MINING IN THE BLACK HILLS

News of Interest Gleaned in the Rich Mineral Regions of South Dakota.

DEADWOOD, S. D., Aug. 7.—(Special.)—One of the best propositions in the Ragged Top district is the Crown Hill mine, which is owned by Hon. S. E. Young and associates of Sioux Falls and eastern cities. It is situated a short distance from Crown Hill station, on both the Elkhorn and B. & M. railways. There are four shafts and one tunnel on the property. A force of men is at work in one of the shafts, developing a new body of ore. The shaft is down about fifty feet, and is within ten feet of sandrock, where it is expected a good body of ore will be found. In all of the shafts and in the tunnel, an unlimited amount of low grade ore has been uncovered. About 300 tons of ore are on the dump, which will average $14 a ton in value. The Spokane mine, in Custer county, owned by the same company, is proving to be much better than was expected. A crosscut has been run about seventy feet east and west at the sixty-foot level and another forty-foot drift has been run at the 100-foot level. There is a body of ore fifteen feet wide exposed, the center of which is almost pure galena. The outside of the vein is rich with iron, copper and lead. The company will put in a concentrating plant very soon, and it is planned to erect a smelter at the mine as soon as the shaft is put down to the 200-foot level. A new hoisting plant is being put in now. It is thought the B. & M. will build in to Keystone on its surveyed route, which passes the Spokane mine. The company plans to treat all of the low grade ore from the Crown Hill mine, at Ragged Top, at the smelter at Spokane.

The Beaver Creek Mining company has forty claims between Beaver and Bear creeks in the Bear Gulch district. The company is composed principally of men interested in the Crown Hill company. A shaft has been put down ninety-five feet, through mineralized porphyry and shale. A whim is being put in to hoist ore with. The district has a very dense growth of pine timber. About $4,000 worth of development work has already been done on the property. A. Beverage of Sioux Falls is secretary and general manager of the company.

F. M. Wall is one of the heaviest shippers of ore from Ragged Top. The average returns from the last three carloads were $104, $48 and $52 a ton gold. All of the ore in this district comes from surface workings and there is no other district in the Black Hills that is so little understood. It is generally believed that Ragged Top will be one of the richest mining camps in the Hills when quartzite is reached.

The Two Johns mine is about a half mile east of Crown Hill station. It has been a great producer, but there is some litigation over a recent sale and no shipping is being done at present. There are about 4,000 feet of tunnel, drifts and crosscuts in the mine, which pass through a great many stringers and veins of low ore which will average $12 and $14 a ton. Some veins of high grade ore will go $60 and $100 a ton. The dump is being filled with a good grade of ore. There is great need of a cheap way of treating the low grade ore in this district. With the improved process of cyaniding, ore could be treated at the mines for $3 or $4 a ton, which would give a good profit on $12 ore. Ore of this grade cannot be shipped to outside reduction works because of freight rates and custom charges. The question of erecting some sort of a reduction plant in this and Ragged Top districts is receiving considerable attention, and there is a strong probability that some of the principal mine owners will unite in the project.

The Gushurst property joins the Two Johns on the north. Prospecting is being done in a 350-foot tunnel and a vein of good ore was struck the first of the week. There are two other workings which are extensive, higher up. The mine last year was a great producer, but the ore pinched out. It is owned by P. A. Gushurst of Lead and John Wolzmuth of Spearfish.

A good shipment of ore was made last week from the Warner claim, on the Ulster property, under lease to H. B. Swain and associates, at Ragged Top. The leading shippers from the district now are: Allen & Small, Starner Bros., F. M. Wall, W. E. Nutt, W. E. Sharpe & Co. and H. B. Swain and associates. Ragged Top is shipping now as much value in ore as any other district in the hills. The grade of ore is higher than the general average.

Work is to be resumed on the O. J. Barrett property in Butcher's gulch. There is a shaft on the National Bonanza 140 feet deep which is to be sunk deeper.

The John and Jack mine in Ruby basin is being prospected by a Pennsylvania oil well drill, which is something new for the Hills and is much cheaper to operate than the diamond drill.

A number of coal miners from Colorado, have gone out to the Hay Creek coal mines to do development work preparatory to shipping coal as soon as the road is completed from Bell Fourche into the coal district. The first mining of coal will be done in the Larabee tunnel, which has been opened before. The company has purchased two large buildings at the terminus of the road and a large general merchandise store is to be erected. The force of men and teams on the railroad has been increased.

Placer mining in most parts of the Hills is having a set back because of the drying up of the streams of water. The season has been as long as usual, but for the next month, most of the placer miners will be compelled to abandon work. There is usually a short time before severe winter commences, during the fall rains, when considerable placer work can be done.

A drift has been run in on the Harrison mine thirty-five feet, in ore all the way. Three carloads of ore were shipped this week which averaged $80 a ton gold. The mine is north of Lead.

Will Save Their Money Now.

WATERTOWN, S. D., Aug. 7.—(Special.)—In the council of the Sisseton and Wahpeton Indians on the reservation last week they unanimously decided to accept a payment of $150,000 out of the moneys to their credit held in trust by the government. They passed resolutions to the effect that hereafter they would refrain from getting into debt and would give no more chattel mortgages on their property. The resolutions were passed in conformity with a request from the secretary of the interior. They also promised not to ask for any more of the principal, but will be satisfied with the interest, during this administration.
