

THE OMAHA DAILY BEE.

R. ROSEWATER, Editor. PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION: Daily (except Sunday), One Year, \$10.00; Six Months, \$6.00; Three Months, \$3.50; Single Copies, 5 Cents.

OFFICES: Omaha: The Bee Building, 13th and 14th Sts. Chicago: 111 North Dearborn St.

ADVERTISING: All business letters and communications should be addressed to The Bee Publishing Company, Omaha, Neb.

STATEMENT OF CIRCULATION.

Table showing circulation statistics for the Omaha Daily Bee, including daily and weekly figures for various months.

Net total sales, \$17,167. Net daily average, \$1,073. Signed by R. Rosewater, Editor.

THE BEE ON TRAINS.

All railroad newsboys are supplied with enough Bees to accommodate every passenger who wants to read a newspaper.

INSIST ON HAVING THE BEE.

Omaha is still in the field for any and all 1898 national conventions that have not yet been definitely located.

Postmaster General Gary makes a powerful plea for the establishment of postal savings banks and his report should have great weight with congress.

Newspaper advertising has been likened to the drive wheel of a locomotive. The merchant who wants to make a go of his business will not neglect to advertise judiciously.

The Jacksonians are preparing to jolly one up more on the anniversary of Jackson day. When the Jacksonians have nothing to jolly over, they always find old Andrew convenient to fall back on.

It appears that the uncertainty of the gold democrats as to the proper course for them to pursue arises not so much from doubt as to their own position as from uncertainty as to the course of the other democrats.

This is the season when every minute available for out-of-door work counts. It is to be noted that the paving contractors have been losing no opportunity to push their operations.

One thing the Cox case is at last bringing out, and that is the shameful way in which the police were used last spring under the non-partisan reform police commission to promote the political fortunes of the popocratic candidate for mayor.

When it comes to listing franchises for taxation it must not be forgotten that the Council Bluffs motor line is occupying the streets of Omaha and that if the privilege is worth money to the company it ought also to have a taxable valuation.

A big snake kept in a Philadelphia museum gave a realistic exhibition of snake squeezing powers, with the result that the trick pony is dead and the snake keeper has several broken ribs.

The work of preparing to entertain next year's visitors is enough to keep every one who lives in Omaha busy until the gates open. Omaha is pre-eminently a city of homes, and the thousands of guests will come in response to invitations from friends or relatives living here.

The United States senators who visited Japan and China during the summer for the purpose of studying the coinage question in countries having had experience with free silver ought to be able to report intelligently on the reasons advanced in Japan for going to the gold standard and the excuses offered in China for the agitation in favor of abandoning the silver standard.

The public is duly apprised whenever a call is issued for outstanding warrants drawn against the state treasury, but it is kept in the dark as to the warrants which are not called for payment and the accumulation of funds in the treasury from which they should be paid.

Intending to make a point in opposition to the Transmississippi Exposition, the Keokuk Gate City says that "the coming legislature should be just to Iowa before it undertakes to be generous to Omaha."

In regard to maintaining an adequate amount of currency, after the withdrawal of the legal tender notes, for purposes of business, Mr. White suggests three means: Retaining the gold produced by our own mines, importing gold from abroad and the issue of na-

FOR POSTAL SAVINGS BANKS.

No portion of the report of Postmaster General Gary will be read with more general interest than that which relates to postal savings banks. The postmaster general, who is a man of practical affairs, has been giving this subject careful investigation and study and his conclusion is that a postal savings bank system can be established in the United States with great advantage to a large number of our people and benefit to the country.

These are the important features of Mr. White's plan of currency reform. They are in accord with what is known as the Baltimore plan, which had its day in congress and met with little favor there. There is no better promise now for any scheme of currency reform on the lines proposed by Mr. White.

The question whether the heads of departments can transfer officers or employes in the civil service from one position to another and remove them without cause has raised an issue which ought to be settled by the highest judicial tribunal as soon as practicable.

A NAVY MEANS PEACE.

Hon. Theodore Roosevelt, assistant secretary of the navy, is an ardent advocate of the policy of building up the navy. In an address delivered a few days ago, marked by his characteristic vigor of language, Mr. Roosevelt declared that we need a powerful fighting navy and that such a navy will not tend toward war, but toward peace.

There is a suggestion of jingoism in this, but it will have to be admitted that the reasoning is sound. Of course it may be said that as to the Monroe doctrine it is the contemtable attitude of those who bluster without being able to back up their words by deeds, we must prove that our attitude about the Monroe doctrine is not a sham.

While Omaha people have always boasted a willingness to bear every burden necessary to maintain the public school system at the highest standard of excellence, they ought never to be backward about learning from the experience of other cities how to effect either economy or improvement.

SOME SCHOOL STATISTICS.

While Omaha people have always boasted a willingness to bear every burden necessary to maintain the public school system at the highest standard of excellence, they ought never to be backward about learning from the experience of other cities how to effect either economy or improvement.

Table showing school statistics for Omaha, including enrollment, average cost, and other figures for various schools.

From this table it appears that while Omaha covers only a moderate area and has ample school buildings, the cost per pupil is by no means as favorable to this city as it ought to be.

A second table compiled by the Pioneer Press covers the average number of pupils to each school building and to each teacher as follows:

Table showing average number of pupils per teacher for various schools in Omaha.

According to this showing it appears that with one exception Omaha has fewer pupils to each school building and fewer pupils to each teacher than any other city with which it is compared.

The Arapahoe Indians in Wyoming are reported to have made such progress in mastering the English language that

the traders and agency employes now seldom have to speak the Arapahoe language, and an effort is being made to have the Indians discard the use of the Indian words and leave the interpreters with nothing to do.

The attention of readers of The Bee is called to a noticeable error of transcribing the Adams county vote in the table of Nebraska election returns published yesterday. With this error corrected the total vote of the state becomes 194,000.

Mrs. Marietta M. Bones of South Dakota, now living in Yankton county, is writing letters to the papers opposing extension of the suffrage to women, notwithstanding that she was for nine years annually elected vice president of the National Woman Suffrage association for South Dakota.

A CIVIL SERVICE ISSUE.

The fact that nearly twice as much sugar is manufactured from beets as from cane will be a surprise to many persons, but of the 7,837,000 tons of sugar made in the world last year 4,991,000 tons came from beets.

Governor Holcomb professes to believe that it is unlawful for the state treasurer to deposit school money in secured depository banks and that the treasurer is at liberty to farm out uninvested school funds to banks that are not secured by depository bonds.

There are any number of well-fixed capitalists and heavy property owners in Omaha who are daily receiving valuable returns from the exposition, but whose names are remarkable for their absence from the exposition stock subscription list.

When Omaha was a wide-open town the gambling dens had the decency at least to close up over Sunday. The automatic gambling machines are running every day and night in the week and in some resorts Sunday is their big day.

General Blanco's hint that only insane persons have any thought of the independence of Cuba may be taken as a sweeping indictment of the inefficiency of American insanity boards.

Sizing Up the Whitecaps.

Ohio whitecaps have taken to whipping and tarring pigs. The whitecap is a sneak and a coward, and the Ohio species seems to have a pretty fair knowledge of himself.

A Bartley Mystery.

Nebraska breathes easier to discover that ex-treasurer Bartley's shortage was only \$20,000. What a man who before going into office never handled more than \$25 at a time can do with such a large sum is a mystery.

Interstate Commerce Decisions.

Recent decisions of the United States supreme court have tended to curtail quite largely the power which the Interstate Commerce commission has attempted to arrogate to itself in imposing a tax on express companies.

Decision on Boycotting.

So far as peaceful results go the injunction granted by a federal court at St. Louis against the boycotting of a manufacturing concern by a labor union amounts to nothing.

Injunction Can Work Both Ways.

A case that should be of great interest to people everywhere, disclosing, as it does, new possibilities, has just been decided in the district court of Omaha.

COMMENT ON FOREIGN EVENTS.

Philadelphia Ledger: Secretary Chamberlain will please remember that the last time Englishmen fixed up a form of government for a foreign people was in 1875.

Chicago Tribune: Statistics show that there are credited to the United States September last 150,000 human beings have died of starvation and no other cause in the distressed island.

New York Mail and Express: Nothing but large amounts of saving common sense than she seems to possess can save Austria from civil strife as an outgrowth of the present wrangle in her parliamentary assembly.

Kansas City Star: Mr. Durrant is mistaken. It is not the state of Kansas that is the inferior system of justice in California.

Globe-Democrat: After a delay of more than two years and a half Theodore Durrant is now a victim of snap judgment.

MAIL PAGE OF JUSTICE.

Chicago Post: An original and remarkable experiment instituted by Colonel Waring, the independent and nonpartisan street-cleaning commissioner of New York, deserves the most sympathetic study on the part of organized labor and its friends.

Chicago Post: The proper investigation of complaints occupied too much time and interfered with the regular business of the department. Wishing to be just and to hear all sides of the men under his jurisdiction.

Chicago Post: In the ordinary course of events precipitated by the latest trick of the attorneys of Mr. Durrant the sentence of death, which has been pronounced upon the popular murderer, cannot be carried out before February or March.

PERSONAL AND OTHERWISE.

A precinct in Pittsburg turns up with more scratched tickets than any place in the state was accidentally locked up in the ballot-box.

When the late Alexander Dumas was asked if he ever gave anything to the poor he replied: "Oh, yes, when I come across a beggar, I give him a nickel."

A tramp entered the home of Banker A. L. Tracy in St. Joseph, Mo., during the absence of his family Thursday night.

English newspapers have devoted much attention to "Tad" Sloane, the American jockey, since he has begun winning races on the English turf.

The New York World claims that while there has been eleven fatal accidents in foot races since the beginning of the fall season, there has not been a single one in the same time in other sports.

Mr. Glaustone expects to spend part of the coming winter in Cannes, where he will be the guest of Lord Rendel at Chateau Thoren.

The twenty-eighth annual report of the State Board of Health contains elaborate tables of vital statistics bearing upon the possible extinction of the New England stock, because of the preponderance of females and the failure of births to compensate for the excess of deaths.

PROOF OF BETTER TIMES.

Statistics Collected by the New York Labor Commissioner. In Indianapolis, Journal.

The commissioner of the bureau of labor statistics in New York has issued a preliminary report for 1897 which contains convincing evidence that the time is clearly past for the evidence relates to the number of workmen employed and unemployed at the beginning of the year and now.

So far as peaceful results go the injunction granted by a federal court at St. Louis against the boycotting of a manufacturing concern by a labor union amounts to nothing.

A case that should be of great interest to people everywhere, disclosing, as it does, new possibilities, has just been decided in the district court of Omaha.

The marked increase in the number of deaths of the natives in eight years has been 20.4, and of the foreigners 17.4 to the thousand.

Will the old Puritan stock which so largely peopled the west fall out here in New England under the same conditions change nothing can prevent such a result.

ARRANGEMENTS FOR THE TRANSFER OF THE PURCHASE PRICE.

A quarter of a century ago the government of Great Britain had occasion to pay to the government of the United States a bill of \$15,000,000. The State department of the two governments in those days, with the eminent financiers who were called in for aid and counsel, took great credit and deserved it for the fact that this sum was transferred without serious disturbance of the money market in either of the countries immediately concerned.

The total amount accruing to the government under the foreclosure is \$38,885,855. The first payment will be of 15 per cent on November 20; the next three, of 25 per cent each, on July 20, January 19 and July 19.

Chicago Post: An original and remarkable experiment instituted by Colonel Waring, the independent and nonpartisan street-cleaning commissioner of New York, deserves the most sympathetic study on the part of organized labor and its friends.

Chicago Post: The proper investigation of complaints occupied too much time and interfered with the regular business of the department. Wishing to be just and to hear all sides of the men under his jurisdiction.

Chicago Post: In the ordinary course of events precipitated by the latest trick of the attorneys of Mr. Durrant the sentence of death, which has been pronounced upon the popular murderer, cannot be carried out before February or March.

COURT OF EMPLOYES.
