Missouri Board of Transportation Decides a Railroad Rate Case.

Arthur Cont Mining Company of Panamn Wins Its Case Against the Missouri Pacific Railroad Company.

LINCOLN, June 7 .- (Special.)-The Board of Transportation of the state of Missouri has rendered a decision in the coal rate case brought by the Arthur Coal Mining company of Panama, Mo., against the Missourl Pacific Railroad company. This is the same case that has been tried before the Nebraska State Board of Transportation, the decision of which is still pending. In both this state and Missouri the railroad company denied the jurisdiction of the board to hear and determine the case, setting up the claim that it related to interstate commerce. The decision of the Missouri board is that it has jurisdiction, and the order is made that the railroad company make the reduction asked for, or in other words ship the mine run coal at mine run rates. A copy of the decision was received at the office of the Nebraska board today, and it is probable that a similar decision will be rendered here the near future, as the cause of the delay has been that the board was waiting for the Missouri board to take action. We have to witness day after day scenes of horror which no language can describe, and yet no voice can be lifted to protest against them. To Spain we cannot apply for succor. It is well acquainted with the present condition of affairs in Cuba, and so far not a farthing has come to us from there, and yet we have sent our money freely whenever the Spanish people have been in want and distress.

But what are we to expect from Spain when its worthy representative here, General Weyler, indifferent, cold and deaf to our misery, coolly says that his mission in Cuba is not to look after the starving population, but simply to end the war according

suffer in Silence.

In any other country this state of affairs would have caused disturbances and riots, yet our people, suffering as they are, have not done anything that could in any way disturb. Can there be a better illustration of their peaceable disposition?

Tender, loving mothers of America, to you in particular we appeal in our humane undertaking. Send us the mighty aid of your motherly co-operation, enlist in our crusade against crime and barbarity and the blessing of thousands will rise to heaven as a fit hymn in your praise. Think that at your very doors there are mothers who love as dearly as you love and who day after day see their little ones berish in our streets out of sheer hunger, and in most cases without a piece of rag to cover their nakedness.

As for us, we cannot do our work openly. We have to beg for food for the hungry and clothing for the raked, concealing ourselves and our names as if we were doing something wrong, and we therefore suggest that if any relief is to come it should be entrusted to the American consuls for distribution, and we would also suggest that the sending of help in the way of provisions or clothing has its inconveniences, as it might give the officials an opportunity to interfere and thwart the object in view. THREE FRIENDS GOES SCOT FREE No Evidence, Says Judge Locke, Found to Prove Charges.

JACKSONVILLE, Fla., June 7 .- In the United States court Judge Locke today handed down a decision in the case of the steamer Three Friends, charged with violating the neutrality laws by carrying a filibustering expedition to Cuba, and also as an armed vessel, dismissing the libel forfeiture. In giving the decision Judge Locke

'The care in examining the evidence in this case falls to find any testimony showing that the vessel was fitted out and armed within the limits of the United States. It does not show that it was loaded with arms and ammunition within fifteen or twenty miles of the shore. Charges that the vessel took on additional arms or ammunition on the sland of Navassa, which is American soil were not confirmed by the testimony, shows that the vessel touched there for short time, but it does not show that it did of this country."

QUARTER OF A MILLION IN WANT. People Gathered in Cuban Towns Under Military Guard.

CHICAGO, June 7 .- The Tribune's special correspondence, dated Havana, June 2, says: Spain holds the rural population of Cuba as prisoners of war in prison camps. Unlike any other nation which lays claim to be civilized, it does not feed its prisoners of war. There is no means of learning the exact number of the reconcentrados. An American consul, who has made a careful study, says it is more than 250,000. A Spanish officer told me there were more than 150,000 of "those starving country people." The best opinion places the number between 190,000 and 200,000. In not all the place are they hemmed in by ditches and barb wire fences, as at Campo Florido, but they are everywhere under military guard.
