SOUTH IS NOT SOLID FOR BRYAN. Most of the Intelligent Voters Are

for McKinley. Henry M. Morrow, chief clerk in the office of the county judge, returned yesterday morning from an extended visit with relatives in the south. Mr. Morrow has always been an old line democrat and was the only democrat in the court house outside of the office of the register of deeds, and it has been the custom of the attaches of the latter office to fly to Mr. Morrow for as it could be said. While they are for free consolation when they were worsted in a political argument. But all is changed now, Mr. Morrow has left the democratic party was indicated in his letter which was of the country. For instance Wyoming is published in The Bee about two a great sheep raising state and the policy weeks ago. He stated yesterday mornthe mail which carried dustry. the aforesaid letter to the recipient also bore his resignation as a member of the Jacksonian club, one of the principal demo-cratic organizations. To still further emphasize his determination to leave the old party forever today Mr. Morrow filled out an application for membership Young Men's Republican club and handed it to President Winter for presentation

In speaking of the sentiment through the as he had observed it, Mr. said that he had not been able to discover any indication that the people of the south were falling over one another in their efforts to elect Bryan. The greater part of Mr. Morrow's time was spent in Georgia, near Atlanta, and he had taken a number of trips neighboring cities. He said he talked with a large number of intelligent democrats and had found that they wer not favorable to the Chicago platform or the Bryan ticket, and many of them expressed their intention of voting for McKinley. Mr. Morrow also said that he was awar that the intelligent democrats were in the minority in Georgia and that Bryan would probably carry the state, but in his opinion such strawa showed that the sentiment was not entirely one-sided.

DEMCCRATS OUT FOR M'KINLEY

Ready to Join in to Push the Ohio Man's Candidacy. Although the republican headquarters are onstantly frequented by local republicans and some democrats, nothing new has de veloped in the political situation. The leaders are occupying themselves in perfecting the organization of the local clubs in order that they may be in a position to do efficient work when the campaign is actively begun. Local sign painters have contributed a couple of handsome portraits of McKinley and Hobart, which adorn the walls of the headquarters and attract considerable attention. They are not without genuine artistic merit. An effort is being made to take a strong delegation to Lincoln to the state league convention. It is expected that from 500 to 1,000 Omaha republicans will attend if a special train can be secured.

A movement is also on foot to organize McKinley club without reference to poli-tics. A number of the democratic leaders have visited the republican headquarters and they have urged the county central commit-tee to form such an organization. They say that while they do not want to join a re-publican club, that if the organization may simply be known as a McKinley club, they will join it. So many democrats have signi-fied their wish to affiliate with such au organization that one will probably be formed within a few days. It will be a continuation of the McKinley club that was formed before the St. Louis convention, of which Major D. H. Wheeler is chairman

FIXING THE CAUSE OF A TERRIBLE WRECK

Atlantic City Horror Believed to Have Been Caused by an Effort to Run on Full Schedule Time.

ATLANTIC CITY, N. J., Aug. 1 .- Confusion exists here regarding the exact number of persons killed in the accident of Thursday night. Forty bodies have been identified and four unidentified, but relatives and friends of about four others who were known to have been on the excursion have is that they are among these unidentified and that the relatives and friends have been unable to recognize them because of their mutilated condition. This would place the total killed at forty-four.

The body of Thomas Kelly of Elmer, N. J., was identified today. Several of the injured are still lying in a critical condition at the sanitarium. Mrs. Faunce Fralinger of Philadelphia, whose right leg was amputated were many inquiries as to the operation of yesterday afternoon, is still very low and there is no hope of her recovery. A young woman about 19 years old who has been lying senseless at the hospital since the acci-dent recovered consciousness for a few mo-ments this morning, but is too ill to admit of questioning as to her identity. There is a strong probability that she is Miss Lizzle Branin of Millville, N. J., who was known to have been on the excursion train, but

to have been on the excursion train, but has not since been heard from.

There is much perplexity here over the dispatch from Millville to the effect that S. P. Murphy, who has been numbered among the dead from the time of the accident, is alive and well at his home. bility for the accident rests upon the dead engineer, Edwin Farr. There is no dispute that the signal to come ahead was given to the West Jersey excursion train, and if so the danger signal must necessarily be given to the Reading track by an automatic arrangement. The signals then became locked and cannot be released until both trains campaign which are vital to the prosperity have cleared the point. Before the signals are manipulated the red signal is constantly displayed on both tracks, judicating to all ongineers that they must slow up on ap-proaching the crossing. The theory is that Farr did not slow up and could not do so in time when he saw the West Jersey train approaching. It is said that Farr had been laid off for

two weeks not long ago for not making good time and it is supposed that he was trying to make up for his lost time by running at a high rate of speed.

HE SENDS IT FREE.

Physician's Prescription for Cure of Weakness in Men.

When a man has suffered for many years with a weakness that blights his life and robs him of all that really makes life worth living; when after years of doctoring with all sorts of patent medicines and alleged specialists, he discovers a remedy that brings back to him the power and physical energy that seemed to him lost forever, he naturally feels generous. He wants his fellow men to know about it. He feels that his mission on earth is to lift out of bondage the thousands of young and middle-aged men who are today battling with a shattered nervous sys-tem, just as he did; men who, by their own

The world has come to look at such sufferers in a different light from former days. It now regards them as unfortunate, not criminal. They have lacked moral courage, They may be victims of inherited passion, or they may have acquired secret habita from evil associates. But whatever may have been the incentive that causes a man to degrade his being and isolate himself from society, he needs a friend. He needs the right hand of fellowship and good cheer. It is wrong to denounce him for his folly, and it is equally useless to give him advice. He must have the hungry man's bread, not a stone, offered him. This is why I send the prescription that made me a man among men free to any one who writes for it. I know the aversion that suffering men have to the least semblance of pub licity, and I therefore send the prescription securely scaled in a plain envelope without marks to show where it came from. T sands of men have written me to say glad they were to get the prescription, and every mail brings encouraging report of severe cases of physical debility cured and emaciated parts restored to natural strength

FREMONT, Aug. 1 .- (Special.)-No cley has been obtained to Bill Meanor, who left here suddenly yesterday evening with a horse belonging to A. C. Jensen and a buggy the owner of which cannot be ascertained About two months ago his wife left, taking with her their two children. He later caused her arrest for adultery, but did no appear on the hearing and the case was dis-nissed. Last evening he drove up to the back side of the Miller-Loomis block, where his wife was staying, got the two children into the buggy and started east on Military avenue. Yesterday afternoon he collected some money, not yet due, from a party here appeared much excited and said he must have more money that day. Meanor bore a tough reputation here. He figured exten-sively in court in both criminal and civi cases and owed every one who would trus him. He came here from Missouri and is thought to have headed in that direction

CHADRON, Neb., Aug. 1.—(Special.)—It appears today that Thomas Wilson, Jack Bright and Bert Alguire, who yesterday pleaded guilty to grand larceny, in connec tion with robbing the hardware store of Robert McNair at Crawford, took occasion on their trip to this city to stop at the house of a well-to-do farmer and finding no one at home went through the house taking most of the articles of jewelry to the value of about \$30. The stolen goods were all recovered and as Judge W. H. Westove will hold a special term here on August for the purpose of sentencing the prisoner, who pleaded guilty to the former offense t is probable no complaint will be mad against the prisoners on the house-breaking

WASHINGTON, D. C., July 27.—My Dear Governor: Your very kind invitation was duly received and it would give me great pleasure to be with you on the occasion of the celebration at Lincoln, Neb., August 26. I must say, however, that my official duties occupy almost my entire time, and as other engagements have already been made that I am not at liberty to disregard, I do not see how it will be possible for me to be in Lincoln at the time referred to.

I appreciate very much the honor of your invitation and wish to return my sincere thanks for the same.

Wishing you and the veterans a most enjoyable celebration, I remain with great respect, very sincerely yours,
