Bolster Up Their Organ.

LIQUOR LICENSE NOTICES IN QUESTION

Mayor's Resolution for Exhibit o Newspaper Circulations Defeated by Reform Trio According to Prearranged Plot.

The nonpartisan reform members of the Board of Fire and Police Commissioners gave on example last night of partisanship for the furtherance of selfish ends and the payment of political debts. The partisanship of the board could not have been more apparent than when the question regarding the proper medium for the advertisement of liquor license notices for the coming year arose. It is the reading of the law that the advertisements shall be inserted in the paper having the largest circulation in the county. As a means of determining what paper was legally entitled to the notices and to prevent costly mistakes by the liquor dealers the following resolution was introduced by Mayor

Whereas, The law governing the sale of malt, spirituous and vinous liquors requires that each applicant for license to sell such liquors adventise in the paper of largest circulation in the county his notice of application for such license for a period of two weeks; and,

Whereas, For the last few years there has been much controversy between the different newspapers in this city as to which was the proper paper in which said notices were to be published, causing a great deal of annoyance and loss of time to the licenses board as well as to the applicants for licenses; therefore, be it Resolved, That for the purpose of ending such controversy and loss of time the different publishers of this county be invited by this board to furnish statements under oath of the circulation of each separate edition of their newspapers; said statements to be addressed to this board and delivered to the clerk no later than December 6, at 5 o'clock p. m.; said statements to cover only the actual paid circulation in Douglas county for a period of three months ending November 30, 1837; these statements to be given to the clerk of this board for the guidance of applicants.

This effort to deal with all in an invertigate.

This effort to deal with all in an impartial manner met with scant consideration at the hands of the reform board. It was at one evident that the majority had no intention of acting in the matter with any pretense of airness. In spite of the express words of the law that licenses shall appear in the paper of largest circulation the so-called nonpartisan acpointees of Governor Holcomb at declare the World-Herald to be entitled to the publication of these notices without any testimony whatever as to its circulation. Mayor Moores' resolution was voted down by Commissioners Herdman. Gregory and Peabody—Bullard being absent. The foreordained purpose of the board in suppressing fair play was emphasized in a resolution offered by Commissioner Herdman and affirmed by his two associates in the last previous vote, as follows:

lest previous vote, as follows:

Resolved, That liquor dealers are hereby advised that under the law they should publish their notices in the newspaper of largest circulation in Douglas county for two weeks and that these publications should be completed before the expiration of their present licenses, if possible.

Resolved, That this board will abide by and recognize the decision of the board made upon January 3, 1886, wherein, after an investigation, it was found that the dally World-Herald was the paper of largest circulation in Douglas county until the further order of this board.

Mayor Moores protested against accepting any circulation statement made two years

any circulation statement mails two years ago as holding good at present. The law, he said, contemplated the publication of no tices in the paper having the largest circulation at the time of publication and I made no difference whatever what might have been the circulation of any paper two Mayor Moores' vote, however, was the only one recorded against the Herd-

MERCHANDISE SLOT MACHINES. In regard to the inclusion of merchandine slot machines in the order for their general suppression the chief of police sub-mitted instructions which he had received from Mayor Moores. It had been generally felt that an injustice was done in abolish ing machines which were merely automatic wendors and in the operation of which the element of chance did not enter. The chief in his interpretation of the order issued previously, had included them in the gen eral abolition of the machines. The mayor's instructions made an exception in their regard and his view was upheld by the endorsement of the board. The mayor's order was addressed to Hon. C. V. Gallagher, chief

of police, and was as follows:

I am informed that you have construed the action of the Board of Fire and Police Commissioners at the last needing in reference to "nickel-in-the-slot" machines as including all slot machines which do not have any element of chance about them and that under such construction you have included telephone instruments, music boxes and automatic sales boxes which have slot attachments, but which deliver each time to the customer a certain definite value, and that you have ordered the police to remove them.

Any slot machine which does not involve the element of chance is a legitimate enterprise, and the Board of Fire and Police Commissioners has no more power to order them removed than it would to order a business enterprise to run without clerks. Any interfering with such machines would certainly render the officer so doing liable for any damage resulting from such illegal action.

You will therefore direct the police to reof police, and was as follows:

action,
You will therefore direct the police to remove only such "nickel-in-the-slot" machines as are gambling devices and into which the element of chance enters. A resolution of endorsement was passed directing the chief of police not to interfere

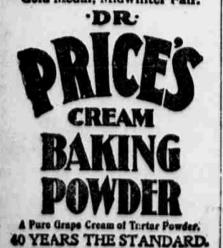

with any slot machine in which there is no element of chance. The quarrel in engine house No. 3 was then brought up before the board for adjustment.

The facts disclosed that Lieutenant Frank Urban had lost his temper regarding the proper fuel for the company stove and had insulted and assaulted Captain Taylor. A number of firemen stationed in the house testified to the improper conduct of the lieu-tenant and the board reduced him to the ranks, the action to take effect at once. Five days' pay were deducted from the salary of Driver Sidner, engine company No. 3, for driving down Eighteenth street north from Dodge, a route against the runes of the com-

Officer Dan Bildwin was suspended pending the investigation of his course in taking three days' leave recently without proper notification. The following leaves of absence were granted: Patrolmen Andy Fahey, P. Flynn, Sylvester Pool, Driver S. D. Osborn, all for five days.

Sykes' Fight for Liberty. Detective Cox of Memphis, who is in the city in quest of Caleb Sykes, wanted in the southern city for grand larceny, is ex-periencing considerable trouble with his prisoner, Thursday Detective Cox went to Lincoln and secured the proper papers for

Fraternal Union of America

odge, No. 111, Fraternal Union of Amerlodge, No. 111, Fraternal Union of America, was called upon last night to greet some 200 members of the lodge and their friends who attended one of the monthly entertainments of the fraternal body. These guests were excellently entertained with song and music, were feasted to their hearts' content and were then given the pleasure of dancing away the remaining hours of the evening. The early portion of the entertainment was devoted to a musical and literary program, in charge of Prof. F. F. Roose. The selections were given mainly by a group of children, who had been trained by Mrs. M. Rockafield. Songs were sung by Anna and Ethel Landon and by Virginia Merges, a violin solo was played by B. Emsile, rectiations were rendered by Grace Weise, D. J. Hurley and H. M. Goodnow and a song and dance was given by Lillian Emsile. At the conclusion of the program the guests were seated at tables and were feasted with good things prepared by the women of the lodge. A postprandial program followed, under the direction of Capitain Davis. The toasts were responed to by E. C. Walcott, D. J. Hurley, A. A. Buchanan, T. C. McDonnell and F. F. Roose, Later the floors were cleared and the guests danced to the music of the lodge orchestra. ca, was called upon last night to gree

Ed Tuttle. "mayor of Sheely." walked into Ju'ge Gordon's court room and demanded that the police recover a watch which he said had been stolen from him. Tuttle was drunk and was accordingly placed under arrest. When pushed into the cell he showed fight and in the trouble that ensued fell to the pavement, and was rendered unconscious for some time. The city physician was called is. pavement, and was rendered unconscious for some time. The city physician was called in.

IDEAS ADVANCED BY WOMEN

Timely Topics Discussed by the Club at Its Regular Meeting.

Up the Nebraska State Capital.

The Woman's club has entertained out-ofwn guests at every meeting this year, but vesterday it was favored in the presence of several. Mrs. Rehlaender, president of the Book Review club of Lincotn, made a congratulatory speech from the platform and Mrs. William Fleming of Tabor, Ia., and Mrs. E. L. Martin of Fremont responded gracefully from the floor.

The program for the day was presented by the department of social science, Mrs. Ella B. Perine leader. This department is making a study of municipal government this year, using, with some modifications, the outline prepared by Mrs. W. L. G. Taylor of the State university. Mrs. Rehlaender stated that the course of study in municipal government in her club had at first included the consideration of the government of Engwas lish and continental cities, and that having fazel learned what had been done and what it was possible to do, the next concern of the class had been to know what the good gov-States had accomplished, especially in Phil-adelphia, Chicago and Denver.

After three years of this study the club felt moved to put some of its knowledge into practice and the City Improvement society was organized. This association does not define the limits of its work by a constitution and it holds itself free to co-operate with the officials in anything they may undertake for the benefit of the city, seek-ing, meanwhile, a better understanding and had been warmly commended by the officials, notably by the health commissioners, who had publicly stated that the insistence of the vomen upon general cleanliness, and espeschool grounds, and a patroness with her asway the surroundings of each school building. OTHER TOPICS.

The other address of the day was by Mrs. Towne, president of the Visiting Nurses' asociation, who described the work of that as-ociation under four divisions, namely: What he have tried to do; what we have tried to avoid; our difficulties, end our ideal. Mrs. Towne spoke of the comfort and instruction given; of the effort to give assistance only where it could not be otherwise secured; of the effort required to provide nurses, medi-ine and food suitable to the sick, and of the hope that a membership of 1,000 would soon, by its annual fees of \$1 each, put association where there need be no further inxiety about funds to carry on the work inder \$500 each for robbery. They are both boys and were charged with fereibly taking a from a girl who was on her way in Paris and the sewage system of Berlin and Glasgow were cited as examples. Mrs. Belden's picture of a city, clean, beautiful and convenient, with municipal ownership of gas, water and street fransit, and withal, with lower taxes than Omaha enjoys today, made Leave Omaha every Friday, 3:30 p. m., reach every woman echo the closing words of the ing San Francisco Monday, 9:45 a. m. Con paper was a resume of the philanthropic work of the club by Mrs. Hoobler, and it was a sufficient answer to the criticism that is sometimes made that the club exists for itself alone. Mention was made of various efforts to secure municipal and legislative action in the direction of reform, of classes of the work at the railroad station maintained by the club and conducted by Miss Bertha Burket.

The program was opened and closed by Miss Sadie Bowen, who sang "Florian's Song" by Goddard and "Far Away" by Chadwick T. C. Hadley, a new comer, was also heard in the "Torreador's Song" from Carmen. He has a fine baritone voice and his staging was very cordially received. He responded to his by "Marguerite.

Special Low Price on Ulsters.

Today we place on sale a special invoice of four hundred Men's Ulsters in all sizes, made from good serviceable materials and put together in a good, serviceable manner at the very unusual price of three dollars and seventy-five cents. We have two reasons for selling these coats at this price. The first reason is that we make a few pennies on each Ulster, and the second reason is to show people the difference between cheap goods at The Nebraska and cheap goods somewhere else. These Ulsters are not all wool. There is a small percentage of cotton in them. They were made up specially for us with good warm linings and cut in full lengths and full sizes and a great many worse Ulsters are being offered in Omaha today for five dollars and a half. If you want a good Ulster at a very low price now is the time to buy it. No more after this lot is gone.

Nebraska Clothing Co

SOLID PERFUMES

fumes are put up-It's tablet form-about 10 to 12 tablets in a little bottle retailing for 25c for the Lavender and 50c for the Violet and Rose odors—each tablet consti-tutes a sachet in itself—Then we have perumes in all of the old ways-SACHET POWDERS-

A Blue Black A Rich Dark Brown and a Dressy Terra Cotta Overcoat for Five Dollars

and yet we don't buy 79 carloads and a wheelbarrow full at one phenomenal purchase. Neither do we corner the manufacturing industry of these United States. Our purchase don't seem even to save some millionaire manufacturer from total ruin. Strange. Isn't it?

What fools these moss covered, narrow thought, ridiculously argued, selfish, unbalanced, untrue, and bruggy advertisements be? And what fools are the authors of such rot, to shink that the average

American would believe them? We can't brag about thousands of overcoats of one kind-score one against us. Nevertheless we have of one kind enough to close a thousand, if a thousand men could be found of the same fancy and opinion,

We offer 3 kinds of overcoats at 45.09-They're of different colors and different cloths. Either is good value and would be at a dellar or two above \$5.00. We are not of the blowing-our-horn-kind. If you find-after a thorough search-a better overcoat for \$5.00 bring ours back and get your money back. Or perhaps you had better include us in the search before you buy at all, Begin at the loudest-mouthed, Come here after you have seen all,

OPEN EVENINGS TILL S O'CLOCK.
