## ANOTHER ISSUE EXPLODES

Premium on State Warrants Too Much fo Popocratic Statesmen.

ADVANCE DUE TO SILVERITES' DEFEAT

Rout of the Cheap Money Cohorts Followed by the Prosperity of Which the Leaders Now So Proudly Boast.

LINCOLN, Aug. 8 .- (Special.) - Just at present populist newspapers and statesmen are laying great stress on the fact that state warrants are at a premium, whereas they were at a discount two years ago. The intention of the popocrats seems to be to go before the people with an argument that this change in values is entirely due to the efforts of the present state administration. In fact this is to be one of the leading issues of their campaign and they expect to fool a large number of people with this sort of argument. They will totally ignore the fact that Lincoln city warrants, Lincoln school warrants and all other warrants or bonds within the state offering money are also above par, a sure indication state administration is not entitled to the credit of changing the money situation.

A prominent business man of this city, in speaking of the premium on warrants, "In 1896, when an attack was being made on the monetary system of the country and there was a manifest desire on part of the popocrats of the United States to debase the currency and pay debts of all kinds with 50-cent dollars, it was natural should be no demand for warrants, bonds or other paper of that class. State warrants were below par for want of bidders and the warrants of the city of Lincoln went down so low that they were out of the market. The prices have gone up simply because the financial system of the market is full of money hunting for investments. State, city and school warrants are above par and even the simple 'I. O. U.'s' of the Lincoln fire department are bringing 100 cents on the dollar for the first time. The popocratic state officers are entitled to no credit. In fact the condition of affairs is exactly what they tried to prevent when they waged the free silver campaign in

Banks Have Plenty.

Another proof that the plentitude of money is what brings warrants to a premium lies in the fact that banks are refusing to pay interest on individual deposits and that many of the institutions that are legal depositories of the public funds are declining to pay the customary 3 per cent and are making a united move to have the rate reduced. They find it difficult to invest or loan the money at a profit, and in some cases find it necessary to buy state warrants with the money of depositors in order to keep it busy. The individual who has a few dollars idle and is refused interest on his deposit at the bank is glad to invest in warrants even though the net earnings are less than 2 per cent per annum. The attaches of the state house themselves buy up state warrants with their surplus money rather than to deposit it in banks or seek for borrowers in a market that is already crowded with idle capital. These conditions and the positive proof that practically the same change has been brought about in every state in the union will not prevent the local popocrats from distorting the facts A. Williamson; chairman of county central from the stump in every county in the state, and word has already been sent out to the country papers to take up the cry about "the state warrants that have gone to a premium under populist control."

The distortion of facts and the using of filmsy arguments is only an indication of the condition in which the popocratic party F. B. March; surveyor, to fill vacancy, T. finds itself at the opening of the present R. Evans; commissioner Center district, S campaign. There is a feeling general that D. Stuart. the republican state ticket may be elected. and that the legislature will also be republican. The members of the party at the state house admit this, the local popocratic organ tells of the imminent danger of defeat, and the editor of the Omaha organ has W. A. Keyster, M. A. Horton, L. Weston ers that Poynter cannot be elected. This discouraging state of affairs is not improved by the news that comes from the congressional districts. In the First the election is conceded to Burkett, the republican nominee, and the fusion campaign will all be in the interests of the state and legislative tickets. No hopes are entertained of defeating Mercer in the Second. The condition in the Third with the party divided on the advisability of renominating Maxwell, is admitted to be The Fourth district fusionists said long ago that no man except Stark bad a show of running against a republican, and they are not sure that Stark can pull out a victory. Sutherland in the Fifth is not considered as strong as he was two years ago, and news of disaffection comes down from the Sixth, where Bill Greene received a renomination at the hands of a minority of the representation of the district.

LINCOLN, Aug. 8 .- (Special.) - Although the atendance at the Epworth assembly reached fully 6,000 yesterday, the number would have been much larger but for the misunderstanding brought about by the announcement that no tickets could be purchased on Sunday. Many of the prominent leaguers have decided that it is a mistake to refuse to sell tickets on Sunday, it being no more barm to sell the tickets than to admit the people and derive benefits on that day.

Today the weather was perfect and there was a good crowd on the grounds in addition. The program was an interesting one and there was a special drawing card in the form of a jubilee concert this evening, which drew many people from the city to the grounds toward night.

The prophets are now busy again. But they have discreetly waited this time until they could speak with pretty accurate authority. The crisis is now passed for a large share of the wheat belt of Minnesota and South Dakota, and the elevator men are preparing to speak for crop prospects for 1898. In brief, they are entirely satisfac-It may not be a bumper year, but the tory. records of 1891 and 1895 are going to be pressed very close. Harvesting in the southern half of Minnesota and most of South Dakota is already finished, or nearly so, and in some of the southern counties stacking is in progress. In these sections it is possible to give at least an approximately correct idea of the situation.

With the exception of a more or less ex tensive district in the Jim river valley in South Dakota, the prospect are for a yield asking for the pardon of Robert Hicks, sen and a quality in these sections, almost, if lenced for life from Pall River county is not quite, the equal of the famous crops of 1891 and 1895. Early in the spring, and continuing for some time after seeding, there was a serious drouth in the Jim river valley and the stand is thin there and a small crop will be the result. Everywhere else along the southern and southwestern and western roads, farmers and elevator men are enthusiastic over the outlook, not only for wheat, but for all other small grains and corn. A large and No. 1 Northern in grade is the talk among the men familiar with the conditions in that great territory. Two and three times the amount of flax that was handled last year is reported to be the case along the southern lines, To the northwest, usually the favored section, the reports are cheering, but hardly so much so as the south and southwest

The grain is not so far advanced and there is less certainty in the predictions. Good, and very good, are the prevailing reports here, with notable exception of sections comprising part of several counties in the Devils Lake country, where early spring drouth made a bad mess of it. Smut ha done some little damage in spots all through the northwest, and the demon hall has de vastated other small sections. While there is no talk of bumper crops from this section of the wheat belt, the elevator men are confident of at least an average yield with possibly some improvement on this.

In this state the anti-fusion democrats are fighting for principle, and their whole aim is to crush populism and preserve the democratic organization. Twelve years ago received 116,000 votes for governor, but, after our people went into this fusion deal, the votes began to dwindle away, and we were almost absorbed. What we want to do now is to reorganize the democratic party of Kansas and start over."

Fixes Tax Levy.

PIERRE, S. D., Aug. 8 .- (Special Tele gram.)-The State Board of Equalization and Assessment completed its work today and made a tax levy of 3 mills on the dol lar, which is 1 mill less than the levy of last year. The levy is 2 mills for general fund and 1 mill board interest and sinking fund. A flat levy of 32 mills was made on telegraph, telephone, express and sleeping ear companies, which is in lieu of all other taxes in the state. The valuation will be practically the same as it was for last year. Resolutions were presented bearing on the question of railroad assesments, one by the governor, aking for reconsideration of the assessment for the purpose of a raise and the other sustaining the action of the board as being based on the valuation fixed by the railroad commission, who were in a better position to judge of actual value than any ndividual member of the assessment board

Cannon Will Be Spiked.

SALT LAKE CITY, Utah, Aug. 8 .- (Spe ial.)-At a meeting of the democratic state committee, September 15 was named as the date for the state convention. No action was taken on the question of fusion, but the subject was referred to incidentally Out of an attendance of thirty-five but one member expressed himself in favor of fusion, and that one took pains to state that this point John Pettys drew a revolver and he would abide by the decision of his party, It seems to be the generally accepted belief that the democratic convention will reject nurderous assault until Felker dies, when the fusion proposition, owing to the small ness of the silver republican vote. The latter asks the re-election of Senator Cannon. Judge King, the present congressman, is the leading democratic candidate for the senatorship.

> Texans Preparing for Their Day. AUSTIN, Tex., Aug. 8 .- (Special.) - August 18 is the Texas day at the Omaha Exposition. It is the present intention of Gov ernor Culberson to be present on that day in company with his cabinet and a few lady friends, including the wives of the governor and his cabinet. The party will leave here on August 15 and proceed direct to Omahi on a special train arranged and forwarded for the party alone. Governor Culberson has invited ex-Governor Hubbard of Tyler to be the orator upon this all importan day, and he accepted the honor. The gov ernor anticipates that there will be a large attendance of Texans at Omaha on this occasion.

> Kansas Sugar Making Pails. TOPEKA, Kan., Aug. 8.—(Special.) W. R. Taylor of New Orlean Orleans this left city yesterday with crowd of men to tear down and take t Louisians the old sugar mill at Medicia Lodge. This is one of the last sugar mills in this state, the others having been taken to New Orleans by the company which has purchased this one. Mr. Taylor says that sugar making in Kansas is a failure.

dstone by cutting down a tree or chopping the family fire-wood. A more ridiculous method of curing a man who is suffering from nervous exhaustion and is threatened with nervous prostration could not be well conceived. A man who has overworked does not need more work, but less work and more rest. The man who has lost his appetite needs some-thing to restore it. The man whose nerves are shattered needs something to tone and strengthen them. Get the nerves right and sound, and refreshing sleep will follow. A man who sleeps well and eats well, and digests and assimilates his food will not

remain ill. In cases of this kind Dr. Pierce's Golden Medical Discovery goes to bed rock—to first causes. It creates a hearty appetite; it makes the digestion and assimilation perfect; it invigorates the liver; it purifies the blood and fills it with the life-giving elements of the food. It builds up new flesh, new muscle and new nerve fibres. It is an unfailing cure for nervous exhaustion and nervous prostration, and the best of all medicines for overworked men and wo men. An honest druggist won't urge an inferior substitute upon you, thereby insulting your intelligence.
