Nebraska's Representatives at Washington Continue to Work for It.

POSSIBILITY THAT THE SCHEME WILL GO

The most notable change of the latter Senators Thurston and Allen Are Doing All They Can to Have the Conferees Agree to Approprinte the Required Sum.

WASHINGTON, May 21 .- (Special Telegram.) -The Indian congress bill is in imminent danger of defeat notwithstanding that the senate conferees on the Indian bill have told both Senators Thurston and Allen that so far as they were concerned they would support the amendment. Direct opposition, it is understood, comes from Chairman Sherman of the house committee on Indian affairs, who, on the score of economy, believes that it would be an extravagant waste of money at the present time to vote \$45,000 for an ethnological congress of Indians at Omaha. Representatives Curtis of Kansas and Little of Arkansas, members of the conference committee, have personal items expressed themselves as quite satisfied with serviceable to both. Germany's duty plainly in the bill which they hope to secure by opposing the senate amendment for the Indian congress.

When this state of affairs was made known to Allen and Thurston they at once resolved to do everything in their power to bring about a change of hearts on the part of Sherman and Curtis. Senator Platt of New York will, it is thought, take a hand in bringing order out of chaos and Senator Thurston will move everything to accomplish the adoption of the amendment.

A rather unexpected turn to the present condition of the Indian congress scheme was had today by a telegram from E. Rosewater, manager of the Department of Pub-Mcfty and Promotion, who wired Secretary Bliss asking if the department would pay the bond question as the last subject to be back any moneys paid out in preliminary arrangements looking to the holding of the congress providing the sum of money was appropriated to go ahead with the congress pending legislation. Mr. Rosewater also the corporation question and also some unwired Senator Thurston to urge upon the secretary the importance of immediate action along the lines outlined above. In consequence Senator Thurston had an extended conference with Secretary Bliss, Assistant Secretary Thomas Ryan and Commissione of Indian Affairs Jones in relation to this

most important feature of the exposition. Senator Thurston succeeded in receiving permission for Captain W. A. Mercer to go ahead on the details of the congress, but the department refused to be responsible for any expenses that might be incurred, but Secretary Bliss suggested that Senator Thurston could obviate any difficulty by having inserted in the Indian bill a clause covering preliminary expenditures. Later Acting Secretary Ryan sent the following telegram to Mr. Rosewater:

"Referring to your telegram of yesterday to the secretary of the interior I would state that the department is without funds or specific authority to do anything in the matter. Under the general powers of the department Captain Mercer will be directed to carry out the plans you refer to when the Indian office is authoritatively advised that funds sufficient to meet all expenditures that will necessarily be incurred in fully carrying out such plans have been donated for that purpose and deposited in a national bank to the credit of W. A. Jones, commissioner of Indian affairs. Should the department be authorized at any time by congress to reimburse moneys so donated and property expended for the purpose referred to such reimbursement will be made It must be distinctly understood, however that the government does not and will not incur any liability whatever in the mat-

Senator Thurston for some time has been anxious to do something for John Jensen of Enid, Okl., who resided in Fillmore county, Nebraska, for a number of years and was one of the sterling republicans of that section. Conditions, however, have been such that it seemed an impossibility to secure a place for Jensen until quite unexpectedly an opening came today in the Interior department. Thurston learned that the agent of the Otoe agency in Oklahoma was to be removed, and he immediately pressed Jensen's claims with the result that Secretary Bliss wired Jensen asking if he

would accept the place. Letters and telegrams are pouring in from retail druggists of Nebraska to the senators protesting against the imposition of the tax on proprietary medicines. Many of the letters show that the proposed tax of 1, 2 and 4 cents on articles at present in stock would work a most unusual hardship, and, coupled with the payment of revenue, would is understood Senor du Bosc, ex-charge in many cases force the druggists out of d'affaires at Washington, will leave the boat the business. This tax is giving no end of trouble to senators, especially those coming turn here. MARVELOUS POWERS OF ENDUR-ANCE AMONG THOSE WHO

SUFFER. What Gloria Tonie is Doing to Cure the Dreaded Malady.

The remarkable endurance of those who suffer with a severe form of rheumatism is without a counterpart in painful illness. Think of 25 years constant fight against the malady with only brief periods of relief. It is no wonder that when finally cured such sufferers should write letters in testimony of the fact. Many people are suspicious of such letters. They either do not believe the facts or else they believe their condition to be very much worse and beyond the aid of medicine. A single trial of Gloria Tonic will give such pronounced relief in the very worst cases of rheumatism as to set aside all doubt. Such a letter as the foilowing shows the genuine appreciation in which Gloria Tonic is head: "Mr. J. A. Smith: Do not be offended for not having written before, but accept my heartful thanks for your 'Gloria Tonic' which completely cured me. I suffered for 25 years, am 70 years of age and thank God that I am well again. I can work better now than I could lo years ago. Again accept my sincerest thanks and remain. Yours very truly, H. Bismarck's Condemnation of the Sen timent is Endorsed Generally by the German Press and People.

(Copyright, 1898, by the Associated Press.) BERLIN, May 21.-Public attention in this country has been temporarily diverted from the war to the significant speech recently colonies. The bulk of opinion, since the text of the speech has been available, corresponds to the utterance of Prince Bis-

marck, who was quoted as saying: "The importance thereof depends upon whether Mr. Chamberlain's private opinions A number of changes were made in are those of the British government. Closer ible, but an alliance is improbable and unnursing the good neighborship of the European nations."

Serious diplomats say they do not believe fensive purposes. They utterly repudiate

Relative to the war between Spain and the United States much impatience is manifested in this country over the alleged dilatoriness of the belligerents. Those persons doubting America's ability to put a military force in the field strong enough to overcome the Spanish and to quickly end the war are again in the ascendant.

The superiority of the American navy is also again questioned and the failure of Rear Admiral Sampson's ships to locate and meet the fleet of Admiral Cervera is regarded in German naval circles as a sign of weakness. Many newspapers comment on the alleged lack of discipline in the American fleet and publish stories in connection therewith.

Revolution Threatens Spain Count von Radowitz, the German ambas-

sador at Madrid, sent a report this week to the German foreign office on the political situation in Spain. He expresses the opinion that an outbreak of the people is merely a question of time and that further Spanish reverses must launch a revolution. Although there is not a real famine in

rising, especially in South Germany, where the price of bread is 50 per cent above the rate that prevailed in January last. The liberals and socialists claim that this

podition of affairs is the result of agrariansm, and blame the government for not reducing the import duty on grain. Some persons urge that maize should be unhealthful and unfit for human food.

They express the hope that all German vorkers will refuse to buy maize bread. The speech of Emperor William at the dose of the Prussian Dict on Wednesday last, in which he proposed the Prussian state railroad system, has been sharply criticised on all sides. Even the semi-official papers say the speech has met with contradiction

Differences Which Threatened a War Between France and England Are Satisfactorily Adjusted.

PARIS, May 21 .- The Figaro publishes the mportant announcement that the delicate Niger question, which threatened to lead to an Anglo-French war, has been settled, and that an agreement between the two governments will be signed this week at the French foreign office. The agreement will be satisfactory to both

nations. It involves mutual concessions, the chief being that the town of Boussa, which the -French occupied, but which England claimed by earlier treaties, will be given to England, while France will retain Nikki and two towns on the Middle Niger. The line of demarcation starts at 110 on the Niger and runs southwest, leaving Nikki inside the French sphere. The importance of Boussa lies in the fact that it is the highest town to which the Niger is navigable.

South Dakota Supreme Court.

PIERRE, S. D., May 21.—(Special Telegram.)—In the case of McLain against Williams, decided by the supreme court today in a decision by Presiding Judge Carson, the question of the constitutionality of what is known as the Hinckley law limiting appeals is squarely raised and the court holds the law is void, being in conflict with section 34, act v, of the state constitution. The law provided that no appeal could be taken from the circuit court when a judgment was secured for an amount less than \$75, the object of it being to prevent railroad companies from carrying up cases where small amounts were involved.

In the supreme court this morning opinions were handed down in the following cases: By Carson—John McLain against A. J. Williams, Hutchinson, county, motion to dismiss denied; Horage Murphy, trustee. South Dakota Supreme Court.

He dwelt upon the present patriotic ties uniting the north and south. glorying in the fact that the first blood spilt in the present contest was that of the south, and that it was mingled with northern blood on the Winslow, off Cardenas.

Elder Noel Blakeman of New York then

spoke, and the final address was made by Dr. Henry M. McCook. He commended the work of the National Relief committee, and caused no small degree of enthusiasm by reference to deeds of the past and anticipations of the future. The reports of the board of relief

for disabled ministers, and the widows and

orphans of deceased ministers, was submilted. The report showed that 875 names were carried on the roll. Among them were 342 ministers, 472 widows and twenty-nine families. The average of annuities paid was amount \$205. Last year the board reported

unrestricted legacies, \$27,893; total, \$197,-136, or an increase of \$36,280 over last year. The item of unrestricted legacies had been Exceptional Progress Being Made with the used for current expenses under permission

Development-Organization of First Corps Now Completed. CHATTANOOGA, Tenn., May 21 .- All the

regiments in camp at Chickamauga have

settled down to hard work and are under-

going practical training in the art of war.

The business-like methods being pursued by General Brooke will make the army available for active service much earlier than many officers believed possible Supplies of every description continue to pour in. Carload after carload of provi-Weylerish. The pathos of the secretary's sions arrive, and a vast amount of clothing and equippage is also being received. The indications now are that the entire army will be equipped during the next two the southern Presbyterian assembly in ses- weeks. Captain W. K. Wright, assistant George A. Pentacost of Yonkers, N. Y., sion as New Orleans, in reply to a telegram quartermaster, received notice today that 4,500,000 rations, in addition to the first or-

have a strong backing and the saloons will

probably be abolished. The park army now numbers nearly 35. 000 men and each day adds to it several thousand. The formation of the First army corps has been completed and today the formation of the First division of the Third corps was begun. General James H. Wade will command this division.

During the last few days a number of erious depredations have been committed by the worst elements of the volunteers. The miscreants have been so severely punished, however, that no further trouble is expected.
