The members of the board admitted that a grave mistake had been made by the secretary and his deputies, but they did not think any of the abstracts had been tampered with in a manner that would change any votes, and proceeded with the work under the impression that they were acting legally. Aside from the strong hint of Treasure: Meserve that the secretary of state and violated the statutes and was amenable for his actions the day was void of sensational features.

CURE FOR CATARRH.

Interesting Facts About the New Gauss Remedy.

Upsets the Time-Worn and Uscless Inhalations.

C. E. Gauss of Marshall, Mich., has pre-pared a new kind of catarrh cure that is meriting the attention of physicians and doing wonders in the way of curing catarrh.

It is in tablet form, dry and taken internally This plan of treating catarrh is somewhat different from the widely advertised inhalants, douches, snufflers and other remefor local application. It is claimed by all well-informed physi-

clans that caturrh means a disturbed bodily semperature, producing inflammation in the delicate nasal membranes, and becomes chronic as the result of a succession of colds. The only way to reduce this inflammation and restore the membranes to uverage bodily heat is to treat the nervous system con-troling bodily temperature. The success of Gauss Tablets is thus far so surprising that It a wonder the plan was not tried years ago. Physicians have all along contended that constitutional treatment was the only way to cure catarrh, but the absence of an exact apecific prevented practical demonstration of the theory. Now that the specific has been found considerable progress is reported in curing a disease which has heretofore resisted the best medical talent. Gauss Ca-tarrh Tublets are being placed with all firstclass druggists, who will fill pre-scriptions, or the tablets may be bought by the box at 50 cento. In case your druggist does not have them u box will be mailed direct, prepaid, on applica-tion to C. E. Gauss, Marshell, Mich., if the price is inclosed. He also sends a treatise on catarrh of the mucuous membranes of the ear, nose, throat, eye, stomach, bludder and
