Enthusiastic Assemblage at the Cap-Ital City Reaffirms Its Faith in Republican Principles and Pledges Support to the Party.

LINCOLN. June 23. - (Special.) -The Lancaster county republican convention met at the Funke opera house this after-Lincoln Frost, chairman of the county committee, read a telegram from Congressman Strode, congratulating the delegates in advance on the outcome of their deliberations

Captain L. W. Billingely was made chairman of the committee. The first work of the convention was the nomination of a candidate for senator from the county precinets. Jacob Roche, a German farmer living near the town of Roca, was nominated on the first ballot, in spite of the fact that up to the time of the announcement of the vote he declined to be a candidate. He received 287 votes, J. C. F. McKesson 57 and G. W. Eggleston 110. The nominee, Mr. Roche, is an old soldier, was county treasurer of Lancaster county several years ago, and is one of the most substantial cit-

izens of the county. The other candidate, A. R. Talbot, from this city, was nominated by acclamation.

The candidates for the house nominated were as follows: George W. Anderson and Henry Harkness from this county. Paul F. Clark, Joseph Burns and A. W. Lane from the city. T. M. Munger was nominated county attor-

a ney and Fred Beckman for commissioner, both by acclamation

The convention adopted the following resplations:

The republican party takes no backward step on the money question. It is opposed now, as it was two years ago, to the free and unlimited coimage of silver. We con-

gratulate the country upon the wonderful prosperity that has come to all our people during the maintenance of the existing standard of values. We confidently predict that with the present higher prices for our products and increased wages for labor and the advent of new public questions the free coinage delusion will soon disappea a a disturbing element in national poli
