flourney second, C. B. Bradford; third, Edward Drake; fourth, Augurtus Prown; fifth, Walter McKay; pixth, Harvey Meyers; seventh, W. Kimball; eighth, Lilard Carter; ninth, G. Ramsey; tenth, J. M. Webb; eleventh, Henry M. Buchamp.

me of the district conventions lasted until afternoon; some were delayed until after o'clock.

SILVER AT TEN TO ONE. During the noon recess members of committees met informally. First reports indicated much work for the committee on credentials, but as the committee stood ten to one for silver it was apparent the worl would soon be disposed of, as the gold standard men had only the Louisville member

on the committee on resolutions. The adoption of the platform agreed upon at the silver conference last night is assured Silver men control all the districts, excep the Fifth, in which Louisville is located In the Fifth district all receiving places were not only instructed for the gold standard, but each candidate was made to pledge himself before the district. Every elector was made to express himself. It was raining this afternoon as the delegates gathered in the park. The music was

It was after 2 o'clock when the chairman rapped for order. Hon, Charleo R. Long, chairman of the state democratic central and executive committee, selected last year when the gold standard men controlled the organization of the state convention and com-mittees, in calling the convention to order gave an interesting history of the Hardin-Bradley campaign and contest for the con-trol of the legislature, concluding as follows: "While I, with many other democrats, differ with you greatly on the money issue and regard it as the issue of supreme im-portance to our country, I, as a democrat, submit the issues and results to the party. The issue will be met by the democratic party in our national-convention, and if your position and views prevail end are approve until the ballot, my candid judgment is tha the supreme court is one in the case of you will be most grievously disappointed. John G. Carlisle stands for the American people to-day as one of our purest statesmen and patriotic public servants. He today embodies triotic public servants. When the speaker reached the part of his address referring to Mr. Cleveland there was a storm of hisses and the demonstration kept up so long tha few of the delegates heard anything of wha Chairman Long said about Caritale or the conclusion of his address. Chairman Long read his speech, and stated

him the next democratic president if our party could have and exercise that clearness

Chairman Long read his speech, and stated that he did so instead of epeaking extemporaneously, as has been his custom, because he wanted to be correctly understood at this crisis in the affairs of the party and of the nation. There was no applause up to this time or during the reading of the speech, and close attention was given to the address. There was a change of scene to one of continuous applause when Judge Rhea, the champion of free silver, presented the name of Senator Charles K. Bronston of Lexington for temporary chairman, and absolute silence prevailed when Bennett Young presented Judge Alexander Humphreys of Louisville on the part of the gold standard men for temporary chairman.

Rhea made a short, brilliant presentation of Branston's name, while Young made as
