FROM THE FARTHER WEST ONAHA SHUT OUT AGAIN

MINING IN THE BLACK HILLS mine is under the management of Colonel M. H. Day, father of the owner.

Industry of the Entire West is Being Affected by the War.

NEW DISTRICTS RECEIVING A SETBACK

Eastern Capitalists Viett the Hills and Take Options on Property Which May Become Sales When the War Closes.

LEAD, S. D., May 23.-(Special.) -The mining industry of the enwest is being affected the war. The old camps which have arrived at the stage of producers, are not noticing the change, but some of the new ounces of lead. The shaft is 180 feet deep. districts that are just beginning to be opened up are receiving a setback.

in the Black Hills during the past week but pany are: President, James Bradley; vice no sales were reported made, although two president and secretary, Edwin Henderson; or three options were taken on property general manager, Fritz Webber. which may be completed as sales should war terminate soon. Work is being pushed rapidly in the Two Bit, Yellow Creek, Strawberry, Ruby Basin, Bald Mountain and other mining districts, and the output of here the South Dakota Liquor Dealers' asprecious metals from the Black Hills will sociation was organized, having for its obnot be decreased any for the year.

Commenced to erect a substantial hoisting minors, habitual drunkards and irrespon-plant on its Two Bit property, capable of sible persons and to encourage the mem-

few weeks ago because of an overflow of water. A new hoisting plant has been purchased from a Denver machine company, which is the first of this make to be used in the Black Hills. The company is composed of Deadwood business men. Fred Zipp is president of the company.

The shaft in the Badger mine at Ragged Top is down 335 feet. Work has been resumed again, and the shaft is to be sunk to quartzite. The shaft is now in shales with favorable indications.

Development work continues on the Lizzie group of mines in Custer county. The main shaft is down 140 feet and a nine-foot vein of ore has been encountered which crosscuts at right angles an immense quartz dyke. The ore is silicious and highly mineralized with copper, iron, silver and gold. The ore is a good smelting proposition and would be self-fluxing with the addition of a little lime, which would make it a cheap proposition for reduction. Tests of the ore made run from \$9 to \$300 a ton, gold. The ore occurs in a kidney formation and shows from 5 to 40 per cent metalic copper.

Other Promising Veins.

There are several promising veins in this group which have the same appearance as the one so well exploited. It offers one of the finest smelter sites in the Southern hills, being situated on French creek. The ore could be delivered to the smelter by gravity.

The American Express Mining company has entered into a contract with the Deadwood & Delaware smelter to furnish it Considerable placer gold is being taken were instructed to support Congressin out at Hayward, in the southern part of Kelley and Knowles and Governor Lee; to Pennington county, on Battle creek. These unite the silver forces of the state and to are old diggings which have been worked continuously for years. There are still numerous unworked gravel beds.

A rich strike has been made on property owned by William Challis and Alex Madil on Squaw creek. The lowest assay of ore went \$32 a ton, gold, and some have gone as high as \$3,000. It is considered one of Principal, Alexander Strachan; A. G. Grant, the richest strikes ever made in the Black

A good vein of ore has been encountered in the William mine of the North Star Knowles, Blanch Betz, Nona Carter, Susan group of mines in Custer county, at a depth | Kane and Ora Smith. of ninety-five feet. The vein will be tapped at the crosscut and the full extent of the ore body made known. The shaft is to be sunk to the 200-foot level.

A ledge of copper ore has been opened up which gives 14 per cent copper. The mine was worked some time ago by inexperienced miners who followed a vein of free-milling ere, passing through a large body of ore that was considered worthless. The hole was abandoned by the first parties, and it has since been taken up by the Bensons. The copper ore is peculiar in formation and would ordinarily be passed for worthless ore.

Tom Shannon, an old Black Hills miner is putting in a small concentrating plant on Whitewood creek to treat the tailings of the creek. He is also building a small examide plant and will build ovens to exidize the material. Considerable money can be made by treating the tailings that come down the creek.

Good Strike in Harrison Lode. A good body of ore has been struck in the Harrison lode on the Blacktail divide. owned by Burns & Little. It was struck at the end of a 600-foot tunnel, the vein being seven feet high and of unknown width. Development work continues on the Gilt Edge mine, owned by Lee Day, near Galena. A number of small veins have been passed An exceptionally promising one was followed up last week and it was found to be a vein of considerable extent, with ore running as high in values as found in the original vein. The fact has long since been demonstrated that the Gilt Edge is not a pocket mine, but has numerous large bodles of ore which are permanent. The mine is producing from ten to fifteen tons of ore a day, now valued at about \$40 a ton gold.

Extensive developments were contemplated about the mine this month, but owing to the fact that the owner, Lee Day. has enlisted as a volunteer in troop A. Grigsby's cowboy cavalry, no increase will be made in the output until his return. The

The Great Test wool? If so, there's something injuriousin it. For toilet-for bath -for wash ing dainty articles.

That's

The tunnel in the Power mine, in Two being pushed on a ledge of ore which assays well. A vertical vein of ore is to be followed, which is four feet wide, and bears gold to the amount of \$22.40 per ton.

The shaft in the Golden Hill mine, at Two Bit, is down 240 feet, in highly mineralized sand shales, which show numerous streaks of silicious ore of good grade. Indications are considered favorable for striking ore soon. The company owns ten claims. Sam Allerton of Chicago is president.

Another rich strike has been made in the Golden Crest mine in Two Bit. The material found is impregnated with pyrites of iron, with large stringers of galena. The iron assays well and value of gold amounting to \$9 a ton are found, while the galena Those who are familiar with the ground consider this one of the richest strikes yet A number of eastrn capitalists have been made in Two Bit. The officers of the com-

the result of a gathering of liquor dealers ject the encouragement by frequent social It is expected that a decided move will satherings of its members of a spirit of frabe made this summer to open up the mining ternity, mutual smpathy and good will, to cricts around Hill City and Keystone in promote the social standing of its members, elevate and purify the liquor business by The Detroit & Deadwood company has opposing the sale of intoxicating liquors to sinking 1,000 feet. The headquarters of the organization will be in this city.

Sawmill Men Are Indignant. DEADWOOD, S. D., May 23,-(Special.)-The sawmill men in Pennington and Custer counties feel much provoked over last week's order from the commissioner of the general land office prohibiting any use of their sawmills until further notice. The effect of this order will be far reaching, and especially harmful to the mining industry Already the Holy Terror, St. Elmo, Sunnyside and other big mines are experiencing difficulty in getting timber for their shafts and buildings. A petition is being circulated by the mill men to the department to have the order abrogated. The reasons given in the petition are that the regulation is an order for the destruction of a necessary and legitimate industry; that it menaces the mining industry by making it impossible for the miners to get timber; that it is obnoxious to a majority of the Black Hills people, and because the regulation is legislative in character. There is already beginning to be a scarcity of lumber in the the saw mills start up again it will be necessary to bring lumber into the Hills from outside points.

People's Party. Delegates. DEADWOOD, S. D., May 23.—(Special) Telegram.)-Fifty-nine delegates were state convention June 22. oppose the issuing of bonds. Most of the delegates will go overland to Aberdeen.

Cowboys Leave Deadwood. FORT MEADE, S. D., May 23 .- (Special Telegram.)—The Grigsby cowboy troops left this afternoon over the Elkhorn for Chickamauga. They will be fully equipped and uniformed upon their arrrival. Their horses will be sent as soon as purchased.

June Rise at Pierre. PIERRE, S. D., May 23 .- (Special Telegram.) - The June rise in the Missouri began

South Dakota News Notes. A picnic of old settlers of Minnehaha county will be held near Sioux Falls,

With all her agricultural wealth, Dakota is also third in the list of gold-pro-ducing states. The aggregate of gold produced in the state last year was \$5,829,575. The growth of the town of Dublin in the from nothing to a settlement of quite impos-ing proportions. The town now boasts of a hotel, a restaurant phenomenal. In six months it has sprung hotel, a restaurant, a grocery, a dry goods store, a laundry and a number of substantial residences. In all there are between thirtyfive and forty buildings within the town-

Work has been discontinued on the Plankinton reform school artesian well on ac-count of the drillers having struck granite. The small flow is a great disapppointment to the management, as the well was in-tended for fire protection, to prevent another such disaster as that of some months ago, when a number of inmates were burned to death during a fire, which destroyed one of

Ninety-two of the 105 counties of the state have up to the present time elected 738 delegates to the republican state convention. Thirteen counties, entitled to 174 delegates, will hold their conventions this week Only about twelve counties have sent delegates instructed for governor, on account of the large number of favorite sons for other state offices. All authorities on republican state politics agree that Scaton will go into the convention the strong man on the first ballot, with Stanley and Hood running neck and neck, and a short distance be hind him. Punston's strength is in doubt, but it is thought that he will come in fourth. Hessin is in his class, while Coburn and

Edwards are distanced.

TOPEKA, Kan., May 23.--(Special.)-At-torney General Boyle has commenced man-

rolling stock of their system for the state board of railroad assessors. The board some time ago adopted resolutions demanding this Bit, is into the hill over 200 feet. Work is character of statement, so as to apportion the rolling stock for the state of Kansas with reference to mileage. For instance, if one-fourth of the mileage of any system is in the state of Kansas, the board insists that it has a right to have returned for assessment one-fourth of the rolling stock. The Missouri, Kansas & Texas and the board, but the others have refused and Mr. Boyle proposes to make them come to

STATE SHOOTING TOURNEY

Great Event of the Spring for Nebraska Marksmen Opens Today.

OUTLOOK FOR THE SPORT IS EXCELLENT

Experts Take a Warming-Up Turn at "Mud Pies" and Show Championship Form from the Very First.

Although the annual tournament of the Nebraska Sportsmen association does not commence until this morning, mud pies flew and guns cracked merrily on the grounds of the Omaha Gun club across the river yesterday. Many of the cracks who will contest in the events were in the city from the Kansas City shoot and they put in the day getting their hand in and becoming acquainted with the lay of the ground at the park.

In the big entry list are the names of cracks known all over the country and the managers of the tournament confidently look for the most successful affair of the kind ever held under the auspices of the association. It will be a nip-and-tuck race in every one of the nearly forty events down on the card. The managers-Frank S. Parmelee, G. W. Loomis and J. C. Read -are pretty well tickled over the prospects that are rewarding the big efforts they have been making to bring about a successful tournament.

The tourney will lest for the rest of the week. There will be ten events each day for the first three days and eight on Friday. On the latter day, in addition, will be pulled off two events open to shooters of Nebraska only-state champlenship at targets and at live birds. A gold medal will be the reward in the one and a diamond badge in the others, besides the money. Except in the state events, \$25 has been added in each event and in addition five prizes for the five highest averages will awarded, making the added money \$1,000.

The tournament will be closed on Saturday, with a big live bird handiego shoot,

gotten up. Upon a blue ribbon, inscribed with the name of the association and the date of the tournament, is suspended from a silver bar a medallion, pictured with a blue "bird." Yesterday afternoon the experts shot off

several matches. They were pretty well in trim and scored well. The results in the last two and more important of the races were as follows:

Deuer Budd Dickey Moore Fulford 11100-10 11111-2 11111 11111 11101 00111 11111 01111 11111 11111 01101 10101 11101 01111 01111 11111 11111 Smead .01110 01001 11101 1.07101 11111 01111 1.1111 11110 01111 1.1111 11111 11111 1.1111 11111 11111 1.1111 11111 01011 1.1111 11111 01011 1.1011 01111 01011 Gilbert
