WHAT IS THE GRIP?

5

This Mysterious and Terrible Disease Carefully Analyzed and Described-What to Do When it Comes.

Nearly every physician, every scientist and every sufferer has been asking this great question: What is the Grip? What-ever it may be, it is certain that it is something within the body which is fighting with the body to undermine the life.

What would comomn sense dictate in such an emergency? Counteract the enemy, Drive it from the system. Do not triffe with II. Act promptly and wisely at the first approach, which you can readily detect. Take something which can counteract their deadly influence. Spirits of some kind are the best thing to take, and whiskey is pre-ferable to any other kind of spirits; but it ferable to any other kind of spirits; but it should be borne very carefully in mind that only pure whiskey will have the effect, and it should also be remembered that Duffy's pure mall whiskey stands at the head of all proparations, and it is the only medicinal whiskey upon the market. Scientists have assoried this, the doctors have verified it, and millions of people have proven it beyond a doubt. There are many unscrupulous dealers who will assure you that any whiskey will answer the purpose, but they are wrong and are trying to deceive you. In case of grip you cannot afford to take only valuable whiskey upon the market.
