husband, had told several of the neighbors that she intended to run away from home. The state protested with much earnestness against the admission of such evidence and the court after listening to the arguments of the lawyers said he did not think he could permit such testimony to go in. The defense felt this badly, as Attorney Vincent in the heat of his statement had said that without such evidence as he had just alluded to his client might be hanged. He fought with desperate energy for the admission of the testimony and finally Judge Tuthill said he would permit the introduction of evidence relating to conversations with Mrs. Luetgert held a week prior to her disappearance, but he said the testimony must be absolutely direct and unquestioned.

An amusing feature of the parade was the appearance of three gentlemen whose limbs plainly showed that they had been subjected to some very succ. saful process of clongation. Either their legs had been pulled out of all reasonable proportion to their bodies or else they were mounted on the tallest stilts seen in Omaha since the day of Barnum's circus. These freaks or clowns were dressed as policemen, but they were not arrested for impersonating officers. They strode along in great shape and pleased everyone, not ex-cepting the genus of the spectator, known as "the American youth."

His head could not help being turned. He was driven by a darkey attired in summer apparel, who had considerable difficulty to handling a pair of balky

mulcs. The excellent band of the Twenty-second regiment of United States infantry, with twenty-five men under Prof. Emil Reich-hardt, followed "His Royal Nibs," and bethe ambassadors and foreign ministers accredited to the court of Ak-Sar-Ben III. The gargeous apparel of the ministers, glittering with gold lace and tinsel, shone respiendent under the glitter of the thousands of lights, while the military trappings of the courters, who wore the uniforms of the various regiments of his majesty's troops, added a fitting setting to the scene. Following the ministers and courtiers were the members of the royal household, including the various dred people who lingered around the Court preparing the royal garments and making ready the feast. The butcher, the baker and the candlestick maker rubbed against the king's jester and his father confessor, while the tailor and equery cracked jokes at the expense of the cook. This part of the line was a most attractive feature, and the horsemen made a fine showing.

INSTRUMENTS OF TORTURE The third float was the Moorish temple, gorgeous example of Moorish architecture, surmounted by a dome. Within the temple was a set of silver chimes which played was illuminated with fairy lamps when the was evidenced by the willingners with which it awaited the coming of the parade. "Jonah and the Whale Under the Roentger Rays" was the fitle of the next float, and this one excited the cheers and yells of delight of the admiring thousands all along the line of march. A giant leviathan of the deep was depicted as large as life. Its liuge black head, reared high in the air above the crowd, spouted water in all directions, giving many light from the Roentgen apparatus the inter-nal apparatus of the monster of the deep was might be passed. plainly seen and Jonah was revealed to all. The prophet seemed to be enjoying himself histely. The whale's stomach was a roomy receptacle and Jonah was seen seated at a amail table opening several cold bottles. He was all alone, but that did not seem to worry him, as he opened bottle after bottle and guiped down its foaming contents, apparently unconscious of the fact that he was the center of thousands of envious eyes whose owners had no cold bettles handy.

HOLD HIGH REVEL The last three floats in the parade were the nost magnificent and gorgeous in the line. They presented the royal colors of the court of Ak-Sar-Ben, the red, the green and the yellow, each color being typified by a sep-arate float. All three were thickly studded with electric lights of their respective colors and the combination presented a brilliant

spectacle as it passed beneath the fairy maze of street illumination. The first float of the three furnished a glimpse of the merry court of King Ak-Sar-Ben, showing the gorgeous surroundings and the devil-may-care life of "Samson's revei-lers." The entire float was a mass of red light, with just enough of yellow and green to lend variety. The main piece was an elegant pavillon, all affame in red, in which a band of jesters and court roustabouts in fantastic costumes held high revel. Their tinseled dress sparkied and glittered in the

FAIR A BIG SUCCESS

Eanner Wednesday in the History of Nebraska State Fair.

ATTENDANCE REACHES HIGH WATER MARK

Finest of Weather and a Good Show Draws Large Crowd.

NEBRASKANS SPEND A DAY SEEING SIGHTS

Close to 30,000 Pass Through the Gates at the Grounds.

OUT-OF-TOWN PEOPLE BY THE THOUSANDS

Visitors Gaze in Wonder and Astone Ishment Upon the Specimens of Products that Bring Wealth to the State.

The first two days of the State fair showed decided increase over the attendance of provious years, and yesterday it was the same story, but more of it. It was a most satisfactory crowd for Wednezday, and notwithstanding the fact that no special admissions were issued, as on the day before, upward of 30,000 people were on the grounds in the afternoon, and the crowd was suggestive of the biggest day of last year. The people were a little late in arriving, but they finally got there, and they enjoyed such a day of sightseeing as could only be possible on a perfect autumn day in Nebraska. With so a clear sky and floods of golden sunshine, 81 with a breeze just brisk enough to temper the heat without raising the dust and with the biggest exposition that the west has 70 ever produced, lying outspread on the broadly stretching slopes of the fair grounds the 73 officers saw the gates swing open in the morn-

and while the crowd was big enough to give the grounds the animated appearance that makes half the pleasure of sightseeing, the buildings were not so uncomfortably crowded but that the exhibits could be seen without

material discomfort. BIG CROWD IN AFTERNOON.

The railroads brought in immense numbers of out-of-town visitors yesterday and early in the afternoon they began to pour into the grounds by thousands. The avenues were seen almost choked with pedestrians and the buildings were jammed from end to end with visitors. During the forenoon the management had rows of stakes driven between the buildings, thus shutting off all hind it came a large troop of horsemen, being and this afforded a much appreciated relies

of the royal household, including the various dreft people who lingered around the Court artisans who were charged with the duty of Honor to hear the morning program of concert music rendered by the McCook band, the crowd occupied itself most industriously in seeing everything that was to be seen hefore the big afternoon crowd made it a task rather than a pleasure.

The fact that the great majority of the visitors do not put in an appearance until afternoon is a source of wonder to those who are on the grounds all the week. Nothing could be more enjoyable than the early forenoon on the fair grounds, with none of the attendant inconveniences of dust and crowds and heat, but, nevertheless, only a small proportion of the people seem to take advantage of the more favorable conditions, and year after year the bulk of the crowd comes surging and crowding over the

grounds between 11 and 2 o'clock.

Reports received from the various gates
by Secretary Furnas indicate that when The Bee estimated the crowd at ; 25,000 people Tuesday it scored a bullseye. Exactly \$7,525 was taken in yesterday in general admissions, which indicates that 15,050 people paid their way into the grounds. It was estimated that very nearly 10,000 free admissions were granted, so the previous estimate of the crowd is very nearly accurate. This showing was very satisfactory to the management, as Tuesday is generally denominated as "dead head day" and the receipts are never expected to be anywhere in proportion to the attendance. There were about 1,500 more paid admissuccess or failure of the fair from &
