

IN THE EDUCATIONAL WORLD

Nebraska Wesleyan University Now Enrolls Four Hundred Students.

GOOD WORK DONE AT THE INSTITUTION

Valuable Donation from Chaplain Nave Which Comfortably Endows the School for Several Years to Come.

The Nebraska Wesleyan university was established by the Methodist of Nebraska in 1857. It is located at University Place, a city of the second class, four miles north-east of Lincoln.

The present enrollment of students is about 400. The institution has received a valuable donation from Chaplain Nave, his "Typical of the spirit of the times."

Education in Japan. No stronger proof of the wonderful advance made by Japan can be imagined, says a writer in the Independent, than to find its technical schools presented in a leading London paper as a model for England.

The course of instruction is divided into a main, preparatory and a post-graduate course, extending over three years in the former and one year each in the two latter courses.

SHOT THAT KILLED TIEDEMAN

Surgeon Summers Testifies as to Condition of Wounded Man.

HIS INJURIES WERE NECESSARILY FATAL

Could Not Have Recovered and an Operation Would Have Hastened Death of the Dying Officer Was Clear.

Only a portion of the morning session of Judge Slabaugh's court was devoted to the Kastner trial, the balance being consumed in examining the jurors who reported for duty during the second three weeks of the May term.

Dr. J. E. Summers, jr., the physician who attended Officer Dan Tiedeman from the time of the shooting until his death was the first witness called by the state.

The doctor testified that the wounds upon Tiedeman's body and said that they would under all circumstances have proven fatal.

The testimony of the doctor showed that a charge of bird shot was fired into Officer Tiedeman's body, most of the pellets striking just outside of the median line, midway between the breast bone and the navel, and on the left side.

The cross-examination of Dr. Summers brought out nothing new. When examined concerning the wounds of Officer Glover, he testified that the doctor said and would have hastened death.

As a result a number of stockmen in the vicinity of McCool Junction are sending their stock to St. Joseph because of the superior train service offered in that direction.

When General Merritt Goes Through. General Wesley A. Merritt, who will lead the Thurston Rifles and other troops to the Philippine Islands, will pass through Omaha at 8:50 a. m. today.

Judges Have Little to Do. Judges Scott and Fawcett went through their calls and succeeded in finding a few unimportant cases that were ready for trial.

Tenners Transferred to Federal Court. Upon motion of the defendant the suit of Annie Novak, administratrix of the estate of Joseph Novak, deceased, against the Cudahy Packing company, has been transferred from the district to the federal court.

Douglas Addition Suit. Douglas county has brought suit against Thomas T. Maloney, Mary E. Costello, George W. Doane and W. G. Doane demanding that they be required to set out their alleged rights in the sum of \$961.25 allowed on the claim of Thomas F. Brennan who bought lots in Douglas addition.

Johnson Gets Promotion. The Kansas City, Pittsburg & Gulf road is rapidly pushing to the front the men it secured from the operating department of the Union Pacific.

Stickney Cuts the Rate. The roads in the Western Passenger association recently agreed on a rate of one fare plus \$2 for the round trip.

RAILROADS ENJOY THE WAR

Movement of Troops Makes Plenty of Business for Them.

EXTRA ARC LAMPS ON THE STREETS

Plan that Will Make This the Best Illuminated City in the World During the Exposition Period.

A committee of the business men of the city has decided to make the downtown streets of Omaha as light as day each night during the exposition.

This plan was substituted in the place of the one suggested by City Electrician Schurig to place arches midway in each block.

The expense of this scheme was considered altogether too great, although it would have been more attractive to the lights of these arches had been in different designs, made up of vari-colored lamps.

The merchants of the city are believed to be almost unanimous in favor of the plan. Papers are being circulated to secure their consent.

As soon as all the signatures of the business houses are secured they will be turned over to the New Thomson-Houston Electric Light company and work will be at once commenced on the installation of the lights.

A very good rate has been secured, the electric light company practically cutting its charges for light and construction in two. It is provided that the business men shall pay on July 1 \$2.50 for the cost of putting up the lights and the first thirty days of lighting for each twenty-two feet.

After that \$1.65 a month will be charged. If all the business men get into the scheme, however, the actual cost for each twenty-two feet in every block will be 95 cents, the agreement being that when the lights are discontinued the company will distribute pro rata the difference between 95 cents for each twenty-two feet and the total sum it collects.

This difference is held to protect the company in case any of the merchants try to back out of the agreement.

It is proposed to have the extra lights much lower than those on the street intersections which are now in place. It is the idea of the committee to have them only two or three feet above the trolley wires in the center of the street.

With this lighting of the streets the city will be able to more beautifully illuminate the streets during the Exposition than ever before. The entire \$2,000 that will be spent for this purpose can be used up in the formation of handsome designs, inasmuch as no portion of it will be needed to light up the streets.

The question of illuminating the city hall during the exposition is in a rather unsatisfactory state. The council has taken no action yet and has given no symptoms of doing so.

City Electrician Schurig says that he will do everything he can as soon as the aldermanic body gets a move on itself.

SUMMER STREET LIGHTING

ENTERTAIN STOCK SHIPPERS

Live Stock Exchange Decides on a Banquet for the Visitors on Thursday.

At a meeting of the Live Stock exchange held yesterday afternoon it was unanimously voted to do the handsome thing by the members of the Live Stock Shippers' association who are expected at the yards on Thursday.

The entertainment will take the form of a banquet in the dining room of the exchange building at which the live stock shippers will be the guests of the commission men and the Stock Yards company.

J. A. Hake has been selected as toastmaster and the program will consist of an address of welcome, followed by the toasts and responses enumerated: The Nebraska Live Stock Shippers' association, W. R. Thurber of Ogden, the National Live Stock Shippers' association, W. D. Clark of Dwight; the banker and the live stock trade, T. B. McPherson; Nebraska as a sheep state, Peter Jensen of Jensen; the live stock industry from the packers' view, J. S. Knox; Nebraska from the National Mail propaganda, R. M. Allen, Ames; fine stock breeders, C. H. Elmendorf, Burlington; the press, Bruce McCulloch; South Omaha and the Transmississippi Exposition, J. H. Van Dusen.

HE STOLE A BICYCLE

Frank McCall, a boy about 14 years old, stole a bicycle from in front of a commission house near Howard and Eleventh streets and rode the way for several days.

Yesterday it was found in his possession and he admitted having stolen it. He was immediately locked up and will have to answer to a charge of larceny.

HAD STOLEN POTATOES

Yesterday afternoon seven sacks of potatoes were stolen from in front of a commission house on C. H. Mullin at 418 South Eleventh street. The potatoes were found afterwards on a peddling wagon belonging to William Tracy and Frank Delberg and the two men were arrested on a charge of larceny.
