SOUTH OMAHA NEWS.

With six falles of paved streets here the

these thoroughfares clean and the pavements are nearly always dirty. When any cleaning is done the work is performed by the fire department or a small gang of laborers under the direction of Street Commissioner Ross. On Twenty-fourth street there is a mile of asphalt pavement which is not cleaned from one end to the other oftener than once a year. Occasionally the fire department will flush Twenty-fourth street from L to N streets and N street from Twenty-fourth to Twenty-seventh street. This flushing seems to work all right street. This flushing seems to work all right on Twenty-fourth street where the asphalt is laid, but it is ruining the brick pavement on N street. It has been suggested by some of the city officials that a street swerper be purchased in order that the paved streets may be kept clean at a small expense. It is stated that with a sweeper, a couple of teams and a few laborers, all of the paved arrests could be swept every night and thus keep the streets in a presentable condition at a good deal less ex-rense than under the present losse system. The officials say that with the exposition coming on something ought to be done to present the city in its best form when so many visitors will be here and the question of securing some means of sweeping the streets nightly will most likely be considered before long. With a saloon occupation tax of \$500 there would be plenty of money on hand after paying the estimated over-laps in the fire and police departments with which to purchase a street sweeper. It is which to purchase a street sweeper. It is claimed that a sweeper would last for years with ordinary care and that the streets could then be kept clean all of the time at a comparatively small cost. On account of the number of miles unpaved streets it takes about all of the money apportioned to the street repair fund to fill washouts, lay necessary crosswalks, etc., so that there is very little left to pay for removing dirt from the paved streets.

Conneil Meeting Tonight. Tonight the city council will meet in regu lar monthly session and it is expected that some action in regard to the liquor license matter will be taken. It is not thought that Mayor Ensor will sign both of the ordinances jursed at the session Friday night, but which ordinance will be signed is a question. The mayor declines to be interviewed al-though he does say that he thinks the saloons ought to be willing to pay a fair occupation tax. Should the license be raised to \$1,000 the entire sum would go to the achool district their places at a certain hour each night and remain closed all day Sunday. With a \$500 license and an occupation tax there would be to excuse for holding the saloon to strict account and the Sunday closing law would front doors of the saloons. No money was accepted Saturday from the saloon keepers by the city treasurer, so that all selicons open yesterday were selling without a liccose and in violation of law. It is thought that payments for licerous will be made today elthough it is possible that the breweries may hold off until after the meeting of the council tonight. These who pay today will be compelled to deposit \$1,500 for each saloon and in case the council decides to reduce the cax money if paid under protest will be refunded

Up to the present time seventy-five saloon keepers have made application for license and advertised according to law. Unless the li-

A. D. T. Office Moves.

The main office of the American District Telegraph was moved yesterday into new quarters in the Schlitz building, Twentyseventh and Q streets. This location will, it is claimed, be much better for the handling of the packing house, fire alarm and watchman service. A branch office of the company will be established at 2521 N street where messengers will be kept day and hiding, watching outside the entrance of the might. There will be a Western Union wire harbor for the coming of the American ships. The real danger appears to be from internal this branch office also. B. R. Hawley at this branch office also. B. R. a lively fight on in regard to the election of a superintendent of instruction. It appears that the present board proposes to elect Prof. Munro for another term of years and this the members who are to take their seats on July 1 declare is illegal. The members elect are known to be opposed to the reelection of Prof. Munro and they hold that the time for the election of a superintendent and teachers is at the commencement of the school year instead of at the close of it. It is understood that the old board considers that it has the right to make constraint with teachers for the employed when the close of the school year instead of at the close of it. It is understood that the old board considers that it has the right to make city has never used any machinery to keep contracts with teachers for the coming school year which will commence in September and unless prevented by the courts will most likely carry out its program.

While working the machine urday Marcan in some way allowed hand to be drawn into the cutters and be machinery could be stopped he had lost all of his fingers.

FOOD IS SCAPCE IN MANUA Insurgents Will Sec that None Comes

from the Interior. (Copyright, 1898, by the Associated Press.) HONG KONG, May 1.-Letters to the insurgent junta here which were smuggled souri. on board the British steamer Memnon at and the Slocum law would then be enforced. Manila, which arrived here yesterday from All liquor dealers would be compelled to close the capital of the Philippine islands. Assert the capital of the Philippine is ands, assert that the Philippine insurgents are occupying all the hills surrounding Manila in a radius of ten to twenty miles awaiting the arrival of the United States fleet under comhardly be enforced beyond the closing of the mand of Commodore Dewey, which was expected at Manila at any moment when the Memnon sailed. The insurgents say that if the United States fleet blockades Manila, ther can starve the place into submission in

about two weeks.

Corroboration has been received of the report that the British residents of Macilla expected that the British steamer Esmeralda, which went there to take on board the specie belonging to banks, would have a full cargo of food stuff, as usual, but this was not the case and much distress is anticipated in consequence, if the insurgent land blockade and the United States sea blockade are

According to the insurgent leaders the cerse is reduced to the old figure it is forces the Philippine insurgents propose thought that not over sixty saloons will take when the right moment arrives to make a feint attack upon the city of Manifa, to mask a strong and determined attack upon the seaward forts. This plan, however, may upset by the Spanish authorities who are well aware of the intentions of the maurgents to co-operate with the United States

Little definite information has been as certained regarding the whereabouts of the Spanish fleet as a whole, but it is said by the insurgents that war ships of Spain are in hiding, watching outside the entrance of the has resigned as manager and Thomas Baylies has been promoted to the position of
maneger of the main office. Mr. Hawley
will have charge of the N street branch
office in connection with other business.

The real danger appears to be from internal
causes at Manila, where a massacre of the
British inspectation is apprehended. The Britlish consul, E. H. Rawson Walker, has cabled
here for the dispatch to Manila immediately
of the British first class cruiser Edgar to
better willow here to the dispatch to Manila immediately
of the British inspectation there. An idea of the tactics adopted by t

An idea of the tactics adopted by the Spanish authorities to keep up the courage of the fighting forces of Spain, can be gifthered from the fact that they have issued a placard stating that a Spanish cruiser on Monday last engaged and sank two American war ships. It is asserted that the Spanish cruiser Castilla of 3,342 tons displacement and 4,400 indicated horsepower, recently grounded near the entrance of Manila bay and was afterwards scuttled in shallow water. It is added that it is the intention of the Spaniards to use her as a stationary battery, although some of its guns have been unloaded and mounted on the fortifications at the entrance of the harbor, where other guns also have been mounted recently. It is believed here that Commodore Dewey has arranged with the Philippine insurgents has arranged with the Philippine insurgents to seize a harbor near Manila, to be used as

a base of operations for the prolonged siege of Manila, which is anticipated unless the American commander induces the Spanish fleet to come out and accept a general engage. ment.

MADRID, May 1.—A dispatch from Manila to the Liberal this afternoon says: The United States fleet arrived in sight of Subic at 4 o'clock yesterday. It adds that Commodore Dewey sent scouting vessels to examine those waters for the enemy and immediately sailed in the direction of Manila. The dispatch to the Liberal adds that the Spanish fleet has left Subic bay, but no time for its departure is given. Continuing, the Manila dispatch says the Spanish land forces

are watching the coast to prevent a landing, which, according to the correspondent, would be a difficult operation... SHANGHAI, May 1.—Dispatches received from Manila by the Shanghai Gazette say the capital of the Philippine islands is short of food and ammunition, and that the conditions prevailing have been made worse by the flocking into Manila of the Spanlards natives are already looting and killing in the provinces, Spanich women and children being included in the victims. It is further asserted that the priems are the special objects of the natives' vengers. dozen priests having been killed during the
