FEATURE OF THE MEMORIAL EXERCISES

Eloquent Address to the People Who Went to Fairview Cemetery Keenly Relished by the Old Veterans.

There was no scarcity of flowers nor lack of people in the observance of Memorial day yesterday. The crispy freshness of the air was enjoyed by the people, and the climb to the summits of Fairview and Walnut Hill cemeteries was made without enervating fatigue. The services were marked by the absence of all forms of display and ostentation. But for the presence of McFadden's drum corps and of hundreds of fluttering flags there would have been nothing but the presence of the unusual number of people in the cemeteries to make a distincover the Burlington for a ten days' visit in tion between the national memorial services and an ordinary Sabbath funeral.

Army and members of the Union Veteran Legion were carried out fully. The Grand Army men formed in their hall on Pearl street and marched to Fairview, headed by the post flags and the drum corps. Judge smith found his inspiration in a remark made by an old soldier a few days ago, who de clared that pairiotism was dead and that this country could never again muster another such army to defend it as responded to the demands of the rebellion. Judge Smith insisted that patriotism is not dead. His elequence carried the veterans of their feet. It had been decided that there should be no applause and no demonstration of any charac er, but as the speaker's eloquent sentence fell from his lips the clapping of hands led to outbursts of applause that the Sabbath winds carried far down toward the city. At the conclusion Judge Smith was given a round of applause led by the veterans Mrs. M. G. Kimball's address in behalf of the Woman's Relief corps was prepared with evident care and was interesting. While the sermon at Broadway church yesterday morning was not a memorial ser-mon, it will probably be a memorable one to those who had the pleasure of hearing it. The pastor, J. H. Senseny, took his text from Romans viii, 26: "Likewise the Spirit also helpeth our infirmities; for we know not what we should pray for, as we ought; but the Spirit itself maketh intercession for with groanings which cannot be uttered. The principal theme of the sermon was prayer assisted by the Holy Spirit. The speaker described human nature in all its forms, picking it apart as a mathematican would a difficult problem and explaining each part separately. "Cut your hearts loose and let them gain what they seek" was the earnest appeal to the audience. "The natural desire of the heart is to be free from sin. but the animal passions of our natures hamper its progress; but 'the Spirit also helpeth our infirmities, and maketh intercession for us with groanings which cannot be uttered.' Christians generally fall far short of gaining the position the Divine Will has made it possible for them to occup The world never will be saved till we have

a higher type of Christianity in It." There are only a few, said Dr. Senseny, who seem to understand at all what the Divine Will intended and on these few rest only memorial feature of the services was the anthem rendered by the choir.

It is the intention to have an exhibit from the Black Hills in the mines and mining building, and each town will do its part toward making an appropriate display. The chairman of the meeting here was Mayor Jenkins and Jos Sentt was secretary. J. P. Hymer of Dead-wood, commissioner for the Black Hills, was present and addressed the meeting, setting forth the advantages which would scorue to this section as a result of a suitable ex-position of the rich resources of the Black Hills country. Other addresses favorable to the project were made by Mayor Jenkins, Judge W. A. Rinehart, H. P. Lorey, E. May, S. R. Smith and others. The idea presented was that Lead should be represented by a minature stamp mill, insenuch as this city is the seat of the biggest stamp mills in the United States, belonging to the Homestake Mining company. This suggestion was well received and such an exhibit will be a feature of the Black Hills display, as Lead people never do anything by halves, and every effort will be made by the men having the matter in charge to make this part of the display a complete success. An executive committee, composed of the following, was selected: S. R. Smith, chairman; W. A. rehart, R. H. Driscoll, H. P. Lorsy, P. A. Gushurst. At the time of her death she had \$600 in Pennington county bonds and about \$3,000 in cash. This she turned over for safe keeping to an old Irish woman, her nurse, whom the man Savage afterwards married for the money, it is said. He proceeded to poison the old lady in the same way that he did the first, but his plans were suspected and he was given a dose of his own medicine, which killed him. She was tried for murder, but was acquitted. She has since died. Recently among papers belong-ing to the deceased have been found the Pennington county bonds and the \$3,000 cash. The republicans generally concede that good progress has been made, but they are not inclined to felicitate them-selves too much until they see what policy is to be pursued when opentions of more general interest are reached than have yet been broached. The sugar schedule in all probability, will excite more prolonged and ani-mated debate than any other in the bill. The democrats are making very extensive preparations for the discussion of this schedule and several set speeches will be made upon it. The indications are that various other questions of general interest will be considered in connection with the sugar

Senator Pettigrew is contemplating presenting his amendment against trusts in this connection, and it is certain that the Hawaiian question will come to the front in an amendment providing for a continu-ance of the reciprocity treaty with the Hawailan islands. With reference to the Hawailan treaty there is no longer much om for doubt that provision will be made to continue the present treaty in effect is probable that this will be done by a declaration that nothing in the bill shall be construed as abrogating the treaty. The republican members of the committee are con templating this change. If Senator Petti grew insists upon offering the trust amendment to the schedule he will precipitate one of the most interesting debates of the sexsion. The republicins are not yet decided whether they will caucus on the sugar schedule, but there is more or less talk to this effect

There are two schedules to be considered after the conclusion of that under present discussion before the sugar schedule can be reached. These are the metal and wood schedules. The metal schedule is not espe-cially objectionable to the democrats, conaining, as ir does, many of the Wilson law rates, but it is more or less complicated and will necessarily consume time.
