Manager Kenyon's Oversight in Railroad Building May Be Remedied.

ARMOUR SITE WILL BE REACHED BY RAIL

Manager Holdrege Likely to Settle the Controversy Between the Burlington and the Union Stock Yards Rallway Company.

Railroad officials in this city have been discussing a rather novel piece of railroading for the last few days. The building of something more than a mile of railroad in South Omaha, which for a time looked as though it would have no connection with the ratiroad world or other outlet, was the unusual incident that furnished the subject matter for some lively discussions among the railroad fraternity.

It appears that the Union Stock Yards company has been engaged for several months past in building a line of railroad FRIDAY-At 2:30 a. m. for NEWFOUND- from the Armour site to a point on the B. LAND, per S. S. Corean from Philadel- & M. line near Thirty-sixth and L. streets.

> I think the matter will be fixed up in a day or two, however. I should not be sur-prised to see General Freight Agent Miller patch matters up. He made four trips out here just before Mr. Kenyon's appointment and will probably settle this dispute." eral Freight Agent Crosby of the B. & M. said he knew nothing about the matter except what he read in The Bee. On general principles, however, he thought a man should see the finish of a line before he started to build it.

General Manager Holdrege of the B. & M. returned from a western trip Wednesday and yesterday announced that the matter would be settled by allowing the connection to be made. In speaking of the matter to a Bee reporter, he said: "So far as I know there has been no trouble over this line. There has been no meeting or conference on the matter. We shall meet the stock yards' representatives at an early date, and I do not doubt but that satisfactory arrangements for the connection can be made. The line appears to be a good one for both comand I presume considerable business can be handled over it."

## TO EXHIBIT NEBRASKA FLOWERS.

Florists Discuss Outlook for State Horticultural Display. About a dozen of the florists of Omaha, together with the officers of the Douglas County Horticultural society, met in the rooms of the Board of Park Commissioners in the city hall last night to discuss the matter of a Douglas county floral exhibit at

the Transmississippi Exposition.
President Adams of the Horticultural society occupied the chair, and an informal dis-cussion of the matter now under consideration occupied the time for about two hours. President Marshall and Vice President Had-kinson of the Nebraska Horticultural society were present and took part in the discus-sion. It was the concensus of opinion that a creditable floral display should be made by the Nebraska florists at the exposition, especially in view of the fact that the National Society of Florists would hold its annual meeting in Omaha during the exposition. It was also stated that the only florists in the state who are so situated as to be able to make any kind of a display are located

in Omaha.

After discussing the best manner of bringing about a fine floral exhibit it was decided to appoint a committee or three to prepare of the Burlington make a run out here to an estimate of the amount of space which will be required for a good exhibit, together with the probability of having this space filled in a creditable manner, the committee being instructed to report to an adjourned meeting to be held at the same place Satur day night of this week. It was also decided that when the amount of space and other details are determined the Nebraska Exposition commission would be asked to set aside a portion of the state appropriation for the purpose of securing space and providing for ther expenses for the exhibit. The matter will be laid before the state commission at

ts meeting Monday of next week. Before adjourning the chairman appointed as this committee Messrs. Erfling, Henderson and A. Peterson.
