BAD SPRING FOR NOTIONS

Numerous Weighty Ideas as to Effects of War Are Blasted.

ALL SAGE PREDICTIONS ARE NULLIFIED

Nothing Disheartening Can Be Seen In the Business Situation Save the Closing of a Few Cotton Mills.

NEW YORK, May 13 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: Hostilities have lasted long enough to kill many predictions, if but few Americans. The European notion that the United States The European notion that the United States would begin by having a bad half hour, the theorists' notion that everybody knows a great panic must follow the outbreak of war, the commercial buyers' notion that everybody would be ready to sell everything cheap if war came, the notion that it would pay to hoard money until the emergency had passed, have all been made laughable already. The only panic was that money lenders were wondering what deadly impossibilities the unknown might have in store sibilities the unknown might have in store for them. The only hindrance of industry

has been due to waiting of buyers who looked for lower prices.

Nothing disheartening can be seen in the Nothing disheartening can be seen in the industrial situation except the closing of some cotton mills owing to overproduction and the fall of print cloths to 1.87c.

Cotton has not risen above 6.87 cents, and many stories of reduced acreage are current, as a year ago, but they do not weigh much in view of the actual receipts of 1.500 non below.

pounds at the three chief markets for two weeks, against 14,330,000 and 11,267,300 in 1896 and 1897, but prices are somewhat more firm, and there is more demand for goods apart from the large government or-

ders.

The demand for boots and shoes having passed all recent orders, has abated, and just at the point where there is general change from one season to another, the actual receipts were 2 per cent larger than last year, and 11 per cent larger than in 1892, though smaller than in other years. Leather is rising, with no active demand, and hides at Chicago have advanced about 4 per cent in spite of the fact that cattle staughtered at the four chief western mar-kets this year are considerably more than kets this year are considerably more than in any other year, excepting 1893 and 1894.

The output of pig iron—234,163 tons weekly. May 1, ngainst 233,339 tons April 1—shows practically no change, excepting the increase of 855 tons weekly in charcoal iron. Deducting the unsold stocks, which increased in April 23,516 tons, the apparent consumption in that month was 32,609 tons daily against 32 309 tons daily during the daily, against 32,209 tons daily during the previous four months. This general expectation of expanding demand holds prices steady for all finished products of iron and steel; and with considerable sales of Bessemer pig it is 10 cents higher at Pittsburg, with other quotations there and at Chicago and at Philadelphia practically unchanged.
Government orders are heavy and yet
cover but little of the consumption, though they go far to cause the overcrowding of shippards and plate mills, but higher prices for wheat have brought enormous demands for agricultural implements and also for locomotives and cars, while many buildings

locomotives and cars, while many buildings in western towns, and orders for many railroads and bridges, for canal improvement at Chicago, and 25,000 tons of steel rails at the east, make up a heavy volume.

Money is easy since the policy of contraction has eased, and only \$1,700,000 went to the interior during the week, while the new loans of the chief banks averaged 45 per cent of the total to commercial interests, against 25 per cent and 15 per cent last week and two weeks ago, with rates much week and two weeks ago, with rates much lower than were quiet recently refused. The government is paying gold over the counter largely because it needs notes more than coin, and \$7,000,000 in gold have been ordered during the week, including \$2,500,000 from Australia, making \$78,363,350 ordered, of which about \$11,000,-

578,363,350 ordered, of which about \$11,000,000 has yet to come.
Failures for the first week of May represent \$7,798,777, against \$3,995,354 last year
and \$4,138,271 in 1896. Manufacturing, \$1,411,275, against \$1,275,316 last year. Failures for the week have been 246 in the
United States, against 264 last year, and

REVIEW OF THE STOCK MARKET. Wall Street Devotes the Week to

Bullish Speculation. NEW YORK, May 13.-Bradstreet's Finan-

cial Review tomorrow will say: present week to an active bullish specula-tion, based on the naval victory at Manila, and the expectation of other successes, as well as on the accumulated evidences of Spain's fluancial and military weakness, and the belief that a war will be soon decided, even if peace is not at once as-

The excited speculation in grain, and the high quotations recorded for wheat, were also bullish factors, mainly because in conjunction with the prospect of another large wheat crop, the prices apparently insure a very prosperous season to the western rail-

roads.

The stock market was not, however, without spells of hesitation, or even of slight reaction. London was also a rather pronounced seller of stocks on the advance, professional interests there disposing of considerable amounts, which were bought on the declines in March and April. Its offerings were, however, well taken, and

some obscure neighborhood doc-tor. The chances

says it's stomach, or liver, or heart trouble. Nine times in ten he isn't within a mile of right. He treats for these troubles and charges big bills until the husband gets disgusted and throws him out. The trouble is usually weakness or disease of the distinctly feminine organism.

Many husbands, after paying big doctorbills while their wives grew steadily worse, have at last written to a physician of national reputation and learned the truth. They have been justly indignant at the ignorant pretenders who have experimented upon their wives' health. By writing to Dr. R. V. Pierce, any ailing woman may receive the free advice of an eminent and skillful specialist, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. V. Dr. Pierce's Favorite Prescriptton is a marvelous med-

cal Institute, at Buffalo, N. V. Dr. Pierce's Favorite Prescriptton is a marvelous medicine for women. It cures all weakness and disease of the organs distinctly feminine. It heals all internal ulceration and inflammation and stops debilitating drains. Over 90,000 women have testified, over their own signatures, to its wonderful merits.

"For several years I suffered with prolapsus of the uterus," writes Miss A. Lee Schuster, of Box 12, Rodney, Jefferson Co., Miss. "I had a fall from my horse, causing retroversion of the uterus. Our family physician treated me for kidney trouble and everything else but the right thing. I grew worse and worse. My body was emicated, hands and feet clammy and cold, stomach week, with great palpitation of the heart. I dreaded for night to come, for I would suffer from nausea all night, and so I continued until I began taking Dr. Pierce's Favorite Prescription, and I began to improve right away. I am now well and happy.'

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Mrs. Winslow's Soothing Syrup has been used for over 50 years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Sold by druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take no other kind.

the volume of transactions, including as they did heavy buying orders through commission houses, indicates that the public interest in speculation has revived.

The passage of stocks from atrong into weak hands was, however, a feature, and its natural consequence was toward the end of the week the market appeared to be overbought, and had a disposition to rest on the absence of further favorable news, and to wait for developments in connection with the campaign against Cuba and Porto Rico. This naturally provoked some realizing by This naturally provoked some realizing by professionals as well as bearish activity by

There was more or less pool manipulation seen in the market, and some of the specialties were the objects of revived activity of an artificial origin.

The waiting and somewhat reactionary dis-

position was increased on Friday by the news that the Spanish Cape Verde fleet had arrived in West Indian waters, and the resulting anxiety as to the result of the expected engagement. The declines were not, however, large, and the close was steady and dull at a slight rally. and dull at a slight rally.

BRADSTREET'S REVIEW OF TRADE. Business Situation Gaining in Attractiveness as Spring Advances. NEW YORK, May 13.—Bradstreet's tomor-

The business situation gains rather than loses in attractiveness as the spring season advances. While, of course, the very favorable situation in cereals is still the mainspring of the improvement in many sections, there are other causes to make the outlook for business for the curent year a

outlook for business for the curent year a flattering one.

Following the rapid advances in prices of wheat, which apparently culminated, for the time being, early in the week, in a quotation for cash wheat unequaled, with one single exception, and that only for a very short period of time, for twenty-five years past, there has come a full and a reaction from the abnormally high prices, caused by from the abnormally high prices, caused by the squeeze in May delivery, which, how-ever, has left prices far above quotations for at least ten years back. Telegraphic and cable advices to Bradstreet's only accentuate the aiready well known bullish nature of the immediate wheat situation, while on the other hand, owing to the generally admitted good crop situation, par-ticularly in this and other countries, the outlook appears to favor somewhat lower prices than these new ruling, for next sea-son's yield, although above those ruling for

the fast six years.
With the qieting down of interest in wheat there has come a partial shifting of speculative interest to other grains, par-ticularly corn and oats and many classes of provisions, with advances in nearly all

A rather more confident feeling seems to A rather more confident reeling seems to pervade the iron trade, which is reflected in fractional advances for leading makes of iron and steel. Features of the week are very heavy sales of pig iron at many mar-kets, but it is again claimed that stocks have begun to accumulate at some points as a result of the continued enormous production, which is placed at 1,000,000 tons per

Perhaps one of the most encouraging Perhaps one of the most encouraging features of the week, and one especialy acceptable because of the hitherto very depressed conditions prevailing, is the reported slight improvement in inquiry and in tone in the wool market at several cen-

ters.

The price situation is still one of great strength, but particularly so in food products, which are with few exceptions, notably coffee and sugar, higher on the week. coffee and sugar, higher on the week.

Wheat exports are alightly larger than last week, aggregating 3,682,543 bushels, against a total last week (corrected) of 2,923,775 bushels, and comparing with 2.183,-000 bushels in this week a year ago, 1,9 3,000 bushels in 1896, 2,397,000 in 1895 and 2,420,-000 bushels in 1894.

Corn exports reflect the returning of foreign demand from high to lower priced.

eign demand from high to lower priced grains in a total of 6,077,000 bushels. This is slightly smaller than the total a week ago, but is nearly twice that exported in this week last year, and compared with 1.668,000 bushels in 1896 and 1.210,000 bushels in 1895.

Business failures in the United States show a slight gain for the week, numbering 250, against 240 last week, 251 in this week a year ago, 265 in 1896 and 210 in 1895.

Failures in the Dominion of Canada this week number twenty-five, against twenty-two last week, thirty-one in the week a year ago, thirty-four in 1896 and twenty-

> Let Indiana; tolis Win.
>
> COLUMBUS, O., May 13.—Costly errors on the part of the locals gave the Indianapolis team a victory. The score: shiftiness that was surprising in one of

his years. There was the usual fiddling at the openng, and no end of feinting, both men being apparently desirous of drawing the other nto a lead. Maher took the initiative, essaying a left-hander, which fell short. Goddard also tried the same, but his effort was also short. Goddard, however, invariably followed up his lefts with his right toward the body, which saved him from at least one good stiff counter. Maher finally anded with his left hard on Goddard's jaw. Goddard swung for the body and landed, but t did not amount to much, and a clinch folowed.

As soon as the men broke away, Maher again took the offensive, landing with his ong left on Goddard's face, the barrier champion retaliating with the right on the body. Maher rushed Goddard to the ropes.

says it did, or on the cheek bone, where Maher says it did, will probably never be

As Maher received the punch, he was partly tripped by Goddard, whose right foot was covering one of Maher's. Peter fell ace forward, striking the floor with a great

When Maher went down the spectators hought it was only an ordinary knockown, but the referee tolled off the fateful en seconds, and Maher was still on the floor. It was fully ten seconds beyond that time before he rose to his feet. The time of the fight was just one minute and fifty-one seconds.

GAMES OF THE NATIONAL LEAGUE.

Philadelphia Outplays Baltimore and Wins a Very Handsome Game. PHILADELPHIA, May 13.—The Phillies lefeated Baltimore today in a close and interesting game. The contest throughout abounded in brilliant bits of fielding, in which LaJoie took a prominent part. Atendance, 1,470. Score:

COLORADO MINERAL PRODUCTION.

Report of the Burenu of Mines for 1897 Just Issued. DENVER, May 13 .- (Special.) -- Commisioner Harry Lee of the State Bureau of Mines has just issued his report for 1897. The mineral industry of Colorado is treated by Commissioner Lee in a very concise and pact tables. Colorado's total output these four metals since their first discovery

The report shows that 3,276 new specimens have been added to the mineral collection in the state capitol building, that 29,215 men are actively employed in mining in the state, xclusive of brokers, surveyors, etc., and that there were 110 fatal and 169 non-fatal accidents in Colorado mines last year. It also shows what recommendations were made for improving and rendering safe the

The average rate of wages of men employed in mines in the state is shown by a table. It is noticeable that the figures in the report differ materially from others that have been published by other apparently reliable persons. For instance, Colorado's total gold output for 1897 is given as only \$19,579,636,83.

El Paso county, including Cripple Creek, is credited with only a \$10,131,855.24 output of gold, while Gilpin is given a gold produc tion of \$2,086,471.14, almost double that allowed by most other persons.

From the evident careful and painstaking way in which Commissioner Lee has gathered his data it is probable that his report is the most reliable one yet published on the mineral output of Colorado. The figures given, however, are, no doubt, on the whole, HAWARDEN, May 13.—The condition of made without counting in what gold escapes Mr. Gladstone this evening is comparatively the accountant's eye, which, in Colorado, painless, but there is evidence of increasing must amount in value to several millions of dollars.

Commissioner Lee's estimate of the pro-Commissioner Lee's estimate of the pro-duction of gold, silver, lend and copper of in a car near the city. It was exploded elaborate tables and also the total output of the state since the discovery of these four netals in it forty years ago. Summarizing, Commissioner Lee estimates

Summarizing, Commissioner Lee estimates the total mineral output of Colorado up to January 1, 1898, as follows:

Gold, 8,373,658 ounces, worth \$173,083,523.

Co'orado News Notes. Denver is having a pure food show and it is a great success. On Arbor day in Colorado the pupils Arapahoe county planted 483 trees. The Colorado Equal Suffrage society held a convention in Denver this week. The state horticultural show will be give at Pueblo September 28, 29 and 30 Mr. Drake, one of the supervisors Arapahoe county, has lived in Denver just thirty-nine years.

Silver, 339,023,940 ounces, worth \$312,791,

Copper, 75,306,923 pounds, worth \$9,437,-

Lead, 2,016,106,992 pounds, worth \$83,014,-
