REDUCES THE CITY'S DEBT

One Result of Honest and Economical Municipal Administration.

WHAT THE REPUBLICANS HAVE DONE

Lond Left by Democrats Lightened and the City's Business Kept Up on Greatly Reduced Income.

The republican managers are finding no

difficulty in securing abundance of good campaign stuff for use in the city campaign. The strongest arguments are to be found in the safe and business like methods that have been pursued by the republican administration toward reduction and extinguishment of the city debt, which was created almost wholly during the periods control of the democrats of the city. The income of the city during every year the administration of affairs has been in the hands of the republicans has been less than the years when the democrats had control and were building up the city's present debt. Without an exception in these later years, the expenditures have been less than the receipts, and the standing debt of the city has been decreased every year. In 1892 the salaries of executive officers were \$13,154.69. This was the last year of the democratic administration. Since then these salaries have been cut until the total for each year since has been kept between \$9,000 and \$10,-000. In 1891 the total city current expenses were \$97,476.59, and on the following year the democrats, with all of the experience gathered during nearly ten years of adminis trative control could do nothing better than boom up these expenses to \$121,512.52. All of the previous years the expenses had been steadily increasing, and the great extrava-gance of 1892 led to the complete overthrow of the democratic administration and the inauguration of republican rule under Mayor Lawrence. The result was very apparenand fully satisfactory. The total current expenses for that first year were reduced to \$86.701.45, and the surplus saved went into the general fund to reduce the amount of outstanding saved. outstanding general fund warrants, a ponderous debt which had been created by demo-cratic administrations and increased every year the party had control of the city's finances and its business.

CUTTING DOWN THE DEBT. With greatly decreased receipts this debt and the whole city debt was reduced each year. Throughout the panicky times beginning in 1893 the financial affairs were so well handled that there was no disturbance of the city's credit, warrants kept close to par and the whole debt of the city reduced from \$931,793.19 to its present dimensions, \$573,141.63, which was the full total of all obligations of every characters that obligations of every character at the close of business on Saturday afternoon, less amounts of cash on hand.

At the close of the fiscal year of 1889 the democratic administration had piled up a total debt of \$856,785.59. On the following year it was increased to \$937,827.45; on the next year the total was \$917,578.78, and on the last year of the democratic administra-tion the total was again raised to \$931,of Hastings, Neb., and the visit of his fellow foresters was a mark of their appreciation and good fellowship. Before the team total debt was reduced to \$882,341.42. Each selegant gold chain and charm, the latter betion, which has aggregated since 1893 a total

CONDITION OF THE EXCHEQUER. elements of farcical comedy than any since the days of "Jane" and "Gloriana."

Manager Bowen was greatly encouraged by the large audience that filled the Dohany theater last night and thoroughly enjoyed "A Breezy Time." In addition to the splendid bill for tomorrow night there will be another fine attraction on Thursday eventages. is the statement:

PAVING ON SOUTH EIGHTH STREET People Very Well Pleased with th

Council's Order.

There is no disposition to let the paving campaign that was begun a few weeks ago lag. At the last meeting of the city council a resolution was passed ordering South Eighth street paved. It was expected that the order would call forth a vigorous protest, but so far only the citizens who were the street of the parties were on hand, however, and are in hopes that the main can be pulled off some time in the near future.

the order would call forth a vigorous protest, but so far only the citizens who were greatly in favor of the improvement have taken the trouble to call upon the members of the council and express their opinions of the action taken. The only question that is being discussed among the property owners interested concerns the material to be used. The resolution specified vitrified brick, but a number of the residents are very much in favor of the old blocks being replaced with asphalt. There is but favor of the old blocks being re-placed with asphalt. There is but little doubt that a number of imin the council at the next meeting and the work of replacing several miles of rotten would blocks with clean paving will be gotten under cisco.

Hostrop to Peter Hansen, 160 acres in Black Hawk county, \$7,680.

Iowa Press Comment.

Des Moines Capital: While Iowa is hard up it certainly would be in bad taste not to be creditably represented at Omaha, Atlantic Telegraph: The present high price of wheat should not induce farmers to risk too much to spring wheat. It is rather a precarious crop at best. A little will do. but too much might prove unprofitable. A variety of crops is the surest.

Dubuque Telegraph: Senator Ranck vigor-ously founght the board of control bill during the fifteen days of its consideration, yet in the end he voted for it. He antagonized it to please his constituents, and voted for it to satisfy his conscience as a democrat. Newton Journal: The bill to hold biennial elections in Iowa will not become a law There are too many "professional politicians" who would be out of a job if it became a law, and they will fight "tooth and toe nail to prevent having their bread and butter taken from them.

ern athletics.

Extensive though quiet preparations are going on here for the semi-centennial cele-bration of the college, which will take place at the commencement in June. It seems now quite certain that barring war or a ses-sion of congress President McKinley will work mules from his Sac county farm and sion he expects soon to leave for Texas to sumake the principal address, and in case he comes special invitations will be sent to the governors of Iowa, Nebraska, Minnesota, Dakota and Illinois, asking them to be present. Dr. Albert Shaw, the editor of the American Monthly Review of Reviews, who is commonly considered as the most illustrious of the alumni, will give the address before the Alumni association. Senator Mason of Illinois, at one time a student here, has been invited to make an address, but his acceptance is as yet a matter of conjecture. Wednesday of the commencement week will be a special day for the educators of the northwest, a large number of whom have already signified their intention to be present and several will participate in the program.

The college has prospered greatly under is present administration and it is no secret that the authorities hope for a considerable increase in the endowment at the time when the institution begins the second fifty years of its history. The number of students has increased so in spite of the high requirements that if more students still are to be cared for, an increase in the endowment is very greatly to be desired. However, no public solicitation will be made at the celebration and the guests will be left free to follow the dictates of their own wills. The various classes have already begun arrange-

MEMBERS WILL TALK OF WAR

There Will Be Abundant Opportunity for Patriotic Speeches.

Should the President Send a Message to Congress on the Maine Disaster it Will Be Given Right of Way.

WASHINGTON, March 20.—Whether the report of the naval board of inquiry on the Maine disaster goes to congress this week with a special message from the president calling for congressional action, our relations with Spain and the proximity of war as viewed from the standpoint of the emergency preparations going on to place the country in a state of defense will probably be exhaustively debated in the house in connection with the appropriation bill, the beginning of which will be on Tuesday. The WASHINGTON, March 20 .- Whether the ginning of which will be on Tuesday. The consideration of many phases—the appropriation for battleships, for dry docks and torpedo boats—will bring the whole subject directly before the house.

In more suffering and saved more lives by reason of these powers which it possesses than anything of a similar nature which has ever been discovered. You will be wise if you have it on hand and use it whenever you first the least signs of disease or weakenstern. rectly before the house.

While the conservative leaders doubtless will seek to prevent inflammatory exprescompany, was burned down tonight. As sions, under the recent ruling of the speaker, Burrington entered the barn a horse kicked which practically places no limit upon the latitude of debate in committee of the whole on the state of the union, the leaders, except by their example, probably will be unable to repress sensational speeches.

An effort is likely upon the part of some of the radicals to force from those in the confidence of the administration a declaration of the policy of the administration in regard to Cuba. This they hope to do by taunting them with some of the rumors which have been floating about in the newspapers during the last few days. It is altogether likely that there will be a general expression of the sentiment of the house on this ques-tion before the bill is passed.

Should the president transmit the report of the board of inquiry with a request for congressional action during the week, every thing else will give way to it.

An action which might be decided upon will be in the control of the republican leaders as to the limit to be put on debate.

If the report does not go to congress this week, the naval bill will probably consume all the time until then; but if it should be passed before Saturday, which seems unlikely, the bill for the reorganization of the army and authorization for recruiting it to a footing aggregating 104,000 men in time of war, will be taken up. Tomorrow the bill for the relief of the victims of the Maine will be called up imme diately after the reading of the journal under the arrangement made last week. I is not expected to consume much time, by

Friday. Altogether it promises to be an exceedingly eventful if not sensational week in the house SENATE FORECAST.

No program has been prepared for the senate for the present week and the course of events is liable to be influenced largely by developments from the outside. The quarantine bill is the unfinished busi-ness on the senate calendar, and if opportunity offers Senator Pettigrew will get up his public land bill.

It is expected that the sundry civil appro-

priation bill will be reported Wednesday or Thursday, and if it should be it may be taken up later in the week. The senate mittee is making many changes in this bill, and it will consume several days of the time of the senate when considered It is also understood to be Senator Davis' intention to bring up the Hawaiian treaty in order to get a vote on the Bacon amend-ment. It is still Mr. Davis' intention to lay ment. It is still Mr. Davis' intention to lay the bill on the table as soon as Mr. Bacon concludes his speech in its support. the report of the court of inquiry into the Maine disaster should be received. The recelpt of this document would have the effect

of springing a Cuban debate which would sidetrack all other questions.

"My busy day"

-the day when housecleaning sets in. If you do it in the hard-working, bustling way, every man, woman, and child wants to get under cover. Do it with Pearline, and nobody's troubled, not even you yourself. Pearline housecleaning is quicker, quieter, sooner through with, easier. Saves much rubbing. Saves

paint. Saves temper. Wherever you can use water for cleaning, use Pearline with it and you'll get the best work. And let the children help. They enjoy cleaning with Pearline, and you'll be training them in the way they should go.

Millions Rearline No Man

> Is well dressed this spring who doesn't wear a Covert Cloth Top Coat. The new coat for Spring is cut short-box back and fly front -- a stylish looking garment. There is no reason why every man shouldn't have one-at least price shouldn't stand in the way. We 5-acre garden tract, close in, \$100.00 per year, will sell you an all-wool Covert Cloth Coat, made up with good linings, sewed good and cut to fit, for

Little Good Advice Which You Will Do Well to Consider at this Time. At this time of year, when we are changing over from winter to spring, there is always a low order of vitality-a reaction from the strains of the seasons. The blood HOUSE LEADERS TO TRY TO CURB DEBATE dees not flow so full on rapidly—the strength

is tess. For these reasons all kinds of diseases heve a much better chance than at any other season. We all know this from our own experiences and those of our friends, and we are aware what a terrible amount of grip, pneumonia and other diseases there is floating in the air and drawn in by us with every breath. It is a time for exercising special care, for keeping the blood in circulation and the system toned up generally
