association. It was a sizzling hot day on the bottoms, but the cracks biffed the blue rocks in excellent shape-possibly too much so for their mutual satisfaction, as pretty nearly everybody came in for a share of the moneys in all the events.

There was not a single event on the card which was not closely contested. In the ten events there was an average of thirtythree entries, and the average in for a share of the purse was twenty-seven and a little over. The fourth shoot furnishes a good example of the way things went. There were twenty-seven starters in that and every single one of them was in for a piece

Rolla Heikes and Powers tied for the highest average, each smashing 194 out of the 200 targets thrown. Parmelee was in line for a share of this extra purse up to the very last match. Ther he missed four in the last twenty and that put him back to a score of 190 out of 200. On the face of the returns these shooters did the work, but during the day every one of the contestants had a chance to display the sort of stuff he was made out of.

Ten events were pulled off during the day. Each was at twenty targets, known trap and unknown angles. The entrance fee was \$2.50 and to this was added \$25. The program for today is exactly the same. The results yesterday, including only those in on the money, were as follows:

OBJECT TO CORPORATION TAX

Senators Platt and Lindsay Make Arguments Against This Feature of the War Revenue Bill.

WASHINGTON, May 24.—That feature of the war revenue measure representing a tax of 1 per cent upon the gross receipts of corporations was under discussion in the senate throughout the session. Incidentally the proposed tax on bank deposits was adverted to.

The speeches were delivered by Mr. Platt rep., Conn.) and Mr. Lindsay (dem., Ky.), both of whom attacked the corporation tax. The weight of the former's argument was

be levied when it was fair, but a corporation could not be taxed samply because it was conducted as a corporation. To be equitable the tax must be laid on the business, whether it was conducted by a corporation, a partnership, a firm or an individual.

Mr. Lindsay vigorously antagonized the proposed issue of legal tender notes, declaring that it accentuated the existing menace to the gold reserve of the treasury, and was, besides, the dearest money ever devised. He held that such an issue would be a blow to the nation's financial credit. He, too, presented an argument against the proposed corporation tax, maintaining that if enacted into law it would breed a batch of law suits, instead of providing what the government needed-ready money with which to conduct the war operations.

Tomorrow the senate will resume the discussion of the pending measure an hour earlier than usual, the session beginning at
