### GRIGSBY WANTS TO KNOW

Fouth Dakota's Attorney General Doubts that There is a Shortage.

WANTS TO LOOK UP MATTER FOR HIMSELF

Will Proceed by Law If He Finds One to Exist... Will Not Bring Suit to Recover for Insurance Companies.

SIOUX FAULS, S. D., Sept. 14 .- (Special: - Attorney General Grigsby left last night for Plerre to look up the report of Public Examiner Taylor, in which he declares that a shortage exists in the accounts of Auditor Maybew and ex-Auditor Hippie. The attorney general said tonight that he had been instructed by Governor Lee to begin an action against these officers to recover the amount of the alleged shortage, but that be would not do so until he had first examined the books and accounts himself. "I do not take any stock in the reported shortage," said he. "I know Mr. Hippie and I do no believe it will be found that he has failed to turn into the treasury any money which properly belongs to the state. The public examiner would not intentionally misrepre-sent the facts, but it would be quite an easy matter to be mistaken, and I do not propose to use my official position for any other pur pose than that for which I was elected. Nor do I intend to institute any suits in the name of the state and at the expense of the state to recover money for insurance companies. If these companies have been overcharged their own stiorneys can bring suit. It is not the business of the attorney general to collect civil claims for private parties, nor for corporations. What I may do in this matter will depend entirely on what my in-

#### RANGE STOCK IS DOING WELL. Heavy Shipments Have Already Been

Commenced from Chamberlain. CHAMBERLAIN, S. D., Sep., 14.—(Special, The hottest weather that has ever prevailed in this section at this season of the year since it has been settled by whites has been experienced during the latter part of August and thus far this month. With the exception of a very few days the thermometer ranged from 100 to 104 in the shade, during the heat of the day, for over two weeks.

Range stock is taking on flesh more rapidly than at any time this season, due to the fact that the grass is richer and mornutritions when cured than while green. A trainload of stock belonging to Masingale & Ross, and the Rake outfit, has already been shipped from this point, and at this writing 590 head of cattle belonging to James Phillips, manager of the Minnesota and Dakota Cattle company, are on the way to Chamber-lain for shipment. Several other large stock-men on upper Bad river are at present en-gaged in rounding up their beef cattle, and expect to ship from Chamberlain in the near future.

#### HEAVY SHIPMENTS OF CATTLE

Many Trains Leave Several of the Black Hills Towns Each Day. RAPID CITY, S. D., Sept. 14.-(Special) The cattle shipments from the Black Hills ranges have been unusually heavy during the past week. For ten days past seven trains a day have left Belle Fourche and an equal number from Brennan and Oeirich on the Elkhorn. Each train is made up of ten cars down as far as Chadron, where the trains are doubled up and one engine pulls from twenty to twenty-five cars into market. Each car contains from twenty to thirty fat steers, each of which will bring from \$50 to \$65 in Chicago and Omaha. Each car carries stock valued at from \$1,000 to \$2,000. The largest shipment recorded this meason was from the southern hills. Seventeen trains of twenty-two cars each passed a given point at Edgement in fourteen hours. Roughly estimating, \$560,000 worth of stock was transported to the eastern market.

#### BOY FOUND STURDERED IN A CAR

Companion Under Arrest Charges with the Killing. FARGO, N. D., Sept. 14 .- A boy 17 years old was murdered west of this city last night. It is thought to be the work of tramps. His body was found in a car with a bullet hole the abdomen. Walter Douglass, who says he was his partner, states that an unknown man committed the crime and made his escape Douglass states that the murdered boy's name is John Quinn and that his home is San Francisco, where his relatives are well to-do. The story of Douglass is 'hardly credited, and he has been arrested, charged with the crime. The surroundings of the murder show signs of a struggle. There are eight or nine bullet holes in the car, and a many reports form a gun had been heard by neighbors around the place.

#### STILL HAS HOPES OF WINNING Attorney for Commission Discusse

Judge Carland's Decision. HURON, S. D., Sept. 14 - (Special.)-Referring to the decision of Judge Carland in the South Dakota railway commission case, Hon. Thomas H. Null of this city, one of the attorneys for the commission, says: "The ruling of Judge Carland on the application for temporary injunction simply means that the matters involved shall remain as they are until a regular trial can be had. The decision so far is in nowise as intimation of what the court will do when the case is reached on its merits. In fact the commission is as confident as ever and will proceed with the fight." By this it would seem that no special session of the legislature will be necessary to provide for enforcing the new rallway law.

Eastern Buyers After Pointoes. HURON, S. D., Sept. 14 .- (Special.)-Rain here and over most of the state Sunday night and Monday closed the longest and most severe heated term ever experienced in this section in September. Corn is quite ripe and much of it is in shock. The potato crop is being harvested and is of excellent quality

and much larger than at first supposed. Eastern buyers are here to contract all they Many Applicants for Office. SIOUX FALLS, S. D., Sept. 14 - (Special.

-The Crow Creek Indian agency is coveted by three good republicans, and the assistant United States attorneyship is another position that is much sought after. About every tion that is much sought after. About every town in the state is represented in the list of applicants for this place. The office of surveyor general is being sought by the west side of the river, and is likely to go

New Church at Plankinton. PLANKINTON, S. D., Sept. 14.—(Special.) The contract has been let for the construction of a new Catholic church here. The main portion of the structure will be 32x60 feet. The building will be elaborately finished, and, when completed, will be one of the best church edifices in Aurora county.

TO CURE A COLD IN ONE DAY Take Laxative Bromo Quinine Tableta. All druggists refund the money if it falls to cure. 25c.

Returning from the West.

Tom Lowry, the great street railway magnate of Minneapolis, accompanied by C. Morrison, also of Minneapolis, passed through the city yesterday in their private car. They were enroute homeward from a trip to Colorado Springs. Mr. Lowry was accompanied on the western trip by his daughter, Mrs. Theodore Haggermann, who has been visiting her parents in Minneapolis during the summer.

Disagreement Between Barbers. teenth street, and Frank Armantola, a rival tensorial artist who conducts an establishment about a block way, got into a dispute last night over the volume of business transacted by their respective places. Fists and shampoo bottles were being freely shaken in each other's faces, when the police arrived and placed them both under arrest for disturbing the peace.

KOUNTZE HEARS FROM SABINE PASS Nothing Authentic from

Night's Hurricane. In speaking of the severe storm that swept over Port Arthor and Sabine Pass, Tex., last Sunday night, Herman Kountze, pres ident of the First National bank in this city, and the leading representative of the banking firm that is largely interested in the building of a new guif port at Sabine Pass, yes-terday said: "I received a telegram from our manager a' Sabine Pass last night, statng that the storm had blown down a number of lightly built houses there and that it was reported there that three men had been drowned. Na further information has been

"I do not know positively whether any lives were lost at Sabine Pass or not. Until I re-ceive some more definite news I prefer not to give out any telegrams for publication."

#### Participation of the property South Omaha News.

Carrier Breeze Control Control Control Preparations are being made for a red-hot meeting of the Eastside Improvement club at Behmke's hall, Twentieth and Missouri avenue, Friday night of this week. The the recommendations of the mayor into effect principal topic of discussion will be better street car facilities. It is understood that the officers of the club have a number of letters from capitalists asking for information about the electric car lins which it is proposed to build. One wealthy Omaha man offers to put \$15,000 into the scheme provided the franchise which is to be asked for at the fall election is secured. Members at the fall election is secured. Such as of the club are quietly working among the oters and are daily receiving much enouragement.

It has been suggested that the electric This been suggested that the electric street car plant at Heatrice be purchased. This plant is tied up in litigation and has not been in use for some time. Interested parties think that this plant could be bought for a reasonable price, and if so, the line could be placed in operation in a short time after the fractolism as a grant of the fractories. after the franchise was granted. Quite a number of land owners south of this city between here and Bellevue are becoming interested in the proposed line, and a number have offered to take stock in the enterprise. In case the franchise here is granted the plan is to build a line to tap Believue and Fort Crook.

Yard Master Restons. C. B. Tungate, night yardmaster at the Union stock yards, resigned Monday night on account of a lack of harmony between the department over which he presided and the new management. Mr. Tungate has been with the railroad department of the stock yards company for a number of years and is considered a first-class railroad man. On account of Tungate throwing up his job the yards were blocked for several hours, all out-going trains, including the fast meat train, being from two to five hours late. The tracks were blocked with incoming stock trains and it was well slong in the forenoon before the yards were cleared. The stock yards company refused to accept Mr. Tun-gate's resignation and is dickering with him in hopes that he will reconsider and return Since July 1 quite a number of the older employes of the company have resigned on account of the policy of the new manage-

Think the Vinduct Dangerous. Protests are being made by the citizens ere against the running of street cars across the Sixteenth street viaduct since that structure has been condemned. It is claimed that the bridge shakes and trembles every time a car crosses it, especially is this no-ticeable if the cars are heavily loaded. The people here, or some of them at least, seem to think that during the fair week when the trains are crowded the Thirteenth street route should be used in order to avoid possible accidents during the time when traffic will

be the heaviest. May Order Track Fenced. Mayor Ensor stated last night that he would today order the stock yards company to fence in the new track just built by the Cudahy Packing company. The mayor said that he had received a number of complaints from people who use the streets over that way, and he considered the unprotected track dangerous, as it runs through deep cut for a considerable distance. The track, the mayor says, is not in use and he therefore considers it a nuisance the way it is.

Mayor Pardons Prisoners. Yesterday afternoon two banana peddlers vere tried in police court for selling without license. Judge Christmann heard the testimony and sentenced the peddlers to ten days in the county jail. An effort was made by the attorney for the peddlers to have the the judge accept an appeal bond, but Christ-mann refused. Then the attorney told the troubles of his clients to the mayor, and that official pardoned the prisoners before they had been taken to the county jail.

There are people in Millard unkind enough to say that Boyer never intended to commit suicide, but that the whole thing was a hiuff on the girl. They believe that Boyer simply pretended to be dead the second time.

#### CITY COUNCIL PROCEEDINGS

Two Reports Are Submitted from Finance Committee on Prospective Deficit.

MEMBERS VOTE IN FAVOR OF ECONOMY

Fire Fund Will Receive Some Relief, but Other Departments Must Get Along with Money on Hand.

The city council held an old-fashioned session last night at which the oratorical acompaniment that has been largely dispensed with of late was again in evidence.

Mayor Moores called the attention of the ouncil to the fact that ordinance licensing nickel-in-the-slot machines was contrary to law. He recommended that the ordinance be repealed and the fees that had been paid be returned. The message was referred and later in the session an ordinance carrying was introduced by Bechel and referred to the committee on judiclary.

There were two reports from the finance committee on the matter of prospective deficits in the municipal funds. The majority report, which was signed by Burkley and Lobeck, after briefly stating the situation, recommended that no large bills be included in the next appropriation ordinance, but that the balance in the general fund be reserved for salaries with the exception of a trans fer of \$5,000 to the fire fund. It recom mended a rigid economy in each depart-ment and the passage of the resolution lim-iting the expenses of the Board of Public Works, which was introduced at the previous

The minority report, which represented the sentiments of Stuht and City Attorney Connell, dealt with the situation with more excess of detail, but recommended no definite measures of economy

ECONOMY IS IMPERATIVE. This report was to the effect that a city partment which expended three-fourths its annual levy during the first six months of the year must expect to appeal to the city for aid in the last six months, which cannot be given without a direct violation of the charter and making the members of the city council liable for the action. It said that an investigation into the amount of money which might be available to the general fund from interest on certain mone belonging to the city had shown that i was yet impossible to determine the exact amount to be so derived, but that enough was learned that the fire fund would receive little benefit. It suggested that a warrant might be drawn on the general fund for the relief of the fire fund, and the city treasurer realize the money on this warrant. It admitted that this action would be evading the intent of the law, but asserted that some thing radical must be done or the city would be left without proper fire protection. In calling atention to the large amount of money spent on the fire department, attention is called to the fact that the insurance companies had not made the reduction in insurance premiums which had been prom-ised, and suggested that the insurance companies might help out the fire fund or re duce these premiums. It closes with the statement that it is imperative that a vigorous reduction must be made in the expenses of all departments of the city government. Burkley criticised the minority report for laying the blame on the fire department which largely belonged to the council. He quoted figures to show that the fire depart-ment had expended less money than during the corresponding period of last year, and stated that it was specifically provided when the annual levy was made that 2 mills should be transferred from the general to the fire fund. Stuht declared that any transfer of funds was illegal and the fact that it had been done by previous councils would not excuse it in this case. The minority report was adopted. Ayes—Becnel, Karr, Mercer Mount, Stuht, 5. Noes—Burkley, Burmeister

Lobeck, President Bingham, 4.

The mayor's notice of the receipt of an invitation to attend the meeting of mayors and councilmen at Columbus. O., was referred to the judiclary committee. The communication of Police Judge Gor-don relative to his salary, which has been previously published, was received and re-ferred to the judiciary committee.

PREPARE FOR BOLLN TRIAL. A resolution by Burkley directed Deputy Comptroller Wettling and Chief Clerk Fead of the treasurer's office to render such servces to the legal department as might b necessary in view of the approaching trial of the case of the city against the Bolln ondsmen, and authorized the comptroller temporarily fill Mr. Wettling's position

A. L. Schaeffer, whose appointment as engineer in the city hall was turned down at a previous meeting, was again appointed by Custodian Sedgwick. This time Mercer changed his vote and the appointment was confirmed. Ayes—Burkley, Lobeck, Mercer, Mount, Stuht—5. Nays—Bechel, Burmeister, Karr President Bingham—4. Stuht took the financial difficulty by the

horns by introducing a resolution which directed the city attorney to prepare ordi nances abolishing the offices of gas inspector special agent and custodian of the city hall.

It was referred to the judiciary committee.

On a committee recommendation the ordinance ordering the construction of a viaduct over the Burlington tracks at Twenty-fourti street was placed on file. On recommendation of the committee or olice Lobeck's wine-room ordinance

laced on file. Burkley and Lobeck voted A resolution directing the committee or ublic property and buildings to have the lection booths put in shape for the revision f registration brought before the council one

f the undesirable features of the new char ter. Stuht declared that this was a county election in which the city was in no way in erested. It would cost a conside abl amount to repair the booths and place them in position and this the county should be ompelled to pay EUGITY DOESN'T COUNT. City Attorney Connell agreed with Stuht

as the equities of the case were con corned, but stated that under the law the expense must be paid from the general fund of the city. The resolution was referred to the judiciary committee and the city at-

The same controversy was repeated on Bingham's resolution that the registrars of election be appointed at the next regular neeting. This was adopted after a vigorous Stuht was designated as a committee to see the Board of County Commissioners with a view to inducing it to consent to a

division of the expense.

An ordinance providing for the submission of a proposition to vote \$75,000 in sewer funds and \$25,000 in intersection bonds at the coming election was introduced by

Bechel and referred. Just before adjournment Mercer asked to be excused for a week, but the council re-fused to grant his request. He then moved that the vote by which A. L. Schaeffer was confirmed be reconsidered by way of getting even and this led to a lively encounter in which Lobeck, Stuht and Mercer partie pated. The motion to reconsider was passed by a valo of 5 to 4 with Mercer's assistance, but the council finally decided to put an end to personalities by adourning and the Schaeffer appointment was left on the clerk's desk without action.

Daneing Party and Social. The Young Ladies' Pleasure club gave dance and entertainment at Patterson hall last evening, which filled the hall with a crowd of merrymakers. A program of eighteen dances, prefaced by several vocal selections and concluded with refresaments, were the features of the evening. Miss Lizzie McEneary acted as master of coremonies, and was ably assisted by a reception committee composed of Misses Jennie Post, Nettie Gibson, Carrie Anderson and Moria McEneary.
