State Loses a Suit in the Lancaster District Court.

WINS A CLAIM TWENTY-FIVE YEARS OLD

Act of the Legislature of 1873 Pro viding for the Securing of Government Land the Basis of the Suit.

LINCOLN, March 11 .- (Special.)-In district court this forenoon a verdict was rendered against the state of Nebraska and in favor of T. P. Kennard for \$13,599, being the amount claimed by Kennard for his services in prosecuting claims of the state against the United States.

The history of this case dates back to 1873, when the legislature passed the fol-

lowing act:

Be it resolved by the legislature of the state of Nebraska, That the governor be and he hereby is authorized and empowered to appoint an agent or agents in behalf of this state to prosecute a final decision before congress, or in the courts, the claim of this state for the 5 per cent due to the same from the United States upon the lands of this state disposed of by Indian reservations and by the location of military land warrants and land scrip issued for the military service in the wars of the United States and for agricultural college scrip and railroad lands, and

Whereas, The government of the United States has allowed various states large amounts of swamp and overflowed lands lying within their borders; and

Some time after the passage of the joint resolution the Pawnee reservation went into the market, and the government paid over to the state about \$27,000 as its per cent on the sale. This was the only money that was paid to the state by the government, and Kennard put in his claim to the state for an individual bill or one of miscellaneous claims, but it was never allowed. In onsession the claim was allowed by both trouses, but in some way got knocked out before the claims bill became a law. The last session of the legislature disposed of the claim by referring it to the courts for adjudication, and the verdict today in district court is the result. The attorney general will immediately carry the case to the

DETAILS OF RECENT GOLD FIND. Deposit One of the Richest Placers

placer gold field has been discovered along connections with Omaha, Lincoln, St. Jo the North Platte river in Cheyenne and Scotts Bluff counties that is believed to be a Klondike. The field will, it is believed, cover from 3,000 to 5,000 acres and assays show a yield of from \$4 to \$7.30 per ton. This field is along the north side of the river and is from 50 to 100 feet above the river bottom. The deposit is sand and gravel, lying on a bedrock of magnesia and soapstone. The material (sand and gravel), with various specimens of rock, are foreign to the country. Upon investigation it has been decided that this has been carried into this country during the glacial period. The specimens of rock, compared with the Black Hills rock, show that this drift deposit is from the Black Hills country. Again the

No ordinary help, no well meaning but

unprofessional concoction, earsaparilla or blood purifier can do what Paine's celery

compound is able to accomplish: cure men and women of such serious diseases as kid-

ney troubles, liver complaints and dyspepsia, or permanently drive away—and there's the

point that no sufferer should lose sight of-

permanently drive out of the system, rheu-matism, neuralgia and all skin affections.

Nerves and brain can be worked out. This is the condition of thousands of exhausted

nervous systems that have been almost

worked to death in school, counting rooms,

factories and stores. Shaky nerves, flabby muscles, muddy complexions and the general

appearance of weariness and pain tell the story of exhaustion. Persistent headaches go with nervous debility. That terrible throbbing of the heart comes from a wretched condition of the nervous system.

The sure way to get back to perfect health of body and brain is to regulate and nourish

the nerves by means of Paine's celery com-pound. It is a searching cure for all diseases that indicate vitiated blood. It builds up the

Mr. John Scott Harrison, jr., nephew of ex-President Harrison, whose hard, telling campaign work in the Southwest showed the strong family gift, sends the following appreciative estimate of Paine's celery compound 28 an ideal restorative for the body and brain when either are excessively used; KANSAS CITY, Mo., Jan. 28, 1898. Wells, Richardson & Co.:

Gentlemen-It gives me pleasure to say that Paine's celery compound has proved of incetimable benefit to me at different times. when the labors incident to my work and the nervous strain following arduous work in campaigns had taxed me physically. With the thousands of other mental workers, who have been benefited by it, I can recommend it as a great restorative and builder.

Yours truly, JOHN SCOTT HARRISON, Jr. Paine's celery compound is the one means regarded sufficiently effective by conscientious physicians to be relied on in cases of vigorous tissues
