Buying by Shorts.

JULY IS LOWER AND SEPTEMBER HIGHER

Other Markets Are Also Stronger, Corn. Onts and All Lines in Provisions Showing Material Gains.

CHICAGO, June 26 .- On Important buying by shorts wheat today more than recovered from an early slump. July closed with n loss of %c, and September left off with an advance of 5-80%. Corn and outs rose 2-8c each, pork gained 25c, lard 7% and

Unfounded rumors that some one in the grain business in the northwest was in trouble, the clear weather and the demoralized foreign markets, started wheat weak. For about fifteen minutes a sufficient number of shorts were induced to cover to keep the price within the limits of the opening range. But reports of harvest operations being resumed where they have been interrupted by rains and every indication of a gigantic crop, together with the extreme difficulty of marketing it abroad, caused a gnick break. July, which sold at the close Saturday at 72½c bid, declined to 70c; September lost 11-8c, selling at 95.7-8c, and December sold off 13-8c at 66½c. Within an hour however, the sentiment showed a change. The market here paid no further attention to bearish news, as shorts were evidently impressed with an idea that the crice had already declined sufficiently. On price had already declined sufficiently. On that theory and an emphatic denial from the northwest of all the rumors that had been current early, together with the development of a good cash demand, shorts bought freely and kept the price rising until the early loss was more than recovered. Liverpool started at 2½d decline for July and 1½d each for September and December, and subsequent quotations from there came lower and lower until the final report, which showed July 5½d lower for the day, and the later deliveries 3d lower. The world's shipments were 19,117,000 bu, compared with 5,135,000 bu, the similar week of 1857. Chicago got ten cars and Minneapolis and Duluth eighty-seven, against this had already declined sufficiently. compared with 5,135,000 bu, the similar week of 1897. Chicago got ten cars and Minneapolls and Duluth eighty-seven, against thirty-one at the two latter places last year. July opened 4,2014c lower at 712,714c, sold down to 705,c, up to 705,c, down to 70c, advanced to 73c, then fell off to 72c bid, the closing price. September started 3-8c lower to 1-8c higher at 665-8067,7-8c, fell to 857-866c, firmed up to 677-8c and sold at 675-86675c at the close.

The improvement in the weather had a weakening influence on corn at the opening.

weakening influence on corn at the opening Later it recovered all the early decline and Later it recovered all the early decline and 3-8c more on important buying by shorts. July opened 3-8c down at 315-80/32c, declined to 315-8c, then rose to 325-80/32%c asked, the closing price.
Favorable crop reports and weather forecast created a weak feeling in onts at the start. Later, however, the loss was all recovered on general advance in corn. July opened 1-8c lower at 23%c, declined to 235-8c, rose to 24½4/243-8c, then settled to 24%c at the close.

rose to 244,5424 3-Sc, then settled to 214c at the close.

The buying of provisions was much better than the selling and prices, after yielding a little early, recovered sharply. July pork started 23c higher at \$5,575, declined to \$5,55, then firmed up to \$9.50, the closing price. July lard began unchanged to 23c lower at \$5,70 and sold at \$5,80 at the close. July ribs opened 5c lower at \$5,60 and rose to \$5,55 asked, the closing figure.

Estimated receipts for tomorrow: Wheat, 9 cars; corn, 575 cars; oats, 200 cars; hogs, 27,000 head.

San Francisco Wheat Market.
SAN FRANCISCO, June 20.—WHEAT—
Casy: Decemer, 11.20 5-8. sellers.
BARLEY—Easier; December, 11.14%. STOCKS AND BONDS.

There is a General Appreciation in Values Shows.

NEW YORK, June 20.—Stock values generally appreciated in value today to the extent of important fractions in the standard shares, while the improvement was considerably greater in some of the specialites. At the opening the bears attempted to repeat their successes of last week and in the first quarter of an hour brought about recessions in the prices of some leading specialites, but the railways showed resistance to the selling movement. The earnings of the railways for the second week of June generally showed increases. There was evidence of heavy purchases by houses representing substantial interests, which quickly steadled the market and eventually brought about advances well above Saturday's closing, although realizations at times retarded the improving tendency. Covering in the grangers was partly attributed to the clear weather over much of the crop area. The rising movement in stocks was partly credited to the inability of the bear faction to bring about points on Philadelohia advices that the directors would authorize the issue of additional stock at par to the present holders. Other specialties, after an early momentary, heaviness, also moved up sharply in component with the pronounced tendency of the general market. People's Gas was a conspicuous example and after dropping to subsequently bounded up above 37 on indications that the stock was being accumulated by substantial interests. Trading was dull and largely centered in the special test issues. Fluctuations during the forenoon were slightly lower, but the market subsequently gained strength and There is a General Appreciation in

..2,303 3,060 Receipts of stock of all kinds were light and the general market was without any very new or interesting feature. CATTLE-On Saturday South Omaha had about all the cattle that were on sale, but today Chicago had the big run and in con-sequence broke the market. Early advices from that point quoted the market a flat 10c lower, which created a bearish feeling

lic lower, which created a bearish feeling here.

The local demand for handy light and medium weight cattle was very active and in spite of reports from other markets that kind of cattle sold at fully steady prices. The supply was limited and everything that would answer to that description was sold and weighed up at an early hour.

Heavy cattle, which constituted the bulk of the offerings, did not move off as freely and buyers were decidedly bearish on that of the offerings, did not move off as freely and buyers were decidedly bearish on that kind of stuff. They did not succeed, however, in forcing the market down more than 5c, as a general thing, though as a matter of course there were instances where cattle that were rough and for that reason not particularly desirable, may have sold as much as 10c lower. Sellers were a little slow to part with their holdings of heavy cattle at the prices bid and for that reason the morning was well advanced before a clearance was effected. In the end, however, practically everything changed hands.

hands.

The offerings of butchers' stock were very light, only four or five loads of cows and helfers being offered. One bunch of heavy fat helfers, part of them spayed, brought \$4.40, showing that well finished stuff will bring good prices. Buyers were talking about prices being too high and claiming that cows were selling for as much here as they would bring in Chicago and it is probable that had there been any number on sale they would have pounded the market good and plenty. As it was, with only a few loads of fat cows here, the market was weak to a little lower. with onlya few loads of fat cows here, the market was weak to a little lower.

The supply of stockers and feeders was considerably larger than has been the case on most days of late. In addition to the usual run of odds and ends there was a train of Oregon cattle. The Oregon year-lings brought \$4.55 and the 1 and 2-year-olds \$4.50. The market on that kind of cattle is hardly as strong as it was and it is coming a time of year when it would be only natural for them to sell a little lower. At the high time the yearlings would prob-At the high time the yearlings would probably have brought \$5.00. The market is still high for stock cattle and the country demand is all right. Representative sales: STEERS.

HOGS—There was just, a fair run of hogs for the first day of the week, though arrivals were somewhat larger than a week ago. As is very apt to be the case on a Monday when the receipts are light there was very little of interest in the market to speak about. Buyers started out talking easier prices than dy Saturday, but the market as a whole was very little changed. The hogs sold at the same range as on Saturday, that is, at 13.75673.85, with the long sold at the same range as on Saturday, that is, at 13.75673.85, with the close of last week. It was not quite so easy to get the price; as on Saturday, but there was hardly enough difference between the two days to admit of any difference in quotations. The buyers apparently wanted the hogs at the money and everything was sold and weighted up in good season.

The week opens with the market a good

thing was soid and weepens.

The week opens with the market a good for higher than it was at the opening of last week, but 20c lower than it was two weeks ago, and 30c lower than three weeks ago. Hogs are now selling 65c higher than one year ago and 85c higher than two years ago. Representative sales:

New York Dry Goods Market. NEW YORK, June 20.—Today's dry goods narket showed firmness throughout. Ir NEW YORK, June 29.—Today's dry goods market showed firmness throughout. In staple cotton lines the demand is fair at the prices quoted. Bleached goods have sold quite freely since the late reductions and fair-sized mail orders have come in and are still arriving, but the results have fallen far short of the hopes of agents and commission men. In brown goods there is little change. Export goods are irregular in demand and quiet. In prints excellent results have been obtained in fall fancies. Every prominent manufacturer has fallen into line and all are achieving good sales. Other lines of prints have gained strength in sympathy with the movement in dark fancies. The market for ginghams and similar lines of woven colored fabrics continues strong, and in good shape. Cotton dress goods are in fair demand, though irregular in prices. Napped printed fabrics show continued activity and some strength.

Kansas City Grain and Provisions. KANSAS CITY, June 20.—WHEAT-rregularly lower; No. 1 hard, 76@77c; No. 70@75c; No. 1 red, 75@77c; No. 2, 72@77c No. 3, 70c asked; No. 2 spring, 73@75c; No 3, 656/70c. CORN—Lower, fairly active; No. 2 mixed, 316/31½c; No. 2 white, 31½/032c; No. 3, 31¼/0

\$2,000 a year

Hence We Persist

who work in cages, slave in hot base-ments, ruin eyes and health over books, destroy nerve and life amid the dust and rattle of machinery,

TO THE FAIR FREEDOM And health of a fruit farm home in our beautiful Pacific coast land.

Because It Is True We invite you to take this year's va-cation for a trip out there

To See With Your Own Eves And feel with your own senses that we have been telling the truth all these years.

The First Excursion Goes July 1st.

Via Rock Island Route, Denver, Salt Lake, Portland, to Astoria, the Pacific ocean, over which our soldiers sall, to the Cascade lakes—the biggest on earth—a work that cost the governearth-a work that cost the ment millions of money and twenty-feur years to build, to the Willam-ette tails, the largest on earth, where clear mountain waters fall into the tides of the sea, and yield as they fall a hundred thousand horse power, to the completed works of Masa; to the far-famed Willamette Valley, where roses bloom twelve months in the roses bloom twelve months in the year and wheat yields SIXTY bushels

To Clarke Co., Washington.
