TRUCKS ARE AT WORK AGAIN

Long and Short Man Attempt to Rob N. S. Jensen.

T.K. HIS KEYS AND SEVENTY-FIVE CENTS

Two Women Attacked Near Bayliss Park by the Attempt to Steal Their Diamond News of a Sunday.

Those two ubiquitous thugs, the long and the short man, have come to town again and have resumed their occupation of holding up people whom they encounter on the streets under favorable circumstances. N. S. Jensen came to the police station yesterday morning and notified the officers that they met him while on his way home at 9:30 o'clock on Saturday night and robbed him of all the money he had on his person at the time. Jensen is an employe of John Henn & Co., and at the hour stated was walking rapidly along on South Sixth street, between Eleventh and Twelfth avenues. He was in the middle of the block where the street lights were obscured by the foliage of the trees and was not aware of the presence of anyone until a rough but strong hand gripped his coat. In an instant he was thrown on his back, and a sidewalk walk. It was the long man that had hold of him. While he was lying prone on the brick pavement the short man came up and held one of his hands while he robbed Jensen of his pockets with the other. They had only found 75 cents and a bunch of keys when the short man turned and fled. The hand on Jensen's throat was removed and he was permitted to rise. He did so and made a pretty little shout that greatly amazed the things.

"You sounded it, I'll about you!" he cried, as he put his hand to his hip pocket in a threatening manner.

"You won't touch my money," the long man replied. "Do you think you would fool me so as to get you up if you had a few cents?"

As the short man approached the men bade him to stand up, and the long man, who was on the left, snatched a good thing, restored his keys and left. Jensen gave the police an excellent description of the men, but without daylight to come upon and impart the information.

Mr. M. Jackson of Sioux City, who is visiting her parents here, Mr. and Mrs. T. Rice, at 129 Fourth street, relates a somewhat exciting experience she and her sister had on Friday afternoon at the night while returning to their home.

She had been visiting friends and was near the southeast corner of Bayliss park, returning from the home of Mr. and Mrs. J. G. Wadsworth, a tall man stepped from behind the tree and seized Miss Rice by the throat with a grip sufficiently strong to prevent her from making an outcry.

She was seized from behind and her arms were held fast to her sides. She was then released and she fled. She was then released and she fled. She was then released and she fled.

NEW BALLOT IN NEBRASKA

Recent Changes in the Election Law Will Require Further Explanation.

ONE CROSS FOR STRAIGHT PARTY TICKET

Each Party's Candidate Will Be in Separate Columns, Headed by the Emblem of the Organization.

The blanket ballot, which has been in use for some years in Iowa and other states, but which has never before been placed before the voters of Nebraska, will be a novel feature of the coming election. The amendment to the election law, which provides for this form of ballot, was passed by the legislature. It was urged as a means of simplifying voting, and it was asserted that it would not only be a material assistance to the illiterate voter, but would also make it possible for voters to occupy less time in the booths for the reason that they could vote three tickets with a single cross if they were so disposed.

While the merits of the new plan can be more accurately estimated after it has received a practical test, it is certain that, like any novelty, it must be thoroughly understood by the voters before they can use it satisfactorily.

The scheme involves some radical changes from the old system, and it is barely likely that the voters are familiar to the mass of the voters. During the remainder of the campaign an effort will be made by the speakers of all the political parties to explain the merits of the new ballot. County Clerk Redfield has agreed that as soon as the ballots are received from the various parties he will have several hundred sample ballots printed and distributed among the various campaign committees to be used in practical object lessons by the party workers.

SIX COLUMNS WIDE. The ballots that will be used in the election will be of white paper, as under the old law, and will contain the names of all the candidates of the various parties for state and county offices. The fusion party, the Board of Education will be named on a separate ballot, which will be furnished by the several authorities. As there are no separate ballots for the county and city officers to go on the ballots this fall, they will be of moderate size, as compared with the large sheets that will be required on an election like that of last fall, which ballot will be six columns wide, the columns containing respectively the names of republican, democratic, protem, national democrat, silver republican and union candidates. The candidates for supreme judge and regents will head the tickets, and county officers will follow.

The ballots will be similar in all the voting districts of the county down to the county commissioner, which will only appear on the ticket for voting in the district of the Fourth and Seventh wards. The candidates for assessor will be different in each ward and the names of the candidates for precinct officers will be printed only on the ballot for that precinct.

This policy is necessary on account of the confusion that would follow an attempt to print the names of all the minor candidates on one ballot, which would probably result in the printing of many unnecessary names.

REPUBLICAN SHOULD BE FIRST. There is one provision of the law that is creating considerable difficulty in the minds of the voters, and that is the requirement that the republican ticket should be printed first on the ballot.

The size of the ballot that will be required has not been definitely determined, but it is expected that it will be about 24 by 36 inches. In other words, each ballot will be twenty-four inches long and ten feet from eighteen inches in width. These figures are based on the assumption that the voters will be required to fold them into the boxes, and it will require some time to unfold them for the count, but it is asserted that enough time will be given for the voters to straighten them to offset these inconveniences.

ACQUITTED OF TRAIN ROBBERY. Jury Passes on John F. Kennedy and Says He's Innocent.

KANSAS CITY, Mo., Oct. 17.—John F. Kennedy, who has been on trial in the criminal court for the past week, charged with being the leader of the Chicago and Alton passenger train robbery at Blue Cut, in December last, was acquitted today. Nine verdicts were taken. The first resulted eight to four for acquittal. The verdict was reached at 11:29 last night, but was not delivered to Judge Wofford till 10:30 this morning.

The spot where the robbery was made was made famous by the James and Younger boys, it being the scene of many a hold-up engineered by them. Blue Cut is about nine miles east of the city of Chicago.

Kennedy is under indictment for participation in the Alton robbery that occurred on October 23 last, also at Blue Cut, but the evidence against him in this case will not be presented again. During the present trial there were persistent rumors of jury fixing, which, however, were denied strenuously by the defense.

President Winter Appeals to Members of the State Republican League.

The following resolution of the Republican club has been issued by President Winter of the state league:

To the Nebraska State League of Republican Clubs: In the State of Nebraska the Nebraska League of Republican Clubs is the only organization of its kind.

To that end it is necessary that a complete roster of the republican clubs in the state be had. During the last year this work was vigorously prosecuted.

A special reason exists for the consummation of this work, in that the lists of the clubs are necessary to enable the executive committee of the league to do its duty in the most efficient manner.

The National League of Republican Clubs in Ohio and other eastern states the league has been secured for the purpose of receiving valuable aid in the party work.

The importance of the present campaign cannot be overestimated. The republican party is looking to Nebraska republicans to withstand and surmount the fusion party.

Interest Manifested in Coming Voting Contest to Determine the Policies of the Party.

It is a gratifying feature of the work of the party that the interest in the coming winter carnival is so to be chosen by the popular vote of the people.

Under such conditions the league in this state must do its full duty. It must rise to the occasion and meet the challenge of the day.

ONE MORE VICTIM.

The Fearful Increase of Disaster from Small Beginnings.

A prominent gentleman of Brooklyn returned from his vacation feeling in perfect health. As a result he was careless. The next thing was a cold, then pneumonia, then death. Nearly all physical troubles start with a cold, and this is just the season when it is most easily taken.

There are many ways of attempting to stop a cold, but all physicians now agree that there is only one sure way and that is by the use of pure stimulants. The pores must be opened, the circulation aroused and vigor awakened. Nothing is known to the world does this so certainly as Duffy's Pure Malt Whisky. It is a remedy, not a beverage. It has been used for years, and is the most popular remedy before the public.
