The Hospital and a Fearful Operation.

Hospitalsingreatcities are sad places to visit. Threefourths of the patients lying on those snow-white beds are women and girls.

Why should this be the case?

Because they have neglected themselves! Women as a rule attach too little importance to first symp-toms of a certain kind. If they have toothache, they will try to save the tooth, though many leave even this too late. They comfort themselves with the thought that they can replace their teeth; but they cannot replace their internal organs!

Every one of those patients in the hospital beds had plenty of warnings in the form of bearing-down feelings, pain at the right or the left of the womb, nervous dyspepsia, pain in the small of the back, the " blues," or some other unnatural symptom, but they did not heed them.

Don't drag along at home or in the shop until you are finally obliged to go to the hospital and submit to horrible examinations and operations! Build up the female organs. Lydia E. Pinkham's Vegetable Compound will save you from the hospital. It will put new life into you.

The following letter shows how Mrs. Lyness escaped the hospital and a fearful operation. Her experience should encourage

other women to follow her example. She says to Mrs. Pinkham:

"I thank you very much for what you have done for me, for I had given up in despair. Last February, I had a miscarriage caused by overwork. It affected my heart, caused me to have sinking spells three to four a day, lasting sometimes half a day. I could not be left alone. I flowed constantly. The doctor called twice a day S for a week, and once a day for four weeks, then three or four times a week for four months. Finally he said I would have to undergo an operation. Then I commenced taking Lydia E. Pinkham's Vegetable Compound, and

OLYMPIA, Wash., March 8 .- (Special.)-Governor Rogers today decided to issue his proclamation, making Friday, March 25, Arbor Day. The superintendent of public instruction was taken by surprise by the gov-ernor, who announced that his proclamation would set the date of March 25 for Arbon Day observances. The superintendent has received many contributions from teachers and others to be printed in a programme and manual for the schools and now finds that the limited time does not permit the prepa-ration of the programmes contemplated, an the state printer cannot finish the work

in time for distribution. Service on Custer Battlefield.

SHERIDAN, Wyo., March 8 .- (Special.)-The Grand Army of the Republic members of the posts here and at Billings are arrang-

ing for a memorial service on May 20 at the Custer battlefield. A joint committee from Billings, Fort Custer and Sheridan has been appointed to carry the plans to perfection. Why the Indians Are Sober. FORT DUCHESNE, Utah, March 8 .-(Special.)-The Indians at the Uintah agency who were paid last week are behaving in an orderly manner, which is contrary to expectations. It was thought that they would take this opportunity to get liquor and air their grievances, but such has not proven to be the case. This favorable conduct is largely due to the severity of the last winter, which caused the Indians to go in debt to the storekeepers for their sustenance and these storekeepers have the bulk of the money.

tural department has issued the following bulletin on live stock: The returns of the number of live stock on farms in the United States on January 1 show there were 13,990,911 horses, 2,257,655 mules, 1,840,886 milleh cows, 2,2641,197 oxen and other cattle, 37,656,960 sheep and 39,759,-583 swine. These figures show a decrease of 403,756 in the number of horses, 109,841 in that of milch cows, 1,244,211 in that of oxen and other eattle, 840,283 of swine. On the other hand, there is an increase of 853,317 in the number of sheep and 42,011 in that of mules. While there has been an increase in the number of milch cows in each of the New England states, and a somewhat con-siderable increase in the northwestern states, there has been a decrease through-out almost the entire south, and this fact, together with a slight decrease in New York. Pennsylvania, Ohio, Michigan, Indiana and illinois, reduces the total for the country a large to six-tenths of 1 per cent below that of last year. Of the seventeen states re-morting a total of over 1,4900 hors, Pennsylvania, Ohio, Georgia, Missouri, Kan-sas and Nebraska show 3n increase, and Indiana, Illinois, Iowa and eight southern states a decrease. There is a marked in-crease in the value of farm horses hav-ing increased during the year by \$5,713,011. sion of the senate was largely devoted to the consideration of the District of Columbia appropriation bill. After an extended discussion the bill, containing a provision for the reduction of about one-half in the present rates of telephone charges in the

district, was passed. During the debate on the telephone amendment Mr. Berry (Ark) sharply criticised Mr. Faulkner (W, Va.), saying that a man who sent out tons of anti-monopoly literature in 1896 ought not to be supporting a monop-

Mr. Faulkner retorted that he did not believe the democratic party wanted action first and investigation afterwards.

Mr. Gorman advocated awaiting the action of the committee which was investigating the subject. He vigorously denounced the charges made by Senator Berry against Senator Faulkner as "one of the most outrageous attacks in the history of the seaate.

The bill for the relief of the Methodist Ephecopal Church South of Tennessee, appropriating \$288,000, was then passed after

brief debate. Mr. Morgan, in supporting the bill, said this was a fitting opportunity to pass this bill when just a short time ago a measure had been sent by the house to the senate providing for money to be used in anticipation of another war-a war which, if it should come, would be fought by a country nterstate commerce commissioner.
