RESULT OF A ROW IN A SALOON

The speaker then gave her heavers a few simple rules of living, which she said would, of themselves, make a great change if followed. She advised the plentiful use of water as a drink and the eating of nutritious foods.

Young Farmers Engage in a Quarrel, some length upon the evil results which follow the use of this instrument of torture and advised all of her hearers to reject lis

of stone and the coats-of-arms will accomplish this to a considerable degree, but I shall advocate the placing of stone tablets on either side of the archway and cutting into these the names of the governor, state officers and exposition commission of each state thereby making it a lasting monument of the transmississippi region and of the year of the great exposition of the magnificent resources of that section."

TEACHERS TAKE GREAT INTEREST

Superintendent Pearse Gets Very Encouraging Communications.

Superintendent Pearse is continually receiving letters from prominent educators which endorse the plan of holding a Transmississippi Educational congress in connection with the exposition. Out of twenty-five communications received up to date only two are opposed to the enterprise. Two more give it a cautious approval, and the remainder are enthusiastic in their expressions of approval and co-operation. This result is regarded as the most encouraging that could possibly be expected, and indicates that the leading edu cators of the country can be depended on to

give their active support to the enterprise. Aside from individual opinions, the leading educational organizations of the west are also getting into line. The Nebraska State Teachers' association gave the scheme all possible impetus at its meeting, held at Lincoln last week, and Superintendent Pearse has received copies of similar resolutions which have been adopted by the state asso clations of Minnesota, Iowa and Капвая These are the three most powerful state associations of the west, and there is little question of securing the co-operation of the other transmississippi states.

Swobe Pushing the Carnival.

Power to bring all about in due time After treating somewhat in detail of the many troubles to which women are sup-posed to be peculiarly liable the speaker antization of Mathemy Hope's stirring romance nounced that she would show her audience has been seen in Omaha before and neither book nor play calls for extended review at various muscles of the body in proper trim has been seen in Omaha before and neither this time. The company will average with and to overcome these aliments. She retired that which presonted the piece last year, in and returned in a few moments attired in a short Roman tunic of white and silver and some respects being better, in others not wearing lavender tights. As she stopped to the front of the stage her graceful walk good. Howard Gould is still the Rassendyl and makes, as before, an excellent impressio

USC

brought into prominence the shapely contour of a perfect female form. There was no restraint, but every muscle showed its proper development and the carriage was light and graceful to a degree. The madam then showed her audience a number of graceful movements of the body and limbs, bringing into even greater promwork and grin at his confederates at crucial moments and that a student of a German

inches the perfect curves and beautiful sym-metry of a figure such as any woman might well envy. Suppressed commendations of ad-miration were heard on all sides as the evo-lutions were performed and applause was frequent and hearty. This section of the lecture ended with a spirited lesson in walking n which the lecturer gave amusing illus trations of improper methods of walking and showed the advantages of the correct method

Retiring again, the speaker next appeared in an evening gown of red silk trimmed with white satin and having a front of white and gold. For a few moments the madam gold. For a few moments the madam spoke of the benefits of massage for the face to prevent or remove wrinkles and hollows, advising gentle manipulation of the facial nuscles with the tips of the fingers.

closing she advised her hearers to be patient and not to expect to accomplish wonderful results in a few days or weeks, or even months. Before dismissing the audience the

turer announced that she would deliver another lecture to the women at the Creighton this afternoon and would return again

One section of the lecture was devoted to the face and Mme. Yale declared that there is no necessity for sunker checks or for wrinkles in the face. She said time and per-John Williams, a Danish farmer living

three miles northwest of Florence, was shot severance in the use of a proper system of manipulating the facial muscles would rein the mouth yesterday afternoon by Sam move all such defects. Above all things she cautioned the women not to worry, but to do Rawlins in the saloon of Julius Peterson, at Twenty-second and Cuming, and is seriously the best they could and rely upon a higher hurt, Rawlins is employed by a neighboring farmer and claims that he shot in selfdefense.

Which Results in Wounding of

One and Arrest of the

Other.

The young men had both spent the day in the city and had been drinking. They were taking a stirrup cup in the saloon preparatory to hitching up and returning home when the encounter occurred. Rawlins' account is that he was standing at the bar when the injured man entered with his brother and another man. He says there had been ill-feeling between them for some on the new color tent proposed even a darker time, and that the Williams brothers were shade than the one adopted. particularly incensed because he had re-

cently caused their arrest on the charge of stealing his harness. As soon as the Williams boys saw him, Rawlins says, they approached him in a hostile manner and cursed him for causing their arrest. Rawlins retreated around a billiard table and warned them to keep away. He says that John Williams was the more aggressive and seized him by the shoulder in spite of the warning, telling him to shoot if he dared. The other man advanced also and Rawlins drew his revolver and fired. The ball entered Williams' upper lip and lodged somewhere in the roof of

the mouth where it has not been located One of the men in the saloon ran out and told Officer Kissane that a man had been abot. Rawlins gave himself up to the officer and admitted that he had fired the shot, He was charged with shooting with intent to kill

Rawlins' story is verified by Ray Denning. an employe of the saloon, who says that Williams had grasped Rawlins by the collar and that the latter had warned him to keep away,

Williams refused to make a statement but his friends say he has been the victim of a persistent persecution. They believe that the reason for this is that Williams married under rather romantic circum stances a few months ago against the will of Peter Root, the girl's father. Root is a farmer living near Florence and Rawlics is in his employ. The young couple were obliged to contract their marriage by stealth since then it is asserted that Root's

hired man has been commissioned to get the young husband into all possible scrapes. Williams' friends think that the arrest the theft of the harness was mercly to give Williams annoyance and they believe ast attack was intended to complete the work. The wound is not thought to be dan gerous. The preliminary hearing of the caue will occur this morning.
