CONVENTION OF THE DOCTORS

Faith in Fills is to Be Demonstrated Catisfactorily.

FIRST SESSION WILL OPEN THIS MORNING

Followers of the Principles of the Homespathle School Are to Hold Their Annual Meeting in Omnha This Week.

If physicians can be looked upon as pre-Wenters of disease as well as curers, the mass of people who will be in the city dur ing the coming week need have little fear of sickness. There will be enough doc tors in Omaha to grapple with any microbe or germ that lives, even if its dame is a yard long and so bidly "pied" as to dislolate the jaw of any ordinary mortal that tackles it.

These physicians are coming to attend the third annual session of the Missouri Valley Homeopathic association. Many of them came yesterday in order to be here for the opening of the session this morning at 10 o'clock. The meetings will continue on Wednesday and will close Thursday night, when an adjournment will be taken for another year.

It is anticipated that there will be about 300 doctors in attendance. Many will come from Iowa and Nebraska because of the low rates that are offered state fair visitors by the railroads. Many are coming, however, from more distant points. A big delegation is expected from Chicago, St. Joseph Louis, Kansas City, Minneapolis, Paul, Denver and other prominent cities it this section of the country which will in all probability be well represented. This big attendance will be in great measure due to the efforts of the committee on arrangements, the members of which have not been slow in advertising the festivities of state fair week and advising the physicians of their faith to drop their routine work for a week and come on to Omaha to have a good time. This committee is composed of the following physicians: D. A. Foote, chairman; W. H. Hanchett, R. W. Connell, D. S. Wood, J. E. Mann of Omaha, and A. P. Hanchett and P. J.
