the following written opinion from Attorney General Smyth:

LINCOLN, March 29, 1898.—To His Excellency, Silas A. Holcomb, Governor: Sir—I have your favor of the 28th inst., in which your office against three members of the Fire and Police Commission of Omaha, of the Pire and Police Commission of Omaha, charging them with misconduct in office and praying for a hearing at Omaha of the charges made, and that you desire to know whether or not, in the opinion of this office you may under the law designate a suifable person to act as referee, to hear the testimony and report to you his findings of fact and conclusions of law. I have the honor to answer that in my judgment you may do so. Section 188 of chapter xila provides that you shall make your fandings thereon. There is nothing therein which provides how the testimony shall be taken, whether orally or by means of affidavits or depositions. That is left for you to determine. On the theory that a court may refer a matter before it for adjudication, or call in assistance in any other proper way where the pressure of its duties demands, I think you can send faces charges to a competent person as referee. He, as such referee, would not have the right to administer oaths, but that condition would be submitted you would have only competitions.

tent and relavent testimony before you for consideration, and that would be carefully digested and the law hearing thereon stated; thus much time and labor would be saved to you, and yet an impartial hearing would be had and justice done to all parties to the proceedings; Very respectfully yours,

Restores the Vigor of Youth.

Old age is a disease, just as rheumatism and indigestion are diseases, and like them it signifies a lack of proper nourishment -a want of strength and energy. No one thing has so great influence in depressing the spirits, racking the brain, shattering the nerves and debilitating the whole system as does the worry and care of a busy life. And no medicine was ever discovered that even approached Dr. Miles' Restorative Nervine in building up weakened nerve tissues and in giving new life and strength to the tired body. It searches out the weak spots and sets to work to make them strong. It gives the worn out nerves a chance to recover. It brightens the mind and rests the weary brain as nothing else

The outlook in the curtain and drapery line was never so favorable for the purchaser as at present. The prices have never been any more near right-and the present low prices won't stay here long they will surely raise-the stock we show now was bought at the low water mark and not a price will be advanced here till these are all gone-all these curtains are new this spring. We have no old stock to work off on you at cut prices
