Ready to March with His Regiment as Soon as it is Raised.

SOME UNCERTAINTY AS TO ITS FUTURE

Where to Mobilize the First Matter of Importance-Ed P. Smith Has a Plan to Succeed C. J. Smyth.

LINCOLN, June 2 .- (Special.) -- During the day nothing further was received from the War department regarding the calling of the Third regiment from Nebraska, but some definite instructions are anxiously awaited, it is conceded that Mr. Bryan is to have a chance to make a military record in case more troops are taken from this state, but the quention of the time and place for order tomorrow at 2:30 o'clock. the mobilization is one of general interest. Insumuch as the new troops will be without tents or equipment of any sort it is the be lief in official circles that the mobilization will be at Omaha or that the companies will be mustered in at their home towns and be formed into a regiment only after they are ready to leave the state. The latter plan is regarded with favor and it is probable that the general mobilization at Omaba will be asked for, although there is an effort being made to have the troops brought to

Just how full the companies are that were selected by Mr. Bryan cannot be definitely learned, the reports conflicting. Bryan's personal organ here gives out the statement that the men for the new regiment were practically all enlisted several days ago and that "when the call comes the mobilization can be effected within a month or six weeks." This is not regarded as very fast time for the calling together of a regiment that already has its men enlisted.

Ed P. Smith's Ambition. It is rumored that Ed P. Smith, deputy attorney general, has his resignation ready to hand in, so that he may take the field as captain of an Omaha company in Bryan's regiment. It is intimated by some that Smith will not wait until after taking the physical examination to hand in the resignation, as he had contemplated getting out of the attorney general's office before the military scheme came up. The reason given for this is that he was ambitious to succeed Smyth and thought that being a private citizen would give him a better chance for the nomination, and would at the same time relieve him from any entanglements in case Smyth desired a renomination. If Deputy Smith really has any such political ambitions, the general opinion is that the military move is a happy addition to the

Secretary of State Porter is still suffering with the ear trouble contracted about two weeks ago and his condition has been such as to alarm his friends. The constant pain has had a bad effect on Mr. Porter's nerves and he is not bearing up so well as he did a few days ago. The physicians believe that the trouble will be remedied in a short time, as it seems to be an abscess that has formed in the car, and which will require time to break and heal. Whether it will result in partial loss of hearing cannot be told at this time. The abscesses formed in both ears, and the one that was lanced a few days ago is beginning to heal.

# Lincoln Local Notes.

The Lincoln people who went to Omaha yesterday expecting to find the exposition in an unfinished condition and a small show in general, were agreebaly surprised, and there is today ten times more interest in the exposition than there has ever been. The size and architecture of the buildings come in for much praise, while the exhibits are declared to be most satisfactory. All of those who made the trip yesterday are enthusiastic today, and their words of praise will help increase the attendance from Lincoln from now on. The only complaints heard are about little things that can be remedied, such as the defective fountains, Those who were at Chicago on the opening day of the World's fair say that the exposition is nearer completion and is a more comfortable place for visitors than was the big Chicago show. It is a fact that the people of Lincoln have heretofore shown very little interest in the success of the exposition. It is evident now that it will all be wiped out during the exposition season, and no visitors to Omaha will be more enthusiastic and appreciative than those from Lincoln.

The loss of the Worthington Military academy by fire yesterday is keenly felt, and it is believed that the building will be rebuilt, or that the now unoccupied building of the Western Normal, just west of the city, will be secured for the future use of the academy. The building destroyed yesterday was owned by the Grand View Building association. Insurance was carried in of the city uniting. COLUMBUS, Neb., June 2 .- (Special.) --Ernest Krause, aged 18 years, son of Gottlieb Krause, a prominent farmer of Grand Prairie township, was very badly injured in a runaway accident this morning. He was coming into town on the running gear of a wagon after lumber and when near the city limits on the north a team following him became unmanageable and ran away, jumping squarely onto his wagon and onto him, trampling him badly and running over him. He was taken to St. Mary's hospital where it was found that he had suffered a fracture of the skull, beside other

injuries about the head and face. The chances are against his recovery. The remains of Julius Rasmussen, who died early Wednesday morning in a bath room at Omaha, arrived today noon. They were met at the depot by a delegation of Mazons, of which order he was a member, and the funeral will be conducted by that

At both meetings there was a lot of talk According to a cut and dried plan both appointed committees to see each other and feel how each other stood upon the proposition of holding conventions. "Colonel" Bryan opined in the hearing of the democrats that the convention should be held after the republicans held theirs and then he opined likewise in the presence of the free silver republicans. Both opinings had due weight and the result was the appointment of the conference committees.

Both committees favored Omaha for the clace of meeting. As to the apportionment of delegates the democrats placed it on the same basis as last year-on the vote cast for Bryan in 1896. That will give them about 1,000 delegates in the convention. The free silver republicans based the apportionment upon the vote cast for Connoyer for state regent and two additional for each county, making the number of delegates

Mr. Jenkins attributes the excellent financial condition of the state at present to the fact that a variety of crops was raised last season and the large yield of small grain brought high prices and was readily convertible into cash. In states which raise less small grain money is much less plentiful because corn has not brought a very good price and feed cattle have been so high that there was little money in feeding stock. The acreage of wheat for this year, Mr. Jenkins says, is much larger than that of last year and the conditions so far point to a large Throughout the state merchants and ers are of the opinion that wheat will bring good prices, as well as barley and other small grains, and all are anticipating the valuable crop ever harvested in the

WHEELING, W. Va., June 2.—In the second trial of Mrs. George W. Atkinson, wife of Governor Atkinson, on the charge forgery, and jointly indicted with J. P. Owens as accessory, Judge Blizzard today sus-tained the demurrer of the defense, which was argued yesterday, and so far as Mrs. Atkinson is concerned, she is temporarily released. The decision was upon a technical oint of law involving the necessity of alleging the "guilty knowledge" in the in-dictment. The decision does not reach the said he would ask the senate to remain in merit of the case and does not preclude auother indictment.

Government Foots the Bill from Time Guardsmen Reported for Mobilination.

LINCOLN, June 2 .- (Special Telegram.)-General Barry has received a letter from Congressman Stark stating that the government would pay the Nebraska soldiers from the date that they reported at their company headquarters for mobilization, and while yet members of the National guards. Whether this applies also to the members of Culver's cavalry is not stated. in the latter case the cavalrymen were assembled at Milford several days, but being mustered in the same day that they arrived at Camp Saunders, they were allowed no pay from

# FASHIONABLE SICKNESS.

Physicians Who Treat Women Often Lack Discernment.

THEY DO NOT GRASP THE DEPTH OF THE SUBJECT. We often read of women who patronize

the physician for a so-called slight aliment and seem to be always sick and yet are able to be round. But at length these women abandon the physician and take up with one or more of the numerous bottled remedies so widely advertised. The real truth of the matter is that the physician does not divine the true state of affairs nor is the bottled remedy of the slightest aid. When a woman suffers with leucorrhoea or womb displace-ment or painful monthly sickness she goes to the doctor in the hope that she will get a medicine that will help her. And she almost invariably fails. She takes up with the stomach dopes of commerce with the same hopeful feeling. And there too she fails. The whole plan of treating women by such means is radically wrong and all women who suffer realize that such is a fact. There is only one method whereby women may cure herwelf of the distressing condition known as female troubles and that is by local application. There is a remedy recently introduced that has worked wonders in curing all forms of womb troubles.

It is called Hazeline, put up in the form of

suppository which is applied directly the diseased parts. Any woman can apply it herself and she needs no doctor nor assist-ance of any kind. Drugglets in Omeha at 1523 Farnam street, 125 South Fifteenth street and at 1513 Dodge street keep Hazeline in stock, but if for any reason a woman dislikes to ask for it or cannot induce her husband or brother to call and get it for her, she may send one dollar to the Hazeline Co., South Bend, Ind., and they will mail prepaid one box of Hazeline, Every woman who suffers should try this marvelous rem-edy. It has never falled. Write to this firm for their book which shows conclusively that their method of treatment is just what every woman needs. The book is mailed
