CAPTURE TWO SPANISH PRIZES

Schooners Gibara and Expresso Fall Into the Hands of Americans -Situation at Gibara.

KEY WEST, Fla., July 30 .- The Spanish two-masted schooner Gibara, loaded with firewood and charcoal, which was captured by the Nashville on July 27 while trying to get into the port of Gibara, on the north Cuban coast, was brought in here this morn ing by a prize crew.

The Expresso, another schooner of the same size as the Gibara and with a like cargo, was taken by the gunboat Nashville at the same time. Both vessels were lying in the harbor and made no resistance. On the contrary, the men on board the two schooners were eager to be brought to this country, but Ensign Snow, who took charge of the Gibara, put the crew of six ashore and brought away only Captain Miguel Castel, his wife and child, and cook,

All the papers aboard both schooners had been destroyed before the capture, but it is known both vessels ply between Gibara and and Havana. There were about 150 tons on board each. The Gibara is in quarantine here. The Expresso has not yet arrived

Fred Caldwell, traveling passenger agent of the Rock Island, has returned to Omaha, after having accompanied a battalion of the Third Nebraska regiment to the front. While Caldwell was talking with three or four other railroad men yesterday a street gamin went by, singing: "Oh, the bums that used to ride upon the Wabash," That started the talk upon the class of travel that patronizes the blind baggage exclusively, and Caldwell related this tale:

"After we pulled out of Council Bluffs with the second battalion of Colonel Bryan's regiment some of the soldiers discov cred that there was a pair of hoboes on the train. They were seated on the platform steps between two of the coaches and were enjoying a fine ride on the special when a council of the soldiers decided to have some fun with them. We are just two men short in this regiment, and we'll take you to fill these vacancies. But first we must have you examined by our surgeon to see that you are physically sound."
