

CHARLESTON SAILS AT ONCE

Carries Large Supplies of Ammunition to Admiral Dewey. TRIP WILL REQUIRE FULLY TWO WEEKS

City of Pekin with Further Supplies and Reinforcements Will Probably Overhaul the Cruiser.

WASHINGTON, May 11.—The Navy department has decided to have the cruiser Charleston start immediately on its relief mission to Admiral Dewey's fleet at Manila.

The orders issued anticipate the departure of the Charleston from San Francisco today if it is possible to get the ammunition and stores aboard and it will leave without waiting to convoy the City of Pekin and the other ships loaded with supplies.

The City of Pekin, to follow it, is a very fast merchantman, capable of being pushed to eighteen knots or more, so that even with the handicap it has of starting several days after the Charleston, it is expected that it will reach Manila first.

The Charleston is a protected cruiser of 3,270 tons displacement, built of steel and armed with eight 10-inch main battery guns.

WATER SCARCE AT KEY WEST

Big Condensers Have Not Yet Started and the Problem Becomes Serious.

KEY WEST, Fla., May 11.—It is said here that if the report that the Spanish fleet has returned to Spain proves to be correct an active movement against Cuba may occur in forty-eight hours.

The water problem is getting serious at this place. Naval officers recognize it, and they are looking anxiously for the smoke from the stack of the big government condenser which is promised to supply 40,000 gallons daily per contract.

SPANISH SHIPS AT CADIZ

Entire Fighting Strength of the Navy Concentrated at that Point.

ONE BATTLESHIP AND EIGHT CRUISERS

London Globe Gives a List of the Squadron—United States Naval Authorities in Doubt as to Correctness of Report.

LONDON, May 11.—The Globe publishes this afternoon a dispatch from Cadiz, dated Saturday last, which said the following ships, which were all ready for sea with the exception of the Pelayo, were at that port: Pelayo, Victoria, Carlos V., Almirante Oquendo, Velasco, Maria Teresa, Cristobal Colon, Alfonso XIII., Pluton, Proserpina, Ozama, Audaz, Furor and Terror; also several torpedo boats, transports and the Normanna and Columbia, formerly of the Hamburg-American line, which have been renamed Patriota and Rapido respectively.

The Globe's correspondent added that he believed the squadron would sail on Wednesday (today), and said a number of troops would leave for the Canary islands on May 15, while three battalions of marines were quartered at San Fernando, ready for embarkation.

Lieutenant Commander Colwell, the naval attaché of the United States embassy, said today that he was by no means convinced that the Spanish Cape Verde squadron is really at Cadiz.

Inquiries made on board ships which have recently arrived here on the Canary islands, Island of Madeira, Tenerife and Gibraltar, show that nothing has been seen of the Spanish fleet. The British steamer Galicia, from Spain, which left Clyde on April 29, reports that only the Spanish war vessels there were the auxiliary cruisers Normandia and Columbia, two torpedo boats and an armed yacht, possibly the Giralda. The British steamer Tetuan, which arrived here today from Gibraltar, after leaving Las Palmas on April 29, Tenerife on April 30, and Madeira on May 2, saw no signs of the Spanish fleet.

On the Stock exchange here today the report that the Spanish Cape Verde squadron had returned to Cadiz was generally discredited, though the opinion was freely expressed that if the rumor was true it indicated the intention of Spain to throw up the sponge and leave the West Indies to their fate, thus opening the way to an early peace.

Most of the pretentious brands of bottled water are \$1 a gallon, and "live" water is sold at a price of \$1.50 a gallon.

There is a great activity among War Officials at San Francisco.

San Francisco, May 11.—The quota of California volunteers is now complete. The two battalions were mustered into service this morning and are now stationed at the Presidio and the artillery battalion went into camp near Fort Mason.

Washington, May 11.—Reports received at the War department show continuation of the rapid progress being made in the mustering in of the volunteers.

REJECT CIGARETTE SMOKERS

Ninety Per Cent of Those Who Use the Paper Pipes Fail to Pass Physical Examination.

WASHINGTON, May 11.—The large number of rejections of volunteers has caused much comment in the army medical corps. However, the physicians who have conducted the examinations say that outside of the ranks of cigarette smokers there are even fewer rejections than were there in the days of the civil war.

The Globe's correspondent added that he believed the percentage of rejections would be greater now than in 1861, but I did not dream that it would be almost three times as great.

HE SPEAKS WELL OF DEWEY

Commodore Schley Compliments the Valor and Skill of His Brother Officer in the Far East.

ON BOARD FLAGSHIP BROOKLYN (off Port Monroe), May 11.—Commodore Winfield Schley, commanding the flying squadron, today for the first time consented to give his views upon the victory won by Admiral Dewey at Manila. He said:

It has been urged that the results show such decided inferiority in resistance as compared with the order of attack that there is a diminution of the glory, but that is untrue, for it must first be remembered that the greatness of Dewey's success lies in the calm courage and daring display in his victory over the Spanish fleet at dark under the guns of many torpedoes and braving the perhaps hidden torpedoes of mine.

It strikes me that with several advantageous fortified positions the preponderance of advantage was certainly with the enemy, and that with the great daring displayed by Dewey there must fall upon his shoulders the mantle of Perry and Farragut.

From the meager accounts that have been received of the battle it is evident that, despite the great risk every officer and man knew was being taken, there was not a faint heart in all that squadron, but an enthusiasm and esprit de corps that would not but win with such a leader.

Every officer is now encouraged to believe that Commodore Schley will be allowed to display his acknowledged skill and daring in active battle.
