The Board of Education was reorganized lest night without incident. The caucus program of the majority went through without a hitch, and the minority members either joined the procession or tendered complimentary votes to their friends.

Secretary Gillen called the board to order and J. F. Burgess was made temporary president. Thomas then moved the adoption of the rules and regulations of 1897, with some amendments. Of these the most important were two changes by which the authority of the superintendent of schools to broadened. The first change vested in the superintend ent the authority to make all assignments of teachers "after consultation with," instead of "with approval of" the committee on teachers and examinations. The second provided that no teachers should be elected or assigned by the board or any of its committees, unless they had certificates as required by the Intendent. The rules as amended were upan-

After the regular meeting of the board President-elect Jordan entertained the members of the majority and a few invited guests with a banquet at Henshaws. A bountiful repast was spread in the private dining room, and this assisted to pass a most enjoyable social hour. MONEY NEEDED FOR DEPARTMENTS.

What it Will Cost for Police and Firemen During 1898.

The estimated outlay necessary in the de partments under their charge during the coming year was submitted to the Board of Fire and Police Commissioners last night by a committee appointed for that purpose. Th total expense which will necessarily be incurred by the police department, as reported by Commissioner Gregory, who composed the committee, was \$111,000. An attached estimate by Chief of Police Gallagher footed up \$120,203,47. It provided for an increased force of sixty men during the exposition. The items were as follows:

Total ...... \$115,000,00

In connection with the estimate for ex-penses during 1898 in the fire department it was noted that the forced economy of the last few years had made impossible many needed improvements and on this account the appropriation might be slightly exceeded this The estimate is as follows:

The appointment of three special police men at the exposition grounds were sub-mitted and approved. The men appointed are Thomas Hayes, Frederick Silberhorn and Joseph L. Smith. Charges were filed against Pipeman Driver John J. Norton for leaving the company quarters at No. 4 Engine house without permission and will be heard next Monday night. Potrolman A. Vsmous was granted five days' leave with pay. The resig nation of Pipeman Leonard Von Bicken was road and accepted. In the case of Fred Metz. jr., whose application for a caloon license (2001 Twentieth street had been protested, the applicant was granted his license and the attorney for the protestants filed notice of appeal to the district court. A similar course was followed in the case of Louis Hibben who applied for a license in the Karbacl block, at Fifteenth and Douglas street, THEORETICAL MONEY NOT GOOD

Mayor Moores Will Veto the Unpaid Tax Resolution.

Mayor Moores has decided to veto the esolution adopted at the last meeting of the city council by which the comptroller was instructed to make his books conform to the new fund balances which were obained by adding the uncollected balances of the last four tax levies. The mayor's principal objection to the change is that it would place a large theoretical balance in the various funds without actually adding a cent to the cash resources. The result would be that a lot of warrants would be drawn for bills now outstanding and these would be out at 7 per cent interest for an indefinite period. The mayor considers the funding bond proposition as the best way out of the difficulty. He says that if funding bonds are issued to take up the warrants the city will only pay 4 per cent interest as against 7 per cent on the warrants.
While the council has not had any official notice of the mayor's intention to veto the resolution, it is expected that the veto will be sustained and that the refunding ordinance, which has been hanging fire for severa months, will be taken up at once and passed.
The mayor will also veto the resolution directing the city treasurer to refund feet paid for slot machine licenses after October 1. The mayor says that the owners of the machines should all be treated alike and that he will not approve a resolution that refunds the fees to some and leaves the others to hold the sack.

ESTIMATE ON EXPENSES FOR 1898

Engineer Rosewater on Wants of Two Departments. City Engineer Rosewater has transmitted o Mayor Moores an estimate of the pros ective expenses of the engineering and Board of Public Works department during 1898. The estimated cost of running the engineering department is \$15,000, while that of running the Board of Public Works, in-\$4.500. In view of the fact that there are bills amounting to about \$25,000 already pending against the curbing, guttering and cleaning fund, the engineer recommends that the limit of \$30,000 should be levied for that fund. He also wants \$40,000 for street im-provements and \$40,000 additional for street cleaning. These last two items are designed to cover the cost of keeping the streets ampavements in the best possible condition dur ing the exposition. Mr. Rosewater contends that while it will cost some money to keep up appearances in this respect, it is the best possible investment that the city could make. He asserts that nine pecole out o ten who visit a city with a view to possible make. nvestment make the condition of the streets the first consideration. A clean and at-tractive street goes further to give them a high opinion of the city than any other sin-gle consideration, and he is anxious that a

Bedy is Debated. At the committee meeting yesterday the city council decided to place the plan of assessment for the Walnut Hill grading on file. This represents a tax which has been in controversy for seven years. A week ago a large delegation of property owners was present to protest against the plan of assessment and the matter was postponed for one week.

The remainder of the afternoon was occupied in a discussion of the new plumbing ordinance. Building Inspector Butler and Plumbing Inspector Clawson insisted that the fees provided were no more than were necessary to pay the expenses of the office, but several of the councilmen contended that they were too high. The result was a compromise by which the cost of a master plumber's license was reduced from \$10 to \$5 and that of a journeyman plumber's license

from \$5 to \$2.50. Mortality Statistics. The following births and deaths were re-

Bad Negro is Caught in the Act and Quickly

POLICE CATCH A THIEF AND HIS BOOTY

Ed Highbaugh, New at the Business Locked Up for Attempting to Rob a House in the Daytime.

Ed Highbaugh, a burglar, was caught yesterday morning with his booty on his person. At 9 o'clock a hurry call was received at the police station from the family of L. D. Holmes, 2533 California street, to the effect that there was a burglar in a bedroom upstairs. A detail of officers, consisting of Sergeant King, Detectives Savage and Dempsey and Officer Heitfeldt, went to the location at a gallop, and were quick and fortunate enough to arrive before the burglar had left the scene. As the wagon turned from Twenty-fourth on Cass the officers saw a negro one block west, running south on Twenty-fifth street. The recognition was mutual, and the negro turned and hurried back, turning up the alley one-half block north. Another minute's time would have made his escape practically certain. The officers distributed themselves about the neighborhood and searched every shed and outhouse. The negro was finally discovered from the action of a frightened horse in a barn near Twenty-sixth street, between Cass and Califor nia. Sergeant King noticed the animal standing at the door with broken haltar and trembling with fear. He made a search of the stable and found the negro hidden beneath the hav in the manger. His abrupt arrival had so startled the horse that it had broke loose and rushed to the door. The man was scarched and his possessions were found to be a gold ring and indelible lead pencil

been begging at the door earlier in the morn-ing. He made no denial of his guilt and was locked up on the charge of burglary. Other property which the burglar had at empted to carry away was found on the premises. On the kitchen table was a gold watch and chain, and other jewelry was found on the floor. The man had evidently been waiting his chance to enter the house rom the rear when the family was safely engaged in front, and used the guise of beggar to cover his reconnaissance. was careless in his work, however, and alarmed the women of the house promptly visited a neighbor's telephone and notified the police station. Highbaugh is about 20 years old, and is new at housebreaking. He has been arrested on other oc-casions, however, for small offenses, and is known to be a young man of not very goo Highbaugh was given his prefiminary ex-

New Counterfelt Afloat. The secret service officials at Washington have sent a notification to the local office to warn bankers of this city and vicinity to warn bankers of this city and vicinity against a new counterfeit \$100 bill, which is said to be exceedingly dangerous. It is a silver certificate. The check letter is D. The front plate is numbered one and contains a picture of James Monroe. The back plate is numbered two. The serial number on the note is E, followed by the figures 3, 4 and 5, but the remaining figures are different on each note. The seal is lighter than on the genuine note. From the fact that the announcement of this counterfeit was made by telegraph and instructions were given to notify the banks immediately, it is concluded that the Washington authorities have information that the note is being circulated in this section of the country.

Nebraska Hendquarters from Lincoln to This City. Another important business concern has decided to remove its plant from Lincoln to Omaha. M. C. Orr, manager of the Aermotor company, was in the city yesterday, and he Commercial club to fill vacancies caused signed a three years' lease for the large warehouse on Izard street, between Thirternth and Fourteenth streets, known as the

Armstrong warehouse.
The western business of the Aermotor company will be removed from Lincoln to this city within the next thirty days. The ware-house in this city will be used for storing the manufactured goods of the company and for distributing them from here through the west. The factory of the company is located in Chicago, and the concern is regarded as one of the strongest in its line of business The change from Lincoln to Omaha is made because the latter is regarded as a better distributive point. The warehouse here which the firm will occupy is located on the tracks of the Union Pacific, and it is the superior railroad facilities here that has brought about the removal. The lease was negotiated by Charles C. George and J. E. George of this city. The number of families that the location of the new plant will bring to Omaha is not known, but it is said that the company will employ a large force here as all the western business will be hereafte handled from Omaha.

# New Year Greeting

... WE wish you a Happy New Year. Dur. ing the year '98 we expect to remain in business and we ask the continuance of your trade. We do not ask it on the strength of our reputation. Or because you have known us a long time. Or because we sold goods cheap last year. We ask it because we will sell you goods cheap this year. With us every year must take care of its own business. Every sale must stand on its own bottom. Every one must judge us by what he buys-not by what his neighbor buys,

We expect to increase our business this year on the same lines that we increased it last year-by keeping quality up and keeping prices down. Our contracts with mills and manufacture ers lead us to think that whatever surprises will come to you in the shape of low prices this year will come largely from The Nebraska and that the first of them will make its appear-

## The March of Events

The rapid march of events upon the confidence of the people fortells for the

"Guarantee" a successful future. The "Guarantee" is but a trifle over 100 days old. An infant in age, though full grown in experience. During its days it fought many a commercial battle, defended many false accusations, silenced imitators and nailed many a falsehood in-

During its limited days it achieved greater success than any similar business in like period of time, considering its away-from-the-business-portion location and its plainness, against the grandeur in store appearances. The "Guarantee won a suc-

If its success is not entirely merited, then call it but a streak of fool's luck. Yet the judgment of those who bought here promotes increase in confidence. If confidence is won by fool's luck, then put us down as lucky fools,

anxious to have to earn the good will of the people.

we ever refused to make imperfect things good, or money back when asked for? These are the principal good qualities of this store, and for this reason we have

entered into the confidence of the good people so rapidly. The new year will see no changes here. We started out well, and see no reason to change, thank you.
