HARD CONTEST FOR THE SCHOOL BOARD

William Moore and Jacob Sims Are Receiving Much Outside Support -Australian Ballot Will Not Be Used.

The indications are that one of the hardest fought school elections in the recent history of the city will occur tomorrow. There are so many antagonistic interests involved that S. Davis have put up in the past two weeks on Main etreet some of the most attractive signs to be seen about town.

Many of the democrats are opposing their party nominees, and an even greater number of republicans will do the same thing. There a fight of large proportions has resulted. of republicans will do the same thing. It the democrats should elect both of their men they will still be one short of a majority in the board, and consequently unable to make any change in the school superintendency, and if one republican and one democrat are elected, they will be still further away from power. The withdrawal of A. Whitelaw, nominated by the democrats, made it necessary for the party leaders to get some other strong man, and they naturally turned to William Moore, who consented to make the race only after the most persistent urging. He served one term with honor to himself and credit to his party and got all the experience he wanted. party and got all the experience he wanted. No amount of urging could induce him to consent to take the vacant place on his party ticket until his former colleague, W. H. Thomas, joined in the request. His reluctance to run will not give him his full party strength, but this weakness will be more than compensated by the sid he will receive from republicans who have selected as their candidates, Moore and Jacob Sims, the second republican candidate. republican candidate. They freely predict their choice of candidates indicates the result the election.

There is no just reason why Dr. Snyder, the other republican candidate, should be slaugh-tered, for he has made an excellent, though somewhat aggressive member of the board. His attitude on several matters connected with the public schools will cause a number favor of the Woodman Linecod Oil company of democrats to vote for him, and his friends of Omaha against Herman Herwig and Mrs. Amelia Berney. Admissible Evidence. Joseph Buck, arrested as the chief of ender in the raid upon the motor company's property in the driving park, was discharged and exonerated in Justice Vien's court yesterday. The result was accomplished partly by the application of a somewhat novel theory, and chiefly by the fact that the evidence submitted by the state was confined to the confession of Stamey and Bates, the two boys first arrested. Iowa criminal law does not recognize the confessions of criminals implicating each other as being good evidence, and it is only admissible where it is corroborated by other testimony. The novel theory was evolved attorney employed by Buck. He moved for the discharge of his client upon the grounds that the information was deective and that the crime charged agains by the criminal code. His theory was that the stolen trolley wire was not personal property, but realty, which could not be stolen. It was not on the earth where could be picked up and carried away, but was attached to poles planted in the grou and this made the property realty. The court, however, held that if it was realty while suspended in the air the would have to show that they had wings or used a balloon in cutting it down and carrying it away without permitting it to touch the earth, for when it came into contact with the earth it became personal property. To tear it down constituted

cious mischief; to carry it away after it was down made it larceny. The theory of the attorney helped to increase the weak-ness of the state's case, and the wide variance of the stories told by the boys lef the court no other course than to discharge the prisoner.

Special Entertainment. Social features have been very scarce in Council Bluffs society during the week. The deadening influence of Lent was felt even before it made its advent. There have only been the customary club meetings and balls, the former scattered throughout the week and the latter chiefly confined to the

first days. The most successful concert of the season was given at the Congregational church last Tuesday evening to a large and appreciative audience. The chorus in eighteenth century audience. The chorus in eighteenth century costume numbered fifty voices, showing the excellent training given them by Mrs. George M. Durkee in the rendition of five numbers of the program. After the chorus "Strike Ye Cymbals," "ye lettle menne and womenne"—Babe Reed, Lucia Railsback, Florence Otis, Russell Nichols, Charlie Wellman and Lloyd Simmons—with graceful courtesies and stately bows, sang the quaint plause. Heading off the Measles. Special Health Officer McCrary, appointed on Friday evening to look after the numerous victims of the measles from the Pierce Street school, put in the entire day yesterday making a house to house canvass. He is re-ported to have found a number of cases that had not been reported, as the law requires, but the report made to the mayor was not made public last evening. The prospects for a serious epidemic were not quite so good yesterday, only four new cases being reported, against eleven on the previous day. The belief, however, is prevalent that but few children in that portion of the city, who have not had the disease, will escape it, for it has been most thoroughly scattered.

Serious Results Sometimes Follow Its Excessive Use.

Common roda is all right in its place and adispensable in the kitchen and for cooking and washing purposes, but it was never intended for a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover, the soda only gives temporary relef and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it accumulated in the intestines, causing death by inflamma-

Dr. Harlandson recommends as the safest and surest cure for cour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Suart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, peptones and di-gostive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.
Dr. Wuerth states that he invariably uses

Stuart's Dyspepsia Ttablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite, increase flesh and strength-en the action of the heart and liver. They are not a cathartic, but intended only for stomach disease and weakness, and will be found reliable in any stomach trouble except cancer of the stomach.
