

FUTURE OF UNION PACIFIC

Interest Surrounding the Road as the Date of Sale Approaches.

SPECULATION AS TO THE PURCHASERS

General Opinion Among Railway Men that Reorganization Committee Will Take in the "Overland" System—Thurston's Views.

The approaching sale of the Union Pacific railway, its probable purchasers and the likelihood of some changes in the present management are the topics most discussed by local and other railroaders today.

Every railroad man is making his own guess on the future of the Union Pacific, and the excitement and small betting over the election of the president of the reorganized company in local railway circles are not unlike that preceding the election of a president of the United States.

FUTURE OF KANSAS PACIFIC

A query that has agitated railway circles for some time is the future of the Kansas Pacific railroad, the Union Pacific's nearest rival in Kansas.

The men who take this stand in their predictions say that the Vanderbilts will be the United States' choice in connection with their other railroad interests.

THURSTON GIVES HIS VIEWS

President of the Vanderbilts take the Union Pacific for their share, it is thought to be an assured fact that the Gould interests will take in the Kansas Pacific.

CONTRACTS FOR EIGHT BUILDINGS.

Armour Gives Out the Brick and Stone Work.

Rochester General Contractors Co. yesterday awarded the contract for the brick and stone work on eight of the buildings to be erected for Armour & Co. at South Omaha.

For some time past Superintendent Simpson has been figuring with contractors on this work and until yesterday afternoon that the matter was settled and the contracts signed.

The brick and stone work on the buildings are included in the contract. Best house, beef cooler, hog house, hog hanging house, hog cooler, oleo house, tank house and fertilizer building.

Superintendent Simpson declined to discuss the amounts involved, but said that the contract was a very large one. Above a stone foundation the walls and partitions are to be of brick, finished in a substantial manner.

The number of brick to be used in these buildings is not stated, but one contractor who did some figuring on the work said that it would be about 1,000,000 bricks.

Plans for Armour & Co.'s house in this city, which is to be erected at Thirtieth and Jones streets, have not arrived yet, but are expected in a few days.

When Superintendent Simpson was in Chicago last week the blue prints for this structure were being prepared. Work on the house is to be commenced on the house as soon as the plans arrive.

Grading operations continue active at the Armour building site in Omaha, and it is thought that A. A. Raymond, who has the contract for driving 4,000 piles, will get to work by Saturday at the latest.

WILL PICK CORN ELECTION DAY.

Populists Who Will Not Lend Themselves to Fusion.

OMAHA, Oct. 7.—To the Editor of The Bee: If our republican friends would only keep their feet mouths shut and their pens quiet they would stand a better chance of electing their many-broed candidate.

The Nebraska Independent, the chief oracle of fusion in Nebraska, delivered the following in its issue of September 20:

The man who will stay away from the polls on election day and pick corn is not much of a patriot.

He is of little value to his party or country. He is the sort of man that it is necessary to draft in time of war.

The writer of the above has probably been born since we have had war in this country. He is a democrat of that date who would not repeat the folly in 1907.

The writer of this letter will "pick corn on election day. When he enlisted no man ever had a better heart for his state. He left a wife and a child and five times as much income as the government promised him.

That he is alive today to resent the claim officers for the war closed his statement. It reads as though it came from the pen of a democrat of thirty-five years ago.

While we were soldiers we obeyed orders and saw many of our comrades go down to death because they obeyed the orders of some chief officer.

When the war closed I took up our mangled and our right to use our own judgment, and do not admit the claim officers for the war closed his statement. It reads as though it came from the pen of a democrat of thirty-five years ago.

In another place I have said the people's party has no objection for sundry judges, and to be forced to vote for a man not with so much as one foot in the party, we will not. Is that plain?

This is a good time to place to quote from a democratic paper published in Omaha. It has the same ring in it as the quotation from the Independent. You will find it on page 4 of the World-Herald of November 18, 1902.

When it was known that Cleveland had been elected that paper delivered itself as follows: "The man who will stay away from the polls on election day and pick corn is not much of a patriot."

The tremendous sum (\$185,000,000) would in itself be enough to run a reasonable government. It would not complain if it were an honest debt, but a large proportion is not a debt, because it was never earned by any act of patriotism, nor heroic service.

The government is held up and despoiled of no mean portion of this, and it seems helpless to defend itself. One cannot help being curious to know how many more years it will take to exhaust the generation which feels itself injured by the war.

It is safe to say that never did a generation display such remarkable longevity. The paper of Lincoln has taken lessons from older men and would, no doubt, be glad if the old soldier would lie down and die, but he will not do so.

We will get it good time, but it will be better for our country if we live long enough to kill fusion and help to free our country of political bosses.

The paper of Lincoln has taken lessons from older men and would, no doubt, be glad if the old soldier would lie down and die, but he will not do so.

No one has ever accused the Independent of being a populist paper. Its whole policy has been to build up democratic ideas, which are well known, but a large proportion is not a debt
